Young Wife Afraid to Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines which you never thought was in your system. Excellent for obstinate constipation. J. M. Story, druggist, Stouffville.

DISTRICT and GENERAL

Two years in Kingston penitentiary was the sentence meted out to Harvey Cooms by Magistrate Wills in Whitby, on a charge of chicken stealing, many farmers in Ontario County and in Durham being the victims. In addition Cooms must serve seven months of a former sentence for a similar offence as he was out on parole. The magistrate referred to the epidemic of chicken thieving throughout the county, and expressed the hope that this sentence would have a deterrent effect.

While in Claremont on Wednesday of last week, Mrs. John Forgie was presented with a beautiful cut glass set by the Ladies' Aid of the United Church, as a token of the esteem in which she is held by them. The presentation was accompanied by an appropriate address, expressing their appreciation of her services in the Society in which she took a deep and active interest, never sparing herself in the good work. The address also expressed regret at losing her from their midst, but hoped that she would return to renew acquaintances. The best wishes of the Society would accompany them to their new home. Also on the eve of their departure the Managing Board of the United Church took possession of the home of Mr. and Mrs. Forgie and presented Mr. Forgie with a beautiful Coleman parlor lamp, accompanied by an address which was read by Dr. Tomlinson.

T. Orme Lowry, butcher, of Markham, was badly cut and bruised and knocked unconscious when he ran into Menno Raymer's threshing outfit coming up the hill on West Wellington St., Markham village, on Tuesday last week, says the Economist. Lowry was driving his Ford peddling truck and was coming west. The threshing outfit was coming west also and, owing to the icy road, had come to a standstill on the grade, and Clifford Raymer, who was driving the tractor, was engaged in bolting spikes into the flanges when Lowry crashed into the cleaner, driving the outfit four or five feet forward and breaking the coupling between the tractor and cleaner. The engine was driven back into the car, and Lowry, who was badly bruised and cut about the face and head with glass from the windshield, was pinned against the steering wheel, in a semi-conscious condition. Dr. Macdonald was summoned, who had the injured man taken home and attended to his wounds. It was feared that Lowry might be internally injured, but he is reported doing nicely, and should no complications arise, will be able to be up in a few days. Mr. Lowry says that he did not see the threshing outfit at all until he was right onto it. How he escaped being killed is a miracle. Cliff. Raymer also had a narrow

VANDORF

Mr. George Leary of Gormley and Mr. S. P. Foote of Bethesda were calling on friends in Vandorf on New Year's Day, says the Vandorf correspondent of the Aurora Banner. The conventional call of our gentlemen friends on New Year's Day, has not been generally observed in our community but we appreciate the thoughtfulness of our friends in their good wishes for our happiness in the coming year. Another year the ladies will be prepared to do their part and serve the customary wine and cake on the occasion.

See If You Can Solve This Puzzle

IT WON'T COST YOU ANYTHING TO TRY

FARM AND DAIRY, the well-known agricultural paper, offers over 100 prizes worth \$3,135, including a Chrysler Four Sedan and a Ford touring car, for correct solutions. For the full prize list and rules see the large announcement which appeared in a recent issue of this publication, or write FARM AND DAIRY, Contest Department, for full particulars.

HOW MANY MILES HAS THIS CAR RUN?

The problem is to find the sum total of the figures, which, when added together, represent the total number of miles the automobile has run. Every figure is complete and the drawing is entirely free from tricks and illusions, but like a lot of other things, it is not as easy as it looks. The figures range from two to nine, each standing alone, thus two, three, four, five, six, seven, eight and nine. There are no ones or ciphers in the chart. The tops of the sixes are curved and open, while the bottoms of the nines are straight and closed. By looking at any figure carefully you can easily tell what it is. However, to pick out all the figures and add them together correctly is a task which requires both patience and skill. This is one of the most attractive figure puzzles that has ever been produced, and it would be worth while to solve it even though no prizes were offered. In the event that no one obtains the exact answer, the prizes will be awarded for the nearest correct solution. Accuracy and patience are the main factors for arriving at the correct or nearest correct count. Those who display these qualifications to the best advantage will solve the puzzle best. We wish to have it clearly understood that there are no figures in any part of the picture except those which form the automobile and shadow underneath. No part of the background is made of figures. There is no trick in this puzzle. Every figure can be plainly seen. Remember, each figure must be added separately. For example: 37945 is to be counted as 3 plus 7 plus 9 plus 4 plus 5, total 38, and it is NOT Three Hundred and Seventy-Nine Thousand Seven Hundred and Forty-Five. In other words, simply add them as you would if each figure stood one above the other in a single column.
