NOTES & COMMENTS

According to the Municipal World the man who operates a gasoline pump on the street should be assessed as a tenant of the municipality.

In a survey made of over 1,000 rented farms in Michigan it was found that the taxes took much more than half of the rent money. Looks as if most of the Michigan farmers had abandoned their lands to go to work for Henry Ford, and were letting the home place go to seed.

At a convention of dentists in Chicago one member spoke out boldly in favor of the old-time practice of using the toothpick at the table and, on sanitary grounds, deplored the fact that it had been ostracized by modern society. However, his dictum is not likely to be received with favor except by the man who, on being reproved by his wife for employing the little wooden weapon in public, asks, "What's a toothpick for, anyway?"

Following is a clipping from the Tribune a number of years ago:—"A man who was too stingy to take his home paper sent his little boy to borrow the copy taken by his neighbor. In his haste the boy ran over a hive of bees and in ten minutes he looked like a warty squash. His cries reached his father who ran to his assistance, and falling to note a barbed wire fence ran into that, breaking it down, cutting a handful of flesh from his anatomy and running a \$5 pair pants. The cow took advantage of the gap in the fence and got into the corn. Hearing the racket his wife ran, upset a four gallon churn of rich cream into a basket of kittens and drowned them. In her hurry she lost a \$7 set of teeth. The baby, left alone crawled through the cream into the parlor, ruining a brand new \$20 carpet. During the excitement the eldest daughter ran away with the hired man, the dog broke up eleven setting hens, and the calves got out and chewed the tails off four night shirts. The man could have a paper of his own at \$1 a year and saved all the trouble and expense."

TOO MUCH EXPENSE SAYS A CITIZEN

Stouffville, April 1, 1927
Editor Tribune

Dear Sir:—Those who are reading the daily papers must be alarmed at the big government expenditures for one thing and another. I notice in Saturday Star, (March 26th) that Premier Ferguson is going to pay Mr. Hanna \$20,000 a year, and two of his assistants \$10,000 each to run the liquor business, making a total of \$40,000 a year. Is the country going to stand for this sort of a "grab"? We read in the good book that money is the root of all evil, and it certainly is to be freely distributed. The people have got to wake up, for governments are spending irrespective of politics.

Up at Ottawa too they appointed a commission to set right the custom department. An enquiry made last month that the commission sitting daily cost \$1,500. Aside from the generous salary paid the investigating commissioners of \$200 to Rowell and \$100 to Calder each day, it cost the country \$20 a day for N. W. Rowell's personal expenses, and \$15 for Calder. It's a good thing Mr. Rowell is a prohibitionist, or \$20 a day wouldn't last him until noon hour. Rowell is a wise owl, easy to get big pay when we are asked \$1.25 for a six ounce bottle.

What is needed is that the people should stand together and drop their political views, (and I have held party views all my life), and vote for the people who will stop the waste of public funds.

LATE DR. M. A. STOREY

An Illinois Daily paper contains the following item concerning the death of Dr. Mark A. Storey, who was born at Bloomington, Ontario, a son of the late Wm. Storey, Jarvis Storey of Bloomington, Frank of Markham, and Eli of Goodwood are brothers of deceased, also Mrs. Mary Morgason of Goodwood, is a sister. The Illinois paper says:

"Dr. M. A. Storey, well known in and around Bradford, where he lived for many years with his family, passed away at the home of his daughter at Bloomington, Illinois, on Thursday, March 3rd, 1927, death resulting from a stroke. He had been in ill health for the past several months. He was 60 years old.

Dr. Storey was born at Bloomington, Ontario, Canada, on Sept. 24th, 1866, and it was there he spent his early years. After finishing school at Uxbridge high school, he was graduated from the Ontario Veterinary College in 1891. He then left Canada, coming to Princeton, Ill., where he practiced his profession with a brother, Dr. R. W. Storey. From Princeton he moved to Buda, and it was there he met and married Miss Nettie L. Perego, daughter of the late Rev. G. W. Perego.

Later Dr. and Mrs. Storey moved to Bradford, where the family lived for close to twenty-five years. Two children were born to this union, a son and daughter. Mrs. Storey passed away in 1915. Later Dr. Storey and his daughter moved to Minoak, and after a few years' residence they moved to Bloomington, Ill. His last days were spent with his daughter, Mrs. Fred Hughes, who looked after his every want.

Besides the children, Merrill, of Bradford, and daughter, Mrs. Hughes there are three grandchildren, six brothers and one sister, left to mourn his death.

The body was brought to Bradford where burial took place

MONGOLIA

Archie and Mrs. Fleming were in Claremont recently visiting his parents. Sorry to say his father, John Fleming is ill.

Henry Smith, who recently lost a valuable rain cover for his horse, found it through a Tribune advertisement.

We are all ready to grumble when the roads are not in good shape because the foreman fails to fix them up at the proper time. This time a little praise is due as the 10th was dragged last Saturday, at a time when it was so badly needed, and a big improvement was made.
