OVER HUMILITY.

The Business Man's Set Habit of Self-Depreciation. Swift as they would be to deny and to laugh at the bare idea, a capital fault, none the less, with the majority of the business men of America is excess of humility. They neither know their own world of enjoyment they are shut out from through a set habit of self-depreciation. Of course this statement would make many a business man gape in open-mouthed astonishment and cry; Does the fellow take me for an idiot? Too humble, forsooth! Let him try me in a matter of hides or tallow, or jute or sheetings, and see whether I know what I am up to! Humility!
