"Before taking Doan's Kidney Pills I felt that diabetes had its grip upon me. I now know that it has been met and I defeat. I have used the pills for some time and now enjoy good health. A raid was made on D. Stouffer's cellar last night, the thieves getting through the cellar window and helping themselves to the comestibles. They also made an attempt to force an entrance into Mrs. Mason's cellar but Mrs. Mason waking up frightened them away. Our local constables should "get a move on."

The evening services in the Presbyterian Church here last Sabbath was conducted by Rev. Dr. Bruce, of St. John N. B. so delivered an intensely practical discourse reaching down to the first principles of spiritual life. His methods of applying scriptural truth cannot fail to arrest attention and deeply impress the heart. His subject was "We have not an High Priest who is not touched with the feeling of our infirmities." Attention was first drawn to the double negative which constitutes a very strong affirmative, much more so than if the affirmative form of expression had been used. He then drew a contrast between the Jewish high priest and Christ in his priestly office, the former being merely a man unable to sympathize with erring and unstable humanity, while Christ knows all and is both able and willing to assist to the uttermost those who put their trust in him. The sermon throughout was highly interesting and could not fail to produce excellent results.
