J. B. Flint, of Pittsburgh, visited friends in town on Saturday and Sunday, and Mrs. Flint will remain for about a month before returning.

W. Hall broke his wagon tongue at the creamery on Monday. In passing another vehicle which was not giving half the road, he turned out his team rather short, thus causing the damage.

FOR SALE.—The east half 20, in the 9th concession of Whitechurch at Island Lake. There are on the premises a good barn with stone foundation, and 2 small houses. For particulars apply to Michael Johnston, Altona.

The time for building up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the true Blood Purifier and Nerve Tonic.

Hood's Pills become the favorite cathartic with all who use them. All druggists sell.

A New York clergyman recently said in public that he never, perceiving the truth and the whole truth can be a financial success. Similar reasoning might apply to the pupil. The truth when told directly to the person concerned is often unpalatable and would in many cases result in physical exercise of a vicious nature. It is a noted fact that many of the public like to be whitewashed and the press, pulpit and gravestone are often the means to that end.

One of the most interesting discoveries in Egypt of recent years is a tablet, found by Professor Flanders Petrie at Thebes, recording the journey of the Israelites in Egypt. The date of this tablet is estimated to be about 1200 B. C. A fac simile of the inscription is on exhibition at the university college at London. Among the discoveries at Thebes was also a bronze Assyrian helmet and a set of tools also supposed to be Assyrian. These tools consisted of three saws made for pulling, not for pushing, one rasp, one file several chisels and fureils, a scoop-edged drill, two centre bits and others. The discovery indicates an earlier use of such tools than was generally expected.

Our school has done well at the recent entrance examination, twelve pupils having been successful. There is one thing in connection with our school we would specially commend and that is the action of the Board in retaining teachers as long as possible. Our principal Mr. Hand has been with us for a good round number of years and every departmental examination goes to show the wisdom of continuing him at the helm of education. He is also assisted by a staff of energetic and efficient assistants who lay a thorough foundation on which to build the superstructure. May the institution go on increasing in success preparing the rising generation of the town to eventually take their place in the transaction of the business of the community.

Miss Alda Burton, of Toronto, is visiting her aunt, Mrs. D. L. Barclay.

Miss Emma Mackie, of Toronto, is visiting her sister, Mrs. D. L. Barclay. John Davis, wife and family, visited at Uxbridge on Saturday and Sunday. Reeve Johnson went to Toronto yesterday to solicit special prizes for the White-church Fall Fair.

Clearing sale of Straw Hats at J. J. Rae's. Everything must go this month at cost.

The front of the Anglican church has been improved by terracing it up as high as the stone-work extends.

DR. WOOD'S NORWAY PINE SYRUP positively cures Coughs, Colds, Asthma, Hoarseness, Bronchitis and all diseases of the pulmonary organs.

Mr. Hayden, of Toronto, who about a week ago was very ill at the home of his mother-in-law Mrs. Harland, is now much better.

Mr. Harper, station agent at Kilmount, and wife after spending a few days at J. Urquhart's, started last evening for Bay City, Mich.

The army worm has invaded an oat field on the farm of C. J. Brodie, jr., on the 6th concession of Markham, and destroyed half the crop.

While riding with Levi Hoover on Tuesday, Master Allan Perkins fell out of the buggy and the wheel ran over his limbs but he was not much injured.

We understand that Inspector Nendick has had information against the owners of eight or nine canines, who have not yet invested in the necessary "brass" to adorn the animals for 1896, but owing to the absence of the rove the summonses will not be issued till to-morrow (Friday).

Effort.—Charles J. Booth, Olive-wood, Cal. says: "I have used Ayer's Pills in my family for several years, and have always found them most effective in the relief of ailments arising from a disordered stomach, torpid liver, and constipated bowels."

The York District Council of the Royal Templars of Temperance meets in the lodge room, to-morrow for morning and afternoon sessions. Rev. H. S. Matthews of Newmarket, District Organizer, is expected to be present. A public meeting will be held in the evening to which all are cordially invited. Mr. Holland, of Aurora, assisted by visiting and local members, will render some choice selections of music. Collection to defray incidental expenses.

It is nearly settled that the Australian colonies will shortly become confederated, on the lines of the Dominion of Canada. In all but one of them, Queensland, an Enabling Bill was passed at last year's session, and a similar measure is now before the Assembly of Queensland, though, in accordance with the more conservative traditions of the colony it provides that the delegates to a constitutional convention shall be chosen not by the people, but by the present Legislature in which the anti-Socialists have a majority. The Queensland delegates owing to the method of their election, are likely to act as a restraining force on the convention, but it is certain that the constitution framed for the Australian confederation will be of an advanced democratic type.

For exercise and amusement our national game fully fills the bill, but considerable improvement might be made in the direction of maintaining good order among spectators on the field. It is quite pardonable to cheer and applaud the home team but to slur or insult a visiting team should be frowned down upon. We think the inhabitants of our town have carefully guarded against uttering unkind language during the progress of lacrosse matches, and would regard with great disapproval anything which would make a visiting team uncomfortable. No two teams are exactly equal in all respects and the object of these matches is to test superiority of skill and ability and we should all gracefully acknowledge merit wherever it exists and cultivate the kindest feelings towards each other.

Considerable interest is being taken in the division of the county into districts in accordance with the County Councils Act. Each man has his own idea of the scheme which in his opinion, would be most beneficial, and of course, none of them are influenced by any supposed advantage or disadvantage in the matter of increasing their votes! The scheme which appears to meet with the most favor is following: It is proposed that Division 1 should consist of Scarborough, East Toronto and East York; Division 2 of Etobicoke, Weston and West York; Division 3 of Markham and Markham Village, Division 4 of Vaughan, Woodbridge and Richmond Hill; Division 5 of Whitchurch, Newmarket and Stouffville, Division 6 of King and Aurora; Division 7 of East Gwillimbury, North Gwillimbury, Georgina, Sutton and Holland Landing. It is thought that a proposal on lines similar to the above will be adopted by the judges as most equitable. There are, however, two objections urged against it. One of them is the undue assessed value of the southern lands, which amount to five or six million dollars, in comparison with that in the north, amounting to three and a half millions. The other is the large area and small number of municipalities comprised in division 7 compared with the area of the other divisions and the number of their municipalities.

Money to Loan. Enquire for rates and terms. R. J. DALEY, Stouffville.

Parties wishing to get binder twice run me, call at T. E. Trull's hardware store. LEVI HOOVER.

Mr. Underhill, of Markham, is visiting at the home of his son R. Underhill.

Mrs. Coventry, of Parliament St. Toronto, is visiting at the home of her father Matthew Rae.

Mrs. H. B. Sanders, of Milwaukee, returned home last Thursday and arrived safely at her destination.

On Friday morning last William Henry infant son of Henry Dixon, died of cholera infantum.

B. Musselman, of Thornhill, attended the funeral of his uncle, B. Brownberger, of Ringwood.

NO COLD OR COUGH is too severe to yield to the curative power of Dr. Wood's Norway Pine Syrup. It has cured thousands of cases.

MUSSELMAN'S LAKE.—At the Ballantrae Festival on Saturday next four foot ball teams will be present—Saudford, Pine Orchard, Zephyr, and Ballantrae. Exciting play is expected.

Ralph Concha, Heavy Colds, Hoarseness, Asthma and Bronchitis cured by Dr. Wood's Norway Pine Syrup. The best in the world.

WHY suffer from Coughs, Colds, A sore throat, Asthma or Bronchitis when perfect cure is so easy with Dr. Wood's Norway Pine Syrup. Price 25c. all druggists.

Mr. and Mrs. Potter and family, and Miss Potter, of Sunderland, visited at the home of C. Radmore over Sunday.

A large number of men this afternoon to the Methodist S. S. picnic at Musselman's Lake, and they are having very pleasant weather.

Dr. Jantesson, who received such notoriety in connection with his raid upon the Transvaal and who on his arrival in England was arrested, together with Major Sir John Willoughby, Major R. White, Captain Henry F. Coventry, Col. R. Grey and Col. H. F. White and tried for violation of The Foreign Enlistment Act, were found guilty and sentenced to various periods ranging from 5 to 15 months each.

Mr. Entwisle—I wish to suggest through your columns that a couple of members of the Board of Works do the female costume for a few hours some day after a shower of rain and march 'two abreast, without crowding, along some of our four foot walks and at the end of their journey report to the Tribune the state in which they found their skirts from contact with the weeds and grass that struggle to monopolize both ends of the walks in many places. Experience is the best teacher. Yours respectfully,

—DRABBLE TRAIL.

A number of our town youths were observed by the Inspector in the act of playing cards last Sunday which to say the least of it is not a profitable Sabbath occupation whatever may be said of it for a week day amusement. One thing is certain there is neither intellectual or moral improvement connected with cards and what is more, playing them on Sunday is a violation of law which the Inspector says shall not be permitted again, if he knows it, without having the proper remedy applied, in such cases provided. A word to the wise is sufficient.

The particulars of another great Russian railway project are announced—a railway across the Caucasus to connect that region with the lines of Southern Russia. The project of a line cross the Caucasus from one end to the other has been under consideration, and the Russian Government interests itself the more in the scheme considering what an importance such a line would have from a strategic point of view. From a purely commercial point of view, says Herapath, the line is said to leave nothing to be desired. It would cross well cultivated and populous districts, and the final section would pass along the Black Sea littoral the most fertile and the richest region of the Caucasus.

The price of old oats is phenomenally low this season, selling at 16c per bushel at Stouffville. The new crop will soon be on the market and with a large quantity of last year's oats in the hands of farmers will undoubtedly still further depress the price. It looks as if tenants will find it very difficult to secure enough cash this season to meet their rents, as they are relying to a considerable extent on the oat crop. If the prices of grain are going to continue thus low, landlords will be obliged to decrease rents else tenants will be forced to engage as farm laborers. Agriculture in America is passing through a severe crisis having to compete with the production of cheaper virgin lands of this and other countries, harvested by the best and most modern inventors. It is impossible to predict with any certainty what course the farmer should now adopt. However, we think that butter, cheese, beef, fruits and branches of agriculture which require labor, skill and experience will pay for all time, but the old method of slipshod farming will pay no longer. Every man is not qualified to farm successfully. The farmer must be brought up to the business and must study it out in all its details to make it profitable.

Minard's Liniment is the Best.
