POLICY OF CAUTION.

It is generally known that there are too The introduction of mahogany into Eng- many traders in Canada, and that business land and the commerce of the world was consequently suffers from excessive compecaused by the repairing with a plank of tition, while expenses are even more disthat wood of one of Sir Walter Raleigh's proportionate to the ratio of profits realized. Keen competition of this kind, however, occasionally hear of in lands where there in the early part of the season, either in Ontario, Quebec or the Maritime provinces, The killing of elephants is going on at yet upon the whole the farmers will have their grain at current prices, which should L, whose tomb was opened in 1870, and his A policeman in Jersey City, finding a thief enable retailers to collect more easily and especially sugars and teas is expected to fresh" in 1766 by the workmen repairing An ancient bell dug out of the roins of give an impetus to business, and there however, appears equal to the simple nounced by local experts to contain gold cy of values in agricultural products, wheat

MANY SIDED NATURE.

quite fresh and plump." A most romantic prehistoric times was discovered in south- It has been very eloquently as well as very wisely asserted that "morality res-In digging in a peat moss, the bodies of teeth was filled with gold in the manner pects the laws of the several realms which to each the unimpaired maintenance of its local customs." This is rightly equivalent to saying that right-doing is largely a What Mr. Cecil Rhodes is Doing in South | matter of limit. It recognizes all the powers, Africa-He is Dictator and May Become | all the faculties, all the need and all the enjoyments of man, and only prescribes the Cecil Rhodes, who, had he lived a hun- boundaries beyond which they must not dred years ago and talked as he has done trench on each other. Our nature is many to the Imperial Government, would have sided and all sides need cultivation. An had to take a taste of prison life, is slowly exclusive reference to any one must do indeveloping his own scheme of land tenure justice to the rest. For example, there is in South Africa, where, originally a fili- the motive of self interest. By following it buster and landgrabber, heisfounding a new exclusively it will be degraded into selfishcolonial empire. There are grave doubts ness; but when it is enlightened, educated whether some day he may not take it into necessary and justifiable motive. Pair is, his head to declare Matabeleland a republic also one of nature's teachers, whose lessons or a detached monarchy, paying perhaps we cannot afford to dispense with. The tribute to the British Crown as Burmah will enhance temporal enjoyment, will lead pays to China, or Corea pays to that to health, give power to the faculties and Empire, while claiming and exercising value to life, is certainly essential, and the sovereignty. Rhodes, unlike many pioneers appeal to such a motive is always valid and, metimes, the best that can be selected.

The affections, too, afford motives which nothing else can supply. The love of a visits to Africa were diamond-hunting, and gence and vice to paths of propriety and efforts to promote human happiness is a serious mistake. Then there is the intelligent use of the reason, showing the operations of cause and effect, without which, to motives for action which are not only

British Fruit Crop.

The tabular report in The Cardenera remarkable result is recorded, but of an opposite character, pears being almost everywhere abundant. Plums are generally deficient. Cherries, on the other hand, are remarkably abundant, there being forty-five "average" reports from Scotland, and no fewer than 126 from England, &c. from the frost; strawberries have been uni versally scarce, and bad in quality; currants, raspberries, and gooseberries fairl

A Health Indicator.

Mrs. Nexdoor-" How is old Mr. Moneybaggs this morning !" . Mrs. Sharpeye-"I haven't heard, but "So you were introduced to Mrs. Tungey I noticed that Doctor Bigfes looked very gloomy when he left he Moneybaggs

residence a little while ago." Mrs. Nexdoor-" Ah, then the war old entleman is getting well."
