SANDERS & BUNDY
Scott's Sarsaparilla
A CUTIE Inflammatory Rheumatism is produced by an excess of uric acid in the blood. Paralysis is nearly a dead circulation produced by impure and impoverished blood. So-called neuralgia of the thigh is sciatic rheumatism; sciatic rheumatism is hereditary; syphilis results from syphilis; gout is caused by high living; almost all circulation affects the heart.

"THE KIND THAT CURES"
Thus the whole line of rheumatic diseases owe their being to an affected circulation of impure blood. No person can suffer a rheumatic pain that has a free and equal circulation of pure blood, and this accounts for Scott's Sarsaparilla curing the supposed incurable cases. It eradicates all rheumatic poisons and acids from the blood and equalizes the circulation.

RHEUMATISM AND GOUT
SCOTT'S SKIN SOAP
PREVENTS GREAT COMPLEXION
SOLD BY
J. L. Mackenzie,
The Old Reliable Drug Store.

To Rent—A comfortable house in the east end Stouffville. Apply to Dr. S. L. Free Stouffville.

RHEUMATISM CURED IN A DAY.—South American Rheumatic Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75c. Sold by Rowan & Co. Druggists.
A few of our local sports, prominent among whom is W. B. Sanders, have made a dam near the head of an excellent spring at Ligonville and have stocked it with "speckled beauties." There are a number of similar springs in this vicinity which could be thus utilized and would yield a good revenue as well as pleasing sport.

The Markham Township Commissioners, Messrs. Reesor, Lawrie and Scott, for the erection of the new Byer bridge on the 8th Con. have been disappointed by the Iron Bridge Company in its not having been put up in time as per contract, and in order to not impede travel during the Markham Fair they have had the old bridge thoroughly braced and stayed and it is now perfectly safe to travel over.
In his Vegetable Pills, Dr. Farm-lee has given to the world the fruit of long scientific research in the whole range of medical science, combined with new and valuable discoveries never before known to man. For delicate and debilitated constitutions Farm-lee's Pills act like a charm. Taken in small doses the effect is both a tonic and a stimulant, mildly exciting the secretions of the liver and bowels.
LACROSSE.—On Saturday last the Uxbridge juniors played the Stouffville juniors on the fair grounds here and the result was one game each. Stouffville endeavored to induce Uxbridge to play on, as there was plenty of time, but the latter refused, as no doubt they felt that Stouffville was considerably too strong for them however, it was an interesting match and the utmost good feeling prevailed on both sides.

There was a good attendance at the "At Home" festival held in the Congregational Church on Monday evening and the entertainment was in every way a good success. To satisfy the hunger and thirst of the ladies are to be complimented on their efforts in this direction, as there was sufficient of everything to satisfy the appetite of the most fastidious. As to the auditorium of the church, it was grandly decorated with the products of both farm and garden and the evening was pleasantly spent in listening to excellent music and lively addresses by the resident ministers. The proceeds amounted to over \$50.
Even now disease is very imperfectly understood, and physicians are groping in a dim light in their search for means of curing it. In the treatment of organic or structural diseases, as of the nervous system, the blood vessels, and various vital organs, the fact, says Modern Medicine, is quite generally overlooked that the structural change is a consequence and not an actual disease. The real disease is the morbid process which has resulted in the tissue change. The researches of Bouchard and other modern investigators have thrown great light upon this subject, and have placed upon more than probable grounds the theory that the presence in the blood and tissues of various morbid substances of a toxic character, such as uric acid and various leucemins and ptomaines, originating in the tissues as the result of imperfect oxidation or absorbed from the alimentary canal wherein they are produced by microbial action and morbid digestive processes, constitute the real morbid entity in a large number of organic or structural maladies, especially those of the nervous system and kidneys. In the treatment of these affections, it is, then, of the utmost importance that the physician should look carefully after the processes of digestion and respiration. These are the two great means by which the blood is to be purified. The exclusion from the dietary of poisonous substances and of such food substances as readily undergo putrefactive processes in the alimentary canal, and the introduction of an increased quantity of oxygen whereby the poisons resulting from the morbid tissue changes may be destroyed by oxidation, constitute the most important measures for combating the onward march of an organic affection. An ideal mode of treatment will necessarily include both remedies aimed at the morbid tissue itself and measures which strike at the root of the disease. Bacteriology and physiological chemistry are opening up for us almost daily new lines of thought, new methods of treatment and new possibilities of cure.

The Times of India propagates the idea of making a railway from the Suez Canal to India. The notion is that the line should start from a point across Arabia, and cutting right across Arabia, terminate at the head of the Persian Gulf, nearly following the line of the thirteenth degree of north latitude. The distance to be covered is nearly 1,000 miles. The author of the scheme says that there would be no serious engineering difficulties to contend with, and that the building of no line of equal length anywhere would give birth to such important results as this one. If such a line were laid down, the traffic coming and going by it would naturally pass through Kurrahee, and Bombay would probably lose a considerable amount of its importance.
A London cable letter says:—A striking illustration is afforded this fair season of the lack of resource of the British farmer, of whose woes so much has been heard. There has been a prodigious glut of plums, with the result that the price for the fruit has fallen to two pence a pound, which is phenomenally low here and does not pay the cost of gathering and freighting. The growers simply sat down and waited and allowed the fruit to fall and rot. If instead of this they had hustled around and dried the fruit, they could in a month or two have got sixpence a pound with no fear of a glutted market. England pays annually a sum equal to \$2,250,000 for this kind of dried fruit imported mainly from France. The fact struck some shrewd Americans a few years ago, and they brought over and tried to sell a simple sort of a fruit dryer, but the venture has not been a success, thanks to the ridiculous conservatism of English farmers. The thing was outlandish, worse still, it was foreign, and it was looked at askance, to the great profit of those very foreigners whom John Bull affects to despise.

Collars, cuffs and neckwear in great variety at Monkhouse's.
The greatest Bargains in town is at Warriner's.
Charlie Urquhart now of Newcastle, visited at the old home this week.
New Boots, golf boots, good wearing boots, at S. M. Warriner's.
Miss Albert Bader, of Brampton, is visiting Mrs. S. M. Warriner.
50 Barrels of Alexander apples wanted, J. H. Ratcliff & Co., Stouffville.
Queen coffee put up in coffee pots and 1-quart milk pails, something new, at Rae's.
Fred Nighswander, of Toronto, visited last week his grand parents Mr. and Mrs. Stock.
Both on human and horses and all animals cured in 30 minutes by Warriner's Sanitary Lotion This never fails. Sold by Rowan & Co., druggists.
John Williams, for whom a subscription was taken up by the boys to enable him to defray his expenses to join the Kickapoo Medicine Co., "blew" all the shuckles in Toronto.
Mrs. John Porter, of Ashburn, sister of Mrs. T. J. Dougall, who has for some time been suffering from dropsy, passed away on Thursday last. Her remains were interred on Saturday in the Ashburn cemetery.
At Martin Roach's Ballintrae, on Sept. 14th, Seneca Pipher with his threshing machine threshed for a time at the rate of 8 bushels a minute of oats, which kept two men hustling at carrying boxes. Who can beat that?

On the board fences in the vicinity of nearly every country town may be read in half obliterated letters of paint the names of business firms of that community, now passed away, who thought they knew a better way to advertise than in a newspaper.
Hon. G. W. Ross, Minister of Education, is asking the school boards and trustee officers of the province their opinion in regard to the truancy which prevails in each district, whether it is due to ignorance, indifference or poverty of parents, or to the absence of proper family control. His intentions are at the next session of the Ontario Legislature to revise the Truancy Act.
The large accommodations of the Hotel Liverpool have been taxed to their utmost capacity during the last few weeks. The foreign cattle trade at that port has been much better than any other branch of the shipping business, due probably, to the prevailing low rate of freight. While the supplies are large the demand is not greater than usual and the market is becoming very tight. At the present time in the North American cattle trade alone a demand equal to 12,000 beasts a week could be served, while 4,000 is sufficient.
Parnelle's Pills possess the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, and removing disease. In fact, so great is the power of this medicine to cleanse and purify that disease of almost every name and nature are driven from the body. Mr. D. Carwell, Carwell P. O., Ont., writes: "I have tried Parnelle's Pills and find them an excellent medicine, and one that will sell."

Whitby Chronic: We notice several local papers around here are advertising for a Chicago firm which sends money to believe that if they want money to its address, to be used in speculation, \$1 will be turned into \$10. It strikes us that if there are any such firms in Chicago there are thousands to grab them, and tens of thousands of dollars ready to be invested. The same firm tried to get an advertisement inserted in the Chronicle, but we never answered its letters. We have our opinion of papers which will insert such advertisements, and people should exclude them from their houses. No man should take a paper which will help to skin him.
A Book for Horsesmen—One bottle of English Spavin Liniment completely removed a curb from my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, soft or calloused lumps, swellings, splints, curbs, swellings, stifles and sprains. GEORGE ROBE FARMER, Markham, Ont. Sold by Rowan & Co., Druggists.

Palestine is a good old Scripture name and should be indicative of the greatest peace and harmony, but from complaint made by Henry Graham against his neighbor Bryant Streets it seems that for some time discord has existed. Mr. Graham on Monday laid information before Justice Dougray against Streets for assault Streets appearing in due time handed over \$1 and costs. Assault is a poor business under any circumstances. The world can get along very well without it, but some people have to be taught this fact.
Wright, a farmer, living on the boundary of Tyendinaga and Richemond Townships, was swindled out of \$200 last week by a sharper, who represented himself as a land speculator. On Monday a well dressed stranger called on Mr. Wright and said he was the possessor of a lot of money that he wanted to invest in land in that vicinity. As Mr. Wright was an old resident and knew everybody in the neighborhood he would be a good man to act as his agent, as he did not want to appear in the matter. Mr. Wright readily fell in with the scheme. The stranger offered to place \$5,000 in the old man's hands for a certain parcel of land. He wanted Mr. Wright to put up a couple of hundred dollars as a guarantee of good faith. This the old man consented to, and the two drove to town on Tuesday and Mr. Wright visited the bank and drew out the money. On the way back home they met another stranger, who the sharper represented as an old friend from Kentucky. The fakir then proposed that as he had to go away for a few days on other business he would put his \$5,000 in a little tin box which he produced, and that Mr. Wright would deposit his money there also. He would lock the box and keep the key, and the sharper would take the box containing the money till he came back. This was done, and shortly after the stranger's departure Mr. Wright became suspicious and told one of his friends, who advised him to see Mayor Stevens of Napanee and show him the box. Wednesday night the old man came to Napanee, and on the advice of Mayor Stevens the box was broken into. It contained a couple of pieces of wood and an old newspaper. No trace of the fakirs has as yet been discovered.

Coal has taken a rise in price. White and negligé shirts in great variety at Monkhouse's.
Try Warriner for suit furnishings, he has all new goods.
Fruit jars at the very lowest figures at J. J. Rae's.
Try Warriner for teas, the cheapest place in town.
Hon. Edward Blake is again afflicted with his old complaint, insomnia.
Mr. Wurt's bread horse on Saturday night did not relish going back to Alton so late in the evening and while the driver was making a delivery the animal started for Stouffville, the rig was stopped at C. Mitchell's and detained till the driver arrived. No damage.
On Monday nearly the entire State of Colorado was covered with a mantle of snow. At Geelv. 50 miles north of Denver, the snow was 14 in. deep, while at Denver it was 8 inches. Much damage was done to late grain and it is expected that sharp frosts will do much damage to fruit. The snow extended 150 miles south of Denver.
English Spavin Liniment removes all hard soft or calloused lumps and Blisters from horses, Blood Spavin, Curbs, Splints, Ring Bone, Swellings, Stifles, Sprains, Sore and Swollen Throat, Goggles, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by Rowan & Co. Druggists.

Raz weed has found its way to this section and will soon make its odor felt at threshing time. Wild oats and mustard also exist in many localities and the Canada thistle is hurrying up for a second crop of seed. Wild tares are also spreading and, unless the gang plow is pushed vigorously over the ground after the season's crop is removed, these noxious weeds will in time tell heavily against succeeding farm crops. Careful and persistent cultivation alone will ensure the subjection of weeds.
Relief to Six Hours—Discharging Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain, the retention of urine, and the sense of heat, almost immediately. If you want quick relief, cure this is your remedy. Sold by Rowan & Co., Druggists.

The date of the Provincial Plowing Match has been fixed for Wednesday, Oct. 23rd, on the farm of Thomas Cairns, south of the cemetery, Owen Sound. The districts represented in the match are Nos. 10, 11, 12 and 13, which include the counties of Huron, Grey, Bruce, Essex, Kent, Lambton, Middlesex, Perth, Simcoe, with the city of London and the districts of Algoma, Muskoka and Parry Sound. The prizes to be awarded, offers prizes to the amount of \$105 in the first class; \$75 in the second; \$75 in the third class, and \$95 in the fourth class for boys of 18 and under, besides several special prizes for sulky plows, etc.

WEEKLY MAIL AND EMPIRE.—The banner weekly of Canada. As up to date paper, newsy, bright, clean, just what you want. Try it one year and be convinced. The news of the world, reliable market reports, political intelligence. A complete paper for the family. Every Anglo-Saxon looks back with pride to the many victories won in which Great Britain has been engaged, and the recital of the deeds of valour by our ancestors, though often retold, possesses a charm and a freshness for old and young. To firmly fix more brilliant occurrences on the minds of the people of Canada and, if possible, intensify the national feeling so pronounced in the hearts of all our people, object lessons will be presented regularly in the Weekly Mail and Empire during the year. Pictures of the Noted Battles and British victories by land and water with appropriate descriptive matter of the deeds of daring performed by heroic soldiers and sailors in every quarter of the globe. These Pictures will not only revive historical reminiscences, but will inspire the youth of this country with admiration for those who contributed to the greatness of the Mother Land.

STANDARD BANK vs. BARNET.—Mr. Barnet, who had been a customer of the Standard Bank here, placed several notes in the Bank for discount and, three of these notes being regarded by Mr. Elliott, the manager, as "weak" were handed to Mr. Barnet to collect, he being permitted to take cattle for them, if he could not get cash. Mr. Barnet got cash on two of them, but has not handed it over to Mr. Elliott as he says he has asked for a full statement of his account and Mr. Elliott declines to give it to him. As will be remembered Mr. Elliott sent a constable to Huntsville and had Mr. Barnet arrested on the charge of theft and cried before a bench of magistrates, who decided to commit him for trial. When the case came up before the grand jury, Mr. Elliott was in Detroit, and "no bill" was found. The case was brought again before the grand jury last week, and "no bill" was again found, the jury considering that there was no ground for criminal action but that it was a case for the Civil Court to adjudicate on. Mr. Barnet some time ago entered suit against Mr. Elliott for false arrest and his intent at once to instigate proceedings to have his accounts taken with the Bank. This case is of a multifarious nature as it is connected with the case Stark vs. Standard Bank, which is also in Court.

DIAMONDS Are valuable, but they are not in it with Dr. Key's Kidney Pills where you are troubled with Rheumatism. One box will convince you of their worth.
