Mrs. C. J. Wooldenge, of Worthsm.

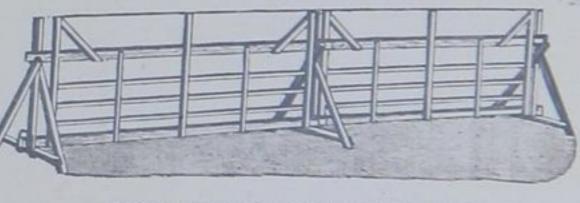

Texas, saved the life of her child by the use of Ayer's Cherry Pectoral. "One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it stran-gling. It had nearly ceased to breathe. Realizing that the child's alarming condition given, I reasoned that such remedies would be of no avail. Having part of a bottle of Aver's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breath ng grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Poc-

3rd After your crops are taken off it can be rapidly taken and set around roots or any crop you wish to protect. 4th Farmers can do with one quarter of the fencing and to all intents and purposes better, thus enabling them to till all their land which is a great preventitive of rubbish getting a start along fence sides.

5th This fence can be readily and easily made by almost anyone under cover in bad weather or in the winter when work is slack, 6th No work to do in taking down for removal or in setting up. 7th It is the only adjustable and self-locking fence made and is not affected by wind or frost and is a complete barrier to all kinds 7th It is neat, strong and durable and has a beautiful appearance.

9th One man can set up 100 rods in less than two hours, and it can be as quickly taken down for removal. 10th A section of it can be taken out at any place and used as a gateway. 11th There is no more need of herding when you can get all the fencing required for a small outlay. 12th It can be used for enclosing stacks, yards &c. &c.

13th The fence is all we claim and much more could be said in its favour. A FEW TESTIMONIALS. Last spring Mr. Cook built about 20 rods of Duncan's Portable Fence for me around part of a vegetable garden, which gives perfecsatisfaction. Its points of excellence are these. It is durable as no part of it requires to be under ground. It is quickly and easily

built and removed, and can be piled away in small compass when not required. It is comparatively cheap and is neat and presty. It does not take up much land and is in no danger of being destroyed by cattle, horses, &c. All these good qualities make the fence thoroughly useful and satisfactory. This is to certify that we have examined the Duncan Fence and after using other makes of fence we do not besitate in recommend-

ng it to the public, as we intend in future to use nothing else as a farm tence. McKINNON BROS., Cashel P. O., Out. Wm. McMillan Emigration Commissioner Manitoba Government, says: Gentlemen - Having examined your fence 1 consider it well adapted for use in Manitoba and North West.

WM. McMILLAN, Carbery, Manitola, Hear what the Directors of East York Agricultural Association say: - Haying examined Duncan's Portable Patent Fence find it a very useful one for farms and would recommend it to those needing fencing. JAMES BLESS, WILLIAM HOOD, Buttonville, Out. It gives me great pleasure to say I am extra well pleased in every respect with the Duncan fence, I like the neat appearance of

t. I built over one hundred rods this summer and intend to build more in the future. I am fully convinced that the Duncan sence is the cheapest, most durable and easiest constructed sence a farmer can build. I find it a great saving of time and would nighly recommend it to those needing fencing, Yours truly, S. B. REESOR. Bowels, Richeys and Liver, carryins off gradually without westaning the

Dear Sirs:-The Portable fence we purchased from you last spring is a complete success. We find it the mort perfect fence we ever saw, and have not the slightest hesitation in recommending it to farmers. We had occasion to move 40 rods of ours into the ad-

joining field, time required was 11 hours. We also have 200 rods of your stationary fence, it is a cheap, durable fence and will build Ringwood, Aug. 17th 1893.

Last spring I put up 65 rods of the Duncan stationary fence and was well pleased with it. As it was on the road side, a great many people stopped and examined it and said it was just the fence for the farm. Having purchased a farm right, I intend to make young ensign of the Novobrinsk Regiment, up 100 rods of the Portable fence next winter, as I am convinced that it is just the fence that every farmer needs.
