PRESBYTERIAN CHURCH. Main St., Stouffville, Rev. H. E. A. Reid, P. A., Pastor. Residence Edward St., West End. Divine services every Sunday at 10.30 a. m. and 7. p. m. Sunday school at 2.30 p. m. General prayer meeting on Wednesday evening at 8 o'clock. Junior Christian Endeavor Monday evening at 6.45 and Senior at 8 o'clock. All are welcome.

CONGREGATIONAL. Main St., Stouffville, Rev. H. E. A. Reid, pastor. Residence Main St., East End. Divine services every Sunday at 10.30 a. m. and 7. p. m. Sunday school at 2.30 p. m. General prayer meeting on Wednesday evening at 8 o'clock. Junior Christian Endeavor Monday evening at 6.45 and Senior at 8 o'clock. All are welcome.

BAPTIST CHURCH. Main St., Stouffville, Rev. T. Booker, pastor. Residence Albert St., south. Divine services every Sunday at 10.30 a. m. and 7. p. m. Sunday school at 2.30 p. m. Prayer meeting on Wednesday evening at 8 o'clock. Young People's Union every Monday evening at 8 o'clock. All are welcome.

METHODIST CHURCH. Church Street, Stouffville, Rev. Jos. Young, pastor. Residence Main St., west end. Divine services every Sunday at 10.30 a. m. and 7. p. m. Sunday school at 2.30 p. m. General prayer meeting on Wednesday evening at 8 o'clock. Epworth League every other Monday evening at 7.30. All seats free. Strangers welcome.

THE TRIBUNE.

STOUFFVILLE, NOV. 29, 1894

H. Johnson intends to stand for reeve for 1895.

Owing to the recent change in the make-up of the TRIBUNE all business advertisements are required to be handed in not later than noon on Tuesdays.

New Law Office.—Messrs. Stephenson and Bentley, solicitors &c., have opened a law office over Warriner's store, where a member of the firm will be found daily for the transaction of business. See card in another column.

That soft, rich, glossy sheen, so much admired in hair, can be secured by the use of Ayer's Hair Vigor. All the assistance that nature requires to make the hair strong, beautiful, and abundant is supplied by this excellent preparation.

At the Epworth League debate on Monday evening it was decided that the "influence of woman was greater than that of man", after bringing forward all the noted worthies from Moses to Gladstone.

Our butter buyers on the market to-day were not at all anxious to purchase butter which had the flavor of turnips. They were offering only about 14c a lb for it as it is saleable only for baking purposes. It may be well enough to feed turnips to beef cattle but to mix cows it is not at all safe as no matter when fed they are sure to impart the butter. The yellow-mangled is a better butter—producing root and why not cultivate that for milk cows instead of the turnip. Farmers should carefully weigh matters of this kind and produce that which will command a ready sale at the best margin of profit.

We are being repeatedly asked as to the procedure to be taken in case of estrays taken up by farmers and others, and on examination we find that the by-laws of the several municipalities give instructions as to the disposal of them and not the Ontario Statutes. A copy of such by-law can be by any ratepayer by writing to the clerk of the municipality. One thing seems to be necessary in all cases, that parties taking up animals, if they desire to get remuneration for feeding and care of them should advertise them as soon as they take them up.

The meeting in the interests of the Stouffville Bible Society was held in the Methodist Church last evening at which the attendance was fair. Revs. H. E. A. Reid and I. A. Shanton delivered addresses in favor of supporting liberally the institution. A collection was taken up and subscription lists passed round. The lists will be placed into the hands of collectors who will then long call upon the public to receive their offerings for the benefit of the Society. It is to be hoped that all on whom they call will, if they cannot contribute, give them a pleasant greeting and a word of cheer which will encourage them in this good work.

ENGLAND STILL HOLDS HER OWN.—In the report of Hon. H. A. Herbert, Secretary of the U. S. Navy, is a table showing the comparative strength of the leading naval powers of the world. From this we learn that Great Britain has fifty-three battleships built or in course of construction, a number that is two in excess of the combined strength in this line of France, Russia and Germany. Of armed cruisers the Mother Country has eighteen in service against twenty-four built or being built for the three other possible enemies named. Of protected cruisers Great Britain has 92 afloat or on the stocks, while the other three powers have but 35. And of unprotected cruisers the British have 100 and the French, Russian and Germans but 75 between them. Thus, in all the more important respects comprising the fighting strength of a navy, the old land is not only equal to any two powers but actually surpasses any three that are at all likely to enter a league against her. Under these circumstances there appears to be but little reason for the scare about the weakness at sea of which so much was heard in London a few weeks ago.

LI HUNG CHANG IMPEACHED.

According to a despatch from Shanghai, published in London, a sensation has been caused there by a memorial to the throne, signed by over 120 high officials, impeaching Li Hung Chang and charging him with corruption speculation and deception.

The memorial also says that Li Hung Chang rejoiced at the Japanese victories and prevented the Chinese from achieving success. He is said to have represented that China was prepared for war when he knew that the contrary was the case.

Li Hung Chang is also said to be implicated with Prince Kung, the Emperor's uncle and President Tsung-Li-Yamen of the Admiralty, who was recently appointed dictator and with the Chinese forces at Port Arthur. These three officials are said by the signers of the memorial to be guilty of high treason and of selling state secrets and war material to the enemy.

They are further charged with investing money in Japan harboring treasonable designs against the Chinese Empire and with conspiring to procure the overthrow of China. The memorial demands the instant punishment and dismissal of all concerned in the conspiracy.

MUNICIPAL MATTERS.

Another civic year is fast drawing to a close and the office-seekers, as far as we are aware, have not yet begun to squeeze the digits of the electors or "kindly" treat the latest arrivals in the family. Perhaps it is thought that honor alone is scant remuneration these hard times, when business requires every spare moment. However, we are all interested in good and thorough municipal government and the fittest men should occupy the chairs at the council board, even if a fair compensation for their services be required.

In some neighboring municipalities we hear of hoodlums and corrupt transactions, but our town has been noted for upright manipulation of public affairs. On a careful survey we find that those municipal officers found guilty or accused of corrupt acts are men who have no financial interest in their municipality. By that we mean that no matter what amount of debt is incurred they have little or no assessable property which would make them bear a proportionate share of the public burdens. Men of this position are to be congratulated on their position. Our village has been noted for its honesty and integrity. It is our duty to see that the same high standards are maintained in the future. It is our duty to see that the same high standards are maintained in the future. It is our duty to see that the same high standards are maintained in the future.

As regards our own town fathers no fault has been found, as far as we are aware, not with their extravagance at any rate. Some of us have heard say that they have been too economical, but it should be remembered that we are passing through a period which requires rigid economy. If we look round about upon surrounding villages and towns many of them will be found to have more improvements than we have but they, in most cases, have yet largely to be paid for and none of us would care to put our shoulder to the wheel if placed in a similar position. Our debt is a mere nominal amount and wise legislation will not much increase it in the meantime at least.

A system of waterworks has been up for public discussion recently and the verdict was that the cost was too great in proportion to the advantages, which would accrue from their construction. Yet, some more efficient method of combating fire should in the near future be made a matter of consideration, not that we have any fault to find with the manner in which this matter has hitherto been managed. Our villagers at the recent fire are to be congratulated on the activity and energy they displayed in quenching the flames, but a suitable hand-engine which would throw several streams would, in our estimation, be a profitable investment and would greatly facilitate operations on such occasions.

The lighting of our streets by electricity has also been before us and there is no doubt but it would be quite a great improvement on dark nights. As the proprietors are putting in a new plant on the incandescent system perhaps some arrangement can be made whereby our town officials can see their way clear to give us "more light". We have no figures before us as to probable cost, but we notice other villages of smaller size than Stouffville being thus lighted. The subject is well worthy of the fullest consideration.

A trunk sewer has been privately talked about recently. The arguments in its favor were that it would remove surface water from our main road that much less gravel would be required to keep it in good state of repair and the nuisance would soon be reduced to a minimum. In fact it will be only a matter of a few years until the road bed will become higher than the level of the sidewalks, as under the present conditions gravel must continue to be laid on to keep the road in good condition. Besides, it would be a great boon to our business men by preventing flooding of cellars and consequent danger of damage to goods. On sanitary grounds also it would be of decided advantage.

Our present council have given us excellent value for the money expended on public works and they merit commendation for their zeal and attentiveness to business affairs of our town. They have worked together with the greatest unanimity in endeavoring to do their best for every ratepayer consistent with the interests of the municipality.

Who are to constitute our next council will soon be called upon to decide and apparently, as yet, there seems to be no interest taken in the matter. As in the past let every elector exercise his franchise in favor of men who will steer the village craft carefully along the bosom of the placid waters of economy and substantial prosperity.

I was cured of painful Gout by MIN-ARD'S LINIMENT. Chatham, Ont. Bayard McMullin.

I was cured of Inflammation by MIN-ARD'S LINIMENT. Walsh, Ont. Mrs. W. W. Johnson.

I was cured of Facial Neuralgia by MIN-ARD'S LINIMENT. Parkdale, Ont. J. H. Bailey.

GLASGOW.

Mr. Buchanan, of Greenvale, has rented the mill here.

Mrs. Walter Baston is suffering with neuralgia in the stomach.

Mrs. T. Baston has been ill for some time with chronic rheumatism.

Mr. and Mrs. Parker have returned home after spending a few days visiting friends in Toronto.

The Rev. I. A. Shanton of Stouffville conducted the services held here on Sunday last.

There are quite a number of young people attending the Epworth League which was organized here a short time ago.

Miss Annie Forsyth has just returned home after spending a very pleasant time visiting friends in Midland and that vicinity.

Miss Hutchinson moved to Goodwood last week. She intends making her home with her sister Mrs. Myers of that place and will continue her dress-making as formerly, her leaving here will create a void not easily filled as she hired among us for eighteen years and always took an active part in all the duties of the church, particularly the Sabbath School and prayer meeting. Our loss will be sorely felt.

Mr. James Bowman returned from Toronto on Monday last with his eyesight much improved.

GENERAL NEWS.

A despatch from Washington says:—The order issued by the Canadian Government providing that all meat cattle arriving in Canada from the United States shall be inspected by the Kooch tuberculin lymph will scarcely affect the United States—the number of cattle exported from this country into Canada is very small. Dr. Salmon, chief of the Bureau of Animal Industry, said that the action of the Canadians was intended to apply to cattle imported for breeding purposes, all of which came from Europe.

The other day William Coulter, a son of Andrew Coulter of Galway, a township north of Peterboro' met with a terrible death. He, with another young man, was collecting fire wood in a bush on the farm, and in falling a rotten tree young Coulter met to the wrong side. The maple swerved and struck the boy an awful blow, throwing him to the ground. His companion rushed to the spot, but found him already dead, smashed to pieces. His skull was broken, all part of it severed from the remaining portion, his neck dislocated, his arms and legs broken, several ribs broken, and one hip protruding through the body.

The Quebec Legislature is to be asked to suppress the Protestant Protective Association and the League and Alliance of a similar nature in the Province of Quebec. A movement, which has the authorization of the high clerical authorities in the Roman Catholic Church, has been inaugurated in Montreal, with this object in view, and a lively agitation is likely to result. Petitions are now being signed and will be forwarded to the Legislature next session. The petitions set forth that such societies as the P. A. are dangerous to the public peace and harmony, that they arrogate to themselves the prerogative of the Legislature, and sow discord and hatred between the different sections of the community. Their suppression is thereto asked.

Broken in Health

That Tired Feeling, Constipation and Pain in the Back

Appetite and Health Restored by Hood's Sarsaparilla.

Mr. C. I. Hood & Co., Lowell, Mass.

"For a number of years I have been troubled with a general tired feeling, shortness of breath, pain in the back, and constipation. I could get only little rest at night on account of the pain, and had no appetite whatever. I was that tired in my limbs that I gave out before half the day was gone. I tried a great number of so-called blood purifiers, but with no good results. I was also under the care of several doctors. Frequently I had such bad spells that I had to be brought home from work during the day and have a doctor called in, but did not get any permanent relief from any source until, upon recommendation of a friend, I purchased a bottle of Hood's Sarsaparilla, which made me feel better at once. I have continued its use, having taken three bottles, and I feel like a new man.

I have a good appetite, feel strong as ever. I did, and enjoy perfect rest at night. I have much pleasure in recommending Hood's Sarsaparilla." CHARLES STEELE, with Eric Preserving Co., St. Catherine's, Ontario.

Headache and Impure Blood

Hood's Sarsaparilla Quickly Cured. "C. I. Hood & Co., Lowell, Mass." "About a year ago I had an attack of the grip, followed by a continued headache and dizziness. And shortly after this my face broke out in blotches like ring-worms. I tried numerous medicines to see what they would do for me, but never found anything to take effect until, at last, I thought I would give Hood's Sarsaparilla a trial. I purchased one bottle which soon took effect for the better, and by the time I had taken

half the bottle the headache had ceased and the blotches had all left my face. I have never felt better than I do now, and I think Hood's Sarsaparilla the best blood purifier on the market and readily recommend it to anyone in need of the same." MISS MARGARET LEE, 1111 Commercial House, 211-213 St. Street, Quebec, P. Q.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists.

ALMIRA WOOL MARKET.

Reported by S. B. Lehman: Unwashed wool 8c to 12c; Cottoned wool or rejects 14c to 15c; Combino wool 16c to 17c; Clothing wool 17c to 17c; Southdown wool 18c to 19c.

STOUFFVILLE MARKETS.
