AFTER CHICKEN THIEVES

Prevalence of chicken thieving by gangs apparently specially trained and highly organized is causing Attorney-General W. H. Price and Hon. J. S. Martin, Minister of Agriculture, considerable alarm this fall. Mr. Martin recently suggested that another application be made to Ottawa asking that the Criminal Code be amended to provide higher penalties. Such an application was made a year ago, but no action was taken. It is noted by officers of the Ont. Government that in New York State recently a chicken thief received a sentence of life imprisonment. In Ontario the approved method of "lifting a coop" is for one of the gang to enter with an atomiser full of chloroform and, after giving each bird a whiff, a man with a sack gathers them up. In scores of cases every bird in a chicken house is thus stolen.

Col. Price would not comment upon the threat of farmers in the neighborhood of Tillsonburg that they will shoot apprehended thieves on their farms with shot guns.

"That is their look-out," he said. In some cases but it must be shown that guns are used in self-defence. The Government is keenly aware of the loss being occasioned by such midnight marauders but as it is a matter of criminal law we cannot make penalties more stringent here. We can only act through the police and the courts and this we are doing to best of our ability."

UNIONVILLE'S NEW RINK

With \$25,000 in cash deposited in the local branch of the Standard Bank of Canada to the credit of the trustees appointed to look after the construction of the proposed community skating and curling rink, in the north end of Unionville, everything was cleared for work on the new rink, the entire cost of which will be borne by W.H. Crosby, of Buffalo, a former resident of this village. Mr. Crosby hit upon the expedient of building the community rink.

The new building which will be of steel and wood, 86x196 feet, will be rushed to completion, the work of construction having been started last week, and the date of the formal opening has already been fixed for New Years Day. H.H. Powers, of Unionville, is the constructor, and is under a heavy penalty to complete the work in the specified time.

G. A. M. Davison, of Unionville, and A. B. Crosby of Toronto, the later a brother of the Buffalo magnate will represent the donor during the work of the construction, and later the cost of the upkeep will be assumed by the police village of Unionville, with a board of management composed of a dozen representative citizens and farmers. James, Proctor & Redfern, engineers for Markham Township will superintend the work of construction, and it is expected that the undertaking will be self-supporting from the outset. Plans are already under way for beautifying the grounds surrounding and with the base ball diamond immediately in the rear, the idea is to build up a central athletic point for the whole district.

In addition to the \$25,000 deposited in the bank for the erection of the community rink, Mr. Crosby paid \$4,500 for the land the site of the Crosby homestead, where his father the late H. P. Crosby, former M.P.P. for East York for many years resided.

A FATHER AND SON CASE

A motion to commit to jail Joseph H. Brillinger for contempt of court in the breach of an injunction order was made before Judge Widdfield last Friday.

I. Levinter, appearing for W. O. Brillinger, complainant, son of the defendant, claimed that in defiance of an injunction order signed by Judge Widdfield, Joseph Brillinger had sold 4 cows, belonging to his son, and on which he held a chattel mortgage.

Judge Widdfield granted James McCullough's request for a postponement of motion until November 11. Mr. McCullough stated he wished to prepare an affidavit on behalf of his client, Joseph H. Brillinger.

Other litigation is pending between father and son, W. O. Brillinger having been awarded \$10,000 for damages by Chief Justice Meredith against his father for illicit intercourse with his daughter-in-law, Mrs. W. O. Brillinger, wife of plaintiff.

This judgment has gone to appeal and W. O. Brillinger alleges that his father in the meantime is disposing of his property with the intention of defeating justice.

The injunction restraining Joseph Brillinger from disposing of his chattel mortgage and property, holds good until the coming trial.

W.O. Brillinger, who successfully sued his father, Joseph H. Brillinger for \$10,000 for alienation of his wife's affections has filed through his counsel, I Levinter, an application to commit his father to jail for contempt of court.

An injunction was issued by Judge Widdfield in August, restraining the father from selling four Holstein Cows, which the son charges have since been sold.

The motion will be heard by His Honor Judge Denton, on Friday.

DISTRICT AND GENERAL

No less than 16 fishermen were noticed lined up on the Beaverton wharf one morning recently, some coming from as far afield as Orillia. The herring and whitefish are said to be very plentiful this season.

Orillia Agricultural Society spent \$1646 for attractions at this year's fair and paid only \$715.00 in prizes to exhibitors. This does not seem a very fair proportion for a show the primary object of which is supposed to be encouragement of agriculture.

Murray King, has been appointed to administer the \$4,908 personal estate of his father, Andrew U. King, of Markham Village, who died at Dodsland, Sask., Sept. 14th, leaving no will. One-third will go to the widow, Mrs. Lydia King, Markham, and the remainder to the sons, Eric King, Fort William; Robert King, Dodsland and Murray King of Toronto.

John Leary, retired farmer who died in Whitchurch, leaving \$10,300 estate, bequeathed a life interest in his furniture, house and three-quarters of an acre of land and an annuity of \$300 to his widow, Mrs. Mary J. Leary; \$2,000 his son, Edward Thomas Leary; \$2,000 in trust for the maintenance of his son John Wesley Gordon Leary, directing that not more than \$150 a year be spent on his support, and the residue to his son, George H. Leary.

The death of David Reesor at the family residence, Locust Hill on Thursday of last week, removes a pioneer of Markham township, and a leading agriculturist in York County. Born in the neighborhood, Mr. Reesor had lived here all his life. He was in his 83rd year, and is survived by his widow, a sister of the late Mrs. Alex Russell, whose death took place in Unionville on Wednesday and a large family of sons and daughters. As an agriculturist he occupied a very high position in the province, and his property, known as 'Silver Birch Farm', was a beauty spot in the municipality. He was a member of the Presbyterian Church.

GOODWOOD

Potatoes per bag \$1.10
We are glad to report Mr. Fred Baston is much improved, after his two weeks illness.

Don't forget the hot supper and concert in the Baptist church Thursday evening, Nov. 10th.

Miss Clara Baston of Pittsburg, Pa. spent Thanksgiving with her parents Mr. and Mrs. Thos. Baston.

Mrs. William Woodley of Lindsay, is visiting her daughter Mrs. J. F. Reid, also their relatives from Toronto.

Some of our motorists got caught by the sudden cold weather, which allowed their radiators to freeze up, causing damage.

Miss Eva and Ida Latcham of Toronto, and Mr. and Mrs. Geo. N. Cain of Highland Creek, Mr. and Mrs. Art Latcham of Toronto, spent the holiday with Mr. and Mrs. John S. Latcham.

The concert given here by the Shamrock and Thistle entertainers on Friday evening was a high class entertainment, although the crowd was small, all enjoyed themselves to the letter.

The Choral class meeting held last Monday evening was very poorly attended. Out of the 54 members last year only 10 were present. However they transacted business, by appointing the officers, who will take charge, and a good class is expected to be organized this year. The first lesson of season is expected to be January 9th.

Send the Tribune to absent friends.

Change Your Attic

into a comfortable den, radio room, play-room or extra sleeping quarters by erecting ceilings and partitions of Gyproc. Gyproc will make your attic fire-resistant, warm in winter and cool in summer.

Write for free booklet—"My Home." It will tell you how Gyproc, Rockboard Gypsum Insulating Sheathing and Insulux will reduce your fuel bill from 20 to 40%.
