

Choosing poor-quality vinyl windows or patio doors is a *mistake*.

Choosing the proper window and door material is **everything**. Even in moderate temperature swings, poor-quality vinyl windows and doors can warp, lose whatever energy efficiency they once had, and invite drafts and leaks.

Significant home improvements are supposed to last, but can you imagine the **expense and frustration** of replacing your windows and doors a second time, after just a couple of years?

We custom-build our windows from our own Fibrex® material. **Why did we make our Fibrex® material twice as strong as vinyl?** To serve homeowners who want their windows to **last**.*

Our Fibrex® material is

2X STRONGER

THAN VINYL*
