

# York Region Water

On April 1, 2016, the York Region portion of your water and wastewater bill will increase.

## RATES ARE INCREASING TO HELP:

- Meet strict regulations
- Repair and replace aging infrastructure
- Meet the challenges of extreme weather events
- Address the needs of population growth
- Pay for increasing costs of water purchases, labour, utilities and chemicals
- Reduce our need to finance with debt
- Build reserves so we can plan for future repair and replacement needs

### What does this mean to you?

You will see an increase on your water bill after April 1st. Check with your local municipality to learn more.

York Region provides water and wastewater services to more than 1.1 million residents. Paying more now means current and future users will continue to have safe, healthy drinking water at an equitable price.
