

Shame '10,000 other drunk drivers'

From front page.

long weekend of impaired driving on our roads. Thirteen drivers were arrested and charged with alcohol and drug-related criminal offences between March 24 at 11 p.m. and March 28 at 1:40 a.m.

Criminal defence lawyer Ari Goldkind, who often works in York Region, said Muzzo is not his main concern. He said he'd rather focus on the countless drunk drivers who walk into Newmarket courthouse daily before having their "wrists slapped" with a \$1,000 fine and a one-year driving ban.

"What happened to Marco Muzzo was the equivalent of a public lynching," he said. "We all point our fingers at Marco Muzzo as if he woke up in bed and decided to go out to be Paul Bernardo. But, in reality, the only difference between him and another drunk driver is he had the misfortune of ploughing into the beautiful Neville-Lake family."

He said rather than engage in a public show court, like he contends occurred with Muzzo in the media and on "anti-social media", the public needs to shame the "10,000 other drunk drivers" in our court system.

To do this, Goldkind says two things need to happen. The first is that the government needs to lower the drinking level from 0.8 per cent blood alcohol level, which drivers are currently allowed in their systems, to zero.

Goldkind is not the only one who thinks this is the obvious next step for the province.

York police Const. Andy Pattenden said removing the decision about whether to have

"one or two" drinks before getting behind the wheel would go a long way toward lowering drinking and driving numbers.

"If you could remove that decision, it would make it an easier choice for people," he said. "As it stands, the law gives some people the ability to have some, but others too much."

Const. Pattenden said the system we currently have is often left up to doubt, relying on citizens to decide whether they have had too much to drink.

He said the reality is if hearing and watching the details of Jennifer Neville-Lake's story doesn't stop people from drinking and driving, which it clearly hasn't, in York Region at least, then what will?

"Every person in York Region knows this story," he said. "And still every weekend in York Region a significant number of impaired people continue to make that decision knowing the worst possible outcome. Then what will it take?"

The second suggestion by Goldkind is to threaten every impaired driver with jail.

"The message is not getting through and police don't have the resources," he said. "As crude an instrument as jail is, I would say prison is on the table until behaviour changes."

Muzzo is expected to spend upwards of three years behind bars when time served and parole are factored in to the sentence. Muzzo, who pleaded guilty, is also banned from driving for 12 years after his time in custody.

The collision killed Daniel Neville-Lake, 9, his brother Harrison, 5, their sister Milly, 2, and their grandfather, Gary Neville, 65.

We are proud to accept this award.

We have always considered our clients to be #1, and it's reassuring to know they feel the same about us year after year, we'll proudly add this win to our previous awards...

Yes we are your #1 moving company, and we prove it with every move we do.

You hire us as your mover, and equally as important we hire you as our client. You have definite standards expected of your moving company, as we do of our client. If you have a local or cross country move in your future, you'll need to visit our website and call us for a confidential interview to let us prove just how meticulous we really are.

Do our high standards come with a high price? Apparently not but many people will let a few hundred dollars come between us and a less costly quote. Amazing relief for back pain and sciatica

By Sam Potter

IF YOU suffer from low back pain and sciatica, you are one of over 10 million adults in Canada with this often

crippling spinal condition.

Shooting, stabbing and burning pains from the low back, sometimes with additional pain through the buttocks and down the legs are all symptoms of pinched nerves often called "sciatica".

In severe cases, it can lead to muscle wasting, numbness and constant tingling down to the tip of the toes. Left untreated, the intense pain can rapidly wear you down and drain the joy out of life.

That is, until now...

Recent advances in the treatment of sciatica and lower back pain have led to the development and huge success of Advanced Biostructural Correction Technique.

The excellent results of chiropractic treatment have been published in major medical journals. With great success rates. Some back surgeons and medical doctors are recommending their patients try this treatment first before having back surgery.

In Markham, you can try Advanced Bio-Structural Correction Spinal Care at the Elite Care Chiropractic – the office of low back pain and sciatica relief Chiropractor Zunaid Kagdi D.C.

Zunaid and his team of fully trained spinal care staff specialists have helped over 1,000 patients find relief from their agonising back pain and sciatica.

According to Zunaid, "We use a combination of ultra-advanced technology, for precisely diagnosing the cause of your

low back pain and sciatica; and a unique programme for reconstructing the damaged area causing the pain; this means long-term results for most people."

Because the treatment is non-surgical, safe and easy, most patients report an almost immediate relief from their pain.

Patient Sean M. from Richmond Hill says, "My back pain was unbearable but the worst thing was the searing burning pain I felt in my buttock and leg.

I couldn't work or do anything useful and the drugs my MD prescribed hardly did anything.

My wife insisted I respond to one of these ads, I thought it would be a total waste of time, but I'm so glad she kept on at me.

Thank god I called your number, I'm 95% better in just a couple of weeks."
