Markham, a municipality with more than 350,000 residents centrally located in the Greater Toronto area, is home to over 400 corporate head offices and more than 1,100 high-tech and life science companies. Founded in the 1790s, today Markham is Canada's most diverse community, and enjoys a rich heritage, outstanding community planning and services, and a vibrant local economy. Markham has received the Excellence Canada Gold Award for Organizational Quality & Healthy Workplace, and multiple heritage and environmental awards.

Deputy Fire Chief

A skilled, experienced manager of people, change and resources, comfortable planning strategically and overseeing operations in a political and community service environment, you welcome the opportunity to join the senior executive management team of Markham's Fire and Emergency Services Department. Reporting to the Fire Chief, you will provide strategic leadership and 24/7 operational excellence as one of two Deputy Chiefs, each accountable for specific platoons and operational areas: communications, public education, training, fire prevention, and mechanical. You will manage staff performance, work closely with other senior leaders in the development of key corporate policies, strategies, Council reports/policies, and business plans, including financial and budget reviews, and represent both the City and the Department with multiple stakeholders. Your strengths as a communicator and presenter will be evident as you work with fire associations to advance innovations, advocate for changes to improve public safety, and foster a cost-effective operation, and assume a public relations and public education role with residents to advance emergency preparedness and fire prevention strategies. This mandate will be an excellent career move for a fire services leader with 6 to 8 years of experience in progressively responsible and more senior supervisory positions, backed by a degree or diploma in Public or Business Administration, ideally complemented by a post-secondary diploma or certificate in a Fire Services discipline. A Fire Executive Certification is an asset. CEMC and CFO designations are preferred. The salary range for this position is \$134,381 to \$158,008 per year.
