LET IT ROT!

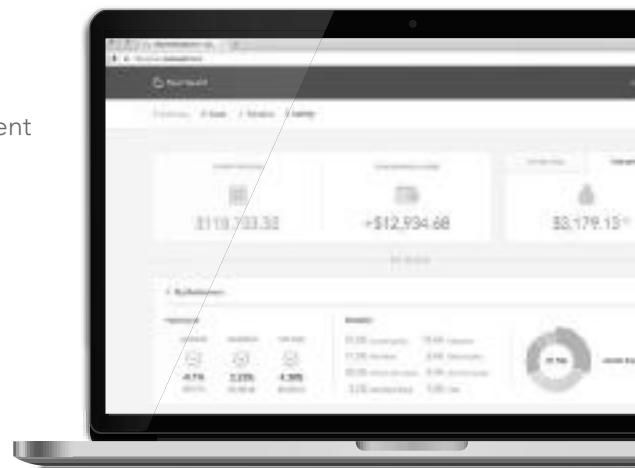

Put a composter in your backyard or use your green bin to reduce household waste. Composting organics has two key benefits: it reduces the amount of waste going to landfills and when added to your garden, helps nourish soil and plants.

There's a better way to build wealth

Traditional and hard to understand investment fees could be costing you up to 30% of your potential wealth.*

EAT IT!

Choose foods produced organically, locally and in season. Support your regional farmers and farming industry: buying locally and in season is better for the environment than buying foods that have been shipped hundreds of kilometers to your local market.
