PARK IT!

Leave your car at home for a day, week or a month!

Try walking or biking. If work is too far away to walk carpool.

LET IT ROT!

Put a composter in your backyard or use your green bin to reduce household waste. Composting organics has two key benefits: it reduces the amount of waste going to landfills and when added to your garden, helps nourish soil and plants.

EAT IT!

Choose foods produced organically, locally and in season.

Support your regional farmers and farming industry: buying locally and in season is better for the environment than buying foods that have been shipped hundreds of kilometers to your local market.
