

Tiny Seedlings / United Soils Management - 6043 Main Street, Stouffville, ON L4A 3P6

TO THE MOMS, DADS AND KIDS WE MET ON SATURDAY

We at Tiny Seedlings thank you for coming out and having fun with us.

We had tons of laughs and we hope you did too. There were 5 photographers there all day so you can go to our website and find any one of 2000 pictures or videos that you can download and save.

Lots of happy little faces and that's all that Saturday was about: Stouffville's Kids.

Fire and Ice was sponsored by the Construction and Development Industry and the local businesses in that industry that use that property every day. It was their way of saying thanks to our town.

A special thank you goes out to Bob McKenzie, the general manager of United Soils, for being our host.

Our friend Ross Todd of Todd Brothers built our well used skating pond with finishing touches from Frank Provenzano, the owner of ANPRO EXCAVATING, who brought his personal Zamboni to make it perfect.

A big thank you to our resident Social Media expert Darlene Shaw, who gets our word out and keeps you all informed. She spent hundreds of hours on this.

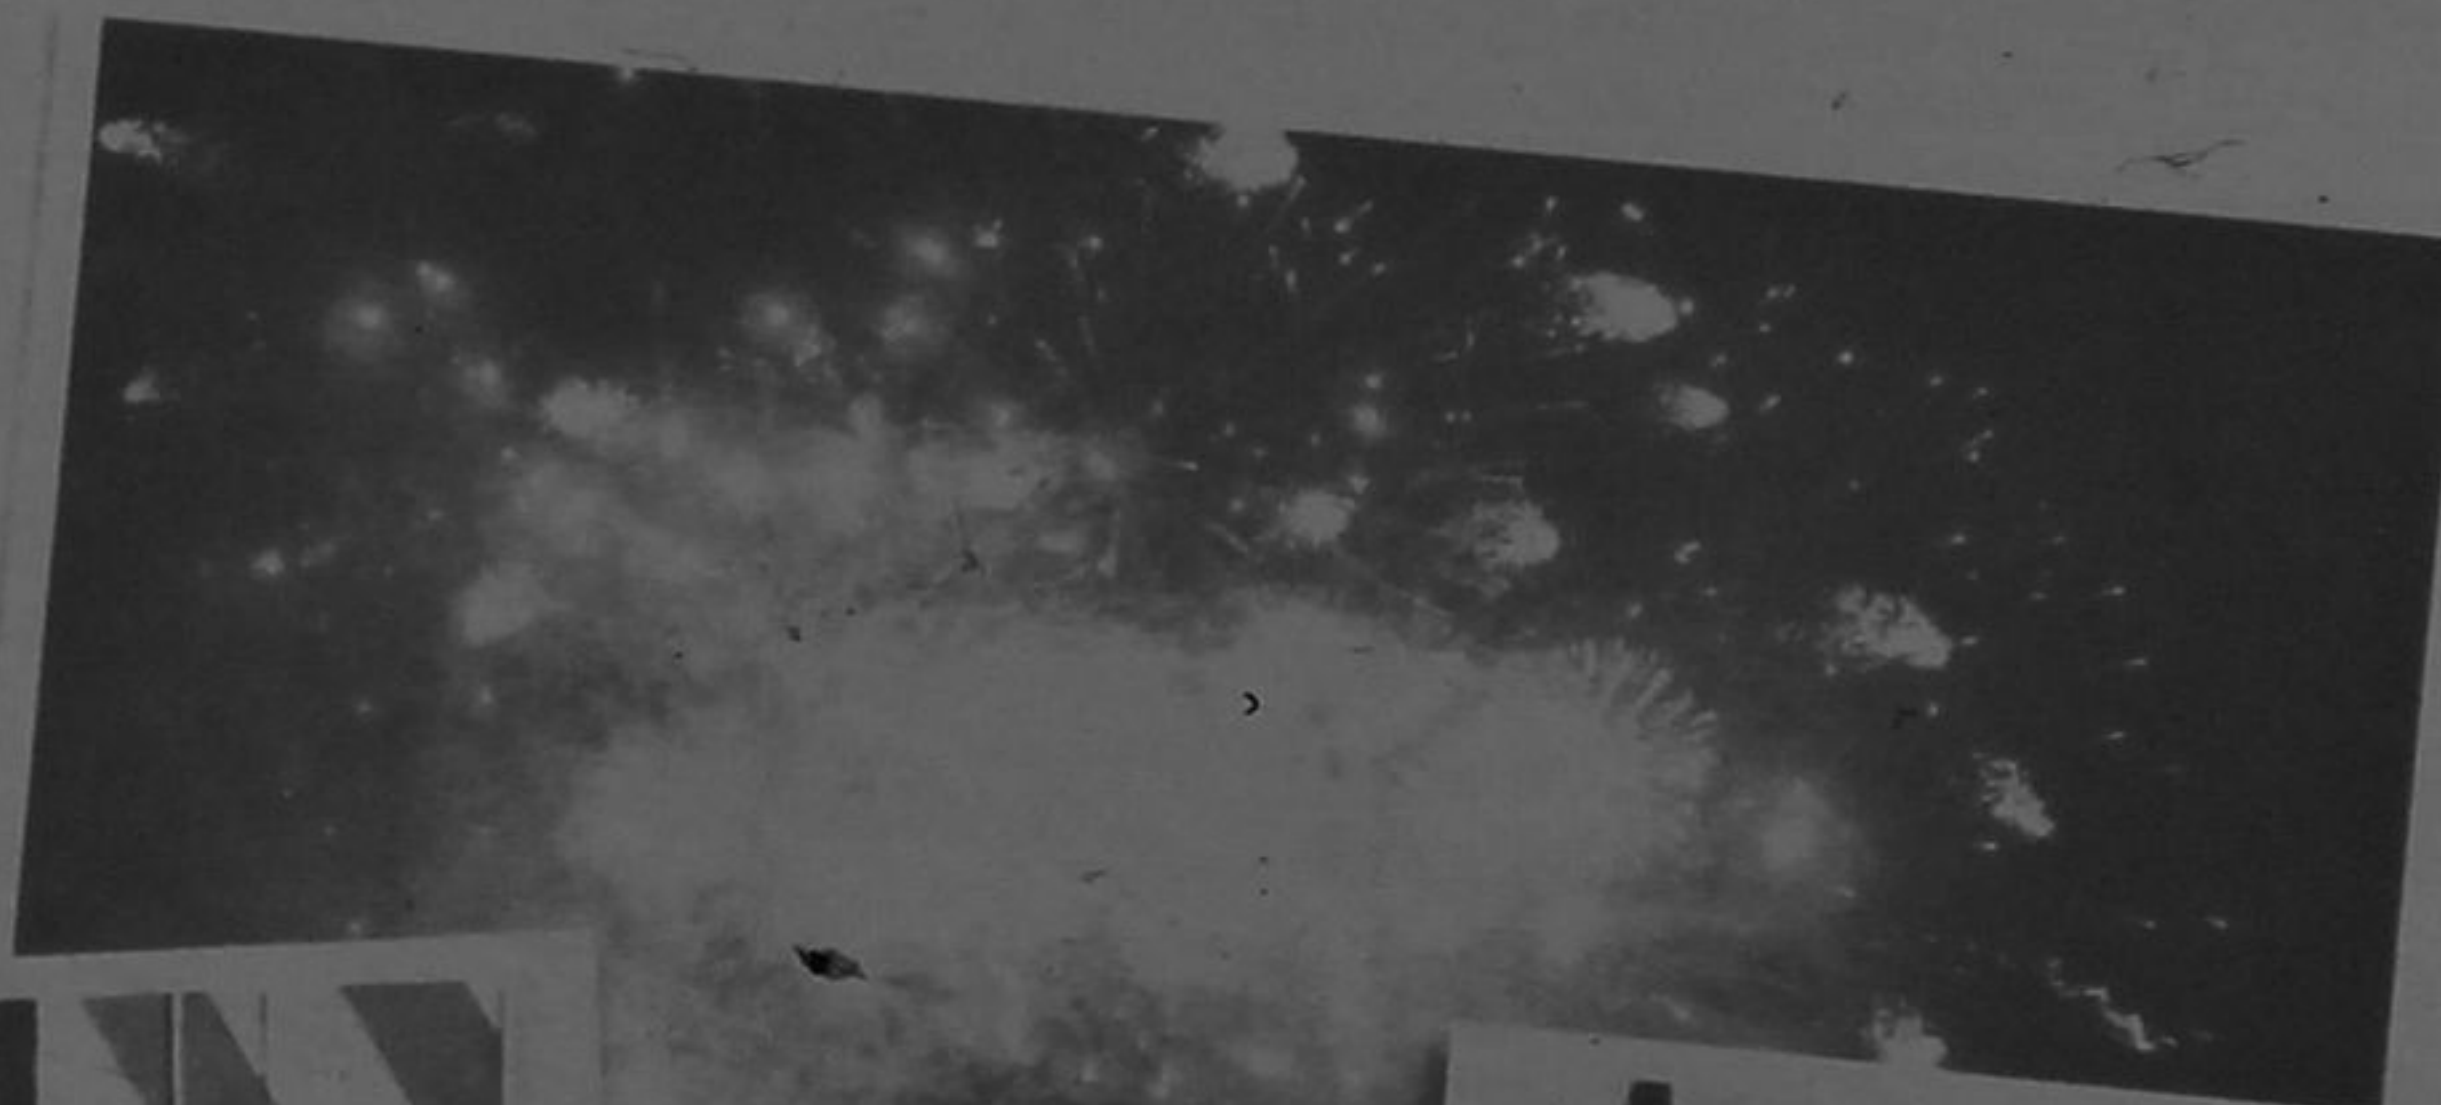

Our benefactor, Alec Cloke owner of UNITED SOILS, wants everyone to know that PACE - GERANIUM made a good event a great event. Look for this group to make things happen in the future with Tiny Seedlings.

See you soon at our next event.

Best Regards,

Shana Daniel
