

# MARCH IS NATIONAL COLORECTAL CANCER AWARENESS MONTH

Most Canadians don't like to talk about colorectal cancer but the month of March is a great time to change that. March is National Colorectal Cancer Awareness Month, and this is a great time for survivors, patients, caregivers, and everyone who has been

affected by this disease to tell their story and to talk about a disease that is preventable, treatable and beatable. These conversations can save lives!

Are you ready to join the fight against Canada's second leading cause of

cancer death? We invite you to join us by sharing information about the importance of recognizing the signs and symptoms of colorectal cancer. Please help to spread the message: Colorectal cancer is "Preventable, Treatable and Beatable."

## WHAT YOU CAN DO

IF YOU'RE AGED 50 TO 75,  
GET SCREENED FOR COLORECTAL  
CANCER REGULARLY.

Screening tests help prevent colorectal cancer by finding precancerous polyps (abnormal growths) so they can be removed. Screening also finds this cancer early, when treatment can be most effective.

- Be physically active.
- Maintain a healthy weight.
- Don't drink too much alcohol.
- Don't smoke.
