ONCE IS NOT ENOUGH

We must protect not only our own future, but the future of our lands and our wildlife. The wildlife was here before us and innocently lives among us. We must protect their lifestyle and territory as well. This planet is not just for human beings, it is for all life. We need to preserve our green space so we can breathe fresh air and be healthy. Let us preserve the topsoil, trees and plants, and let us dedicate more park land. Instead of receiving money for lost park land, Council should demand more parks.

Council has to cancel any more secondary plans; those plans only serve a few people. We need to respect the Oak Ridges Moraine, the creeks and the kettle lakes by keeping motor boats off our lakes and hunting out of Whitchurch-Stouffville. This paper represents the people of Whitchurch-Stouffville and our environment is part of us. This is what the Stouffville Free Press stands for.

Article on Living with Cancer Outstanding

To the Editor:

I would like to respond to Doris Robertson's article on living with cancer. She is a special friend of mine and I think she wrote an outstanding article. She has overcome a lot for herself with her faith in God.

I also lost a very dear friend, Lois M. Burkholder, who passed away on Feb. 17, 2006 after fighting cancer with courage for the last nine years. She was only 59 that week.
