NATUROPATHIC MEDICINE

A Valid Alternative To
Regular Health Care.

In this "Oprah" era of self-empowerment Canadians are taking a more active role in their healthcare. We are at a time when a doctor's diagnosis is increasingly seen as 'just one opinion'. Patients are asking what else can be done as health trends show many are seeking out more natural forms of health care. Naturopathic medicine has become widely accepted by the general public as a valid alternative and compliment to regular health care. Naturopathic Doctors are educat-

ed in all of the same basic sciences and diagnostic measures as a medical doctor. In addition, they have also studied the most effective and well-researched natural treatments. The primary goal of Naturopathy is to address the cause of the illness, rather than simply treat or suppress symptoms. Naturopathic prescriptions combine safe and effective natural therapies with the most current advances in modern medicine to provide the highest quality health care solutions for many health concerns ranging from pediatric to geriatric. It can help assist with diabetes, headaches, menopause, skin disorders, high cholesterol, digestive complaints, ADHD, allergies, PMS, pain, infertility, stress, fatigue and much more.

The Stouffville Clinic specializes in IV therapy, Hormone Testing, Food Allergy screening and Heavy Metal testing. You can meet Dr. Brandy Rowley ND. on October 16th, 7:30 pm, at the LeBovic Centre where she will be holding a free seminar on "Heavy Metal Toxicity".

If you would like to book an appointment or have any questions please feel free to call Dr. Brandy Rowley ND. at (647) 297-9322.

First came the wheel

Now comes the best thing to happen to homeowners since a tree shed its first leaf. Local resident Donna Metcalf was tired of the tedious and back breaking fall yard cleanup process. Knowing there had to be a better solution than all the products claiming to be a rake's best friend, Donna took matters into her own hands and created the revolutionary new product "Snag-N-Bag."

While many profess to get the job done let's face it, collapsed gizmos and products claiming to make yard work a breeze can add to the workload and not ease it.

The Snag-N-Bag is truly amazing and a must for anyone with a yard and trees, and it really works! The compact circular industrial nylon bag attaches to your leaf bags or any bags at all by a simple clip-on attachment. That's it, all done!

Now grab that rake or use your leaf blower and direct to the large circle. Easy so far. Now lift the light weight hoop and the debris will fall into the attached bag. Snag-N-Bag can also be used as a self contained bag.

Seniors rejoice, adults of all ages jump for joy and do your back a favor and get a Snag-N-Bag today! Priced to sell at \$24.95, the multi-use Snag-N-Bag is available by calling
