

Jim MacDonald WARD 3

Forty years ago I was working here in Whitchurch-Stouffville on a tractor preparing the land to plant the corn crop. Through my family, friends and career, I have continued this connection. For over 30 years we have lived in York Region and for the past 12 years we have called Whitchurch-Stouffville home.

The attraction is compelling to those who settled here many years ago and to those who have recently moved here. Our rich

heritage, natural environment and lack of congestion provide a good quality of life.

However the residential growth has put significant pressure on all of our resources especially when this growth is occurring with a decline in business activity.

We urgently need to address this imbalance.

I have the academic background (MBA University of Toronto), teaching and research experience, extensive public and

private sector experience to ensure that our interests are represented.

In my career, I have created and led many interdisciplinary teams to tackle difficult and challenging issues, one of which was my role as the senior federal representative on the Rouge Park initiative.

I believe I can work with all residents of Ward 3 to make an important and positive difference.

Brad Whittick WARD 3

Ten years ago, my wife and I left the big city with our 2-month-old twins in tow, in search of a new place to call home. As luck would have it, we found the beautiful shores of Preston Lake, nestled in the warm community of Gormley, within the thriving yet still country-like Town of Whitchurch-Stouffville. We have never looked back.

Since then, our boys have grown into happy, compassionate 10-year-olds - thanks

in large part to the magnificent care at Gormley Daycare in their early years, followed by seven years at our best-in-class community public school, Whitchurch Highlands. So my candidacy for Ward 3 councillor on Oct. 27 was an easy decision. It is a way of giving back to the community and town that have given me and my family so much already.

My priorities are simple, they're about you

and your family. Whether you are a senior, a parent, or a small business owner, I want to ensure your tax dollars are put to work. Whether it is a safe park for your kids to play, protection of our precious green space, or jobs for our youth - I promise to listen to you and work hard for you and your family.

Oliver Bêlo WARD 4

I am a senior project manager for a large construction company where I manage multi-million dollar projects on a daily basis. I have the experience to ensure that Stouffville's tax dollars are properly managed and a vision for what this town needs as it manages growth. I, my wife Brianna and our four children have lived in Stouffville for almost 10 years and are active members of Springvale Church.

In the last ten years I have witnessed enormous growth and the challenges that

have come with it. I have a vision for Stouffville that is centred around the active engagement of residents, which I don't think has been done well in the past.

Important Issues

I believe the town has not fully developed a forward-looking plan for growth which prioritizes improved services for families, responsible development planning, and respect for Stouffville's unique heritage. As well, the opportunities for open and transparent municipal government are

enormous. I believe we are years behind where we should be.

Priorities

Community consultation is the first and last task of any elected representative. I will work to ensure that the residents of Ward 4 are involved in planning Stouffville's growth in a responsible and forward-looking manner.

Holly Fullager WARD 4

Greetings to residents of Whitchurch-Stouffville. I am pleased to seek the opportunity to represent you as your Ward 4 candidate. As an office manager at a dental practice, I enjoy working with a diverse clientele.

As someone who is results oriented and enjoys community involvement, I decided to run for town-council to put my time and energy into a career where I can work hard, and make a positive difference in our

vibrant community.

After meeting residents, I feel some key issues, particularly in Ward 4 include:

- Traffic flow and community safety, especially in residential neighbourhoods
- Maintaining the character of our town and staying true to 'country-close to the city'
- Increased communication and accessibility between council and residents

Moving forward, if elected, the next four years will be dedicated to ensuring Stouffville remains a desirable home for longtime and new residents. I support the protection of the Oak Ridges Moraine. I will act upon traffic issues to ensure a safer community for all. I will address public transportation concerns and improved services for youth and seniors.

James Liaros WARD 4

I have served Stouffville for over thirty years in the capacity of farmer/entrepreneur of Markville Heights Orchard where I am known as the "Apple Man". I am no stranger to hard work and life experiences.

I am a Stouffville family man who has resided in Ward 4 for over 18 years. The reason I am running is so that I can give back to the community that has been so good to me and to my family.

Some of the most important issues facing the town are outlined in my platform "I CARE".

C - Community: community growth with proper infrastructure

A - Arts and recreation: promoting existing and developing new arts and recreation programs for all ages.

R - Road safety: safety measures to be practised and implemented throughout the

community.

E - Employment: sustaining employment and encouraging job creation. Infrastructure programs and the official plan have set the direction for the town's growth.

My priorities for the next four years will be to help guide the implementation of these programs and plans. My priorities will also include strategies to successfully implement my platform.
