Heart Disease

Ninety Per Cent of It Really Caused From Poor Digestion.

Bad organic heart trouble is incurable, for scarcely one case in a hundred is curable.

The action of the heart and stomach are both controlled by the same great nerves, the sympathetic and pneumogastric, and when the stomach fails to properly digest

the food and it lies in the stomach fermenting, gases are formed which distend the organs, pressure on the heart and lungs causing palpitation, irregularity and shortness of breath.

The danger from this condition is that, the more the heart fails, the sooner and in fact frequently does so.

Furthermore, poor digestion makes the heart load and weary, and辛勤 in red corpuscles which further irritates and weakens the heart.

The most sensible thing to do for heart trouble is to improve the digestion and assimilation of the food.

This can be done by the regular use after meals of some safe, pleasant and effective medicine such as Stuart's Bismarck Tablets which may be found at most drug stores and which contain the necessary digestive elements in a pleasant, convenient form.

Thousands of people keep well and vigorous by keeping their digestion perfect by observing the rule of taking one or two of these tablets after each meal, or at least after each hearty meal.

Stuart's Bismarck Tablets contain U. S. National Bismarck from man's and other natural sources which acts gently on the system digesting it perfectly and preventing acidity, and the many diseased conditions which accompany a weak stomach.

When Stuart's Bismarck Tablets are used you may know you are not taking into the system any strong medicine or powerful drug but simply the natural digestive elements which every weak stomach needs.

No widely known and popular have those tablets become that they are now sold by every druggist in the United States, Canada and Great Britain.
