TO MEET ALL DEMANDS The Actual Amount Of The Gift Unstated.

THE SCHEME SUGGESTED WILL BENEFIT CHIEFLY THE MIDDLE CLASSES.

Sir Ernest Cassel, New in Egypt, Will Visit England Soon—A Working Alliance With Germany Suggested to Check United States' Advance In South America.

London, Jan. 4.—The advisory committee which is to supervise the application of the gift of one million dollars for the better treatment of tuberculosis refuses to confirm or deny any of the reports regarding the identity of the donor. It is in deference to the king's express wish for secrecy. A member of the committee stated: "The scheme is intended to benefit chiefly the lower middle class, clerks and shop assistants, while there will be twelve beds for more wealthy people, who may prefer an institution under royal patronage to a private sanatorium, and who at the same time would be benefiting the resources of the institution."

The committee member said that the figure of a million dollars, which had been published, was unauthorized and purely hypothetical and refused to divulge the actual amount beyond stating that it was sufficient for the object sought to be obtained.

Sir Ernest Cassel, the millionaire financier, widely mentioned as the donor, is now in Egypt, and will visit London before returning to England.

The Saturday Review, to-day, prints a remarkably free-spoken editorial in which it strongly advises Great Britain to form a working alliance with Germany in order to check the continued, and apparently inevitable, advance of the United States into South America.

POWERS TO INTERVENE. Paris, Jan. 4.—The Courrier Du Soir publishes another report to the effect that the United States is preparing the way for intervention by the powers in South Africa.

THE LIBERAL WILL WIN.
Victoria, B.C., Will Return a Supporter of Government.

OTAWA, Jan. 4.—The speaker of the house of commons has been waiting patiently since the early part of last year for the report of the judge who tried the Victoria, B.C., election case, but still it is not to hand, and the government cannot issue the writ until it has been received. Mr. Drury is the liberal candidate, and will be elected no matter whether there is a contest or not.

APPLICATION will be made to the parliament of the dominion of Canada at its next session for an act to incorporate the Canadian manufacturers and exporters, with all necessary rights and powers. Application will also be made for an act to incorporate the Essex terminal railway company, under the provisions of the railway act, to construct, maintain and operate a line from Sandwich to the town of Walkerville through the townships of Sandwich East and Sandwich West and the city of Windsor to some point in the town of Sandwich.

Prof. E. S. Wiggin announces that he is going to take action to wrest signor Marconi's patents on his wireless telegraphy. The professor says Marconi stole his ideas and should not be allowed to enjoy the benefits of another's pioneering.

HOME WITH A FORTUNE.
After Being Mourned as Dead by His Family.

New York, Jan. 4.—J. W. Ross, who, up to 1897 was salesman for a New York woolen house, has returned home after being mourned as dead, says a special to the Press, from Lockport, N.Y. He is back from the Klondike a rich man.

He left Juneau on December 6th, hoping to get home in time to give his relatives and friends a pleasant Christmas surprise, but was delayed by storms. He left New York in August, 1897, for Seattle, and was one of the pioneers who cut the trail through the mountains, occupying four months in going forty miles to the Skaguay. He exchanged his surplus food for rich claims.

Ross brought back \$40,000 in gold, and owns valuable mining interests. He will work on his return there next spring.

Has Corralled Output.
Vancouver, B.C., Jan. 4.—Mr. Weyhauser, the white pine lumber king, of St. Paul, has secured control of the practically entire output of the Pacific coast. It was he, it appears, who purchased the Moodyville mills, the sale of which was announced. He has also bought out the Hastings mill company and has purchased the Cheam mill on Vancouver Island, the largest on the Canadian Pacific coast. These latter were secured from their virtual owner, the bank of Montreal.

BLOWITZ LEAVES TIMES.

Correspondent Resigns His Post, On London Paper.

M. DE BLOWITZ.
London, Jan. 4.—The Candid Friend says that M. de Blowitz has resigned the Paris correspondence of the London Times, to retire to private life, and is succeeded by Arthur Fullerton, an American.

M. de Blowitz, an Austrian by birth, became a naturalized French citizen at the time of the Franco-German war, and entered the service of the London Times in 1871. He is now sixty-nine years of age. For the last thirty years he has been the chief man through which the London Times has drawn its information on French affairs, owing to personal acquaintance with the chief political personages of the time.

Arthur Fullerton, referred to as the successor of M. de Blowitz as Paris correspondent of the London Times, is William Morton Fullerton, a Bostonian, who has been M. de Blowitz's assistant at the Times' Paris bureau for ten years.

AN IMPORTANT LETTER On Postal Telegraph Service By Sea And Land, BY SIR SANDFORD FLEMING.

ADVOCATES STATE-OWNED CABLES AND TELEGRAPHS.
Canada The Only British Country In Which These Are Not Held By The State—An Able Statement to The Postmaster-General.

OTAWA, Jan. 3.—Sir Sandford Fleming has written a long letter to Hon. William Mulock, postmaster-general, regarding "The Postal Telegraph Service by Sea and Land," and has practically brought into near membership all the king's subjects in both hemispheres.

"It appears to me," he says, "that it would be advisable to lay the new cable across the Atlantic on a route distant from that to the north of the zone in which the existing trans-Atlantic cables are laid, but whatever route may be selected, it may be regarded as reasonably certain that the undertaking would cost about \$2,000,000, and that the charges for interest and sinking fund to replace capital, together with the cost of operating and the cost of maintenance, would reach \$166,000 per annum.

The state-owned Atlantic cable, with a capacity for ten million words per annum, would be capable of transmitting a maximum of ten million paying words per annum. This volume of traffic, reckoned at the exceedingly small rate for transmission of two cents per word, would give a gross return of \$200,000; a sum in excess of the total annual charges (estimated at \$166,000) for establishing, maintaining and operating the line. Thus it appears that an Atlantic state-owned cable fully employed up to its maximum limit, would be self-supporting, if no higher rate per word be levied than two cents, or one-twelfth the rate now charged by the existing cable lines.

The sources of business for the new cable, Sir Sandford points out, would be three-fold, Australasian, Canadian and United States. From these sources he is satisfied that a state-owned cable service would find abundant employment.

Sir Sandford Fleming says he can see no reason why the standard rate, chargeable for transmission by the state cable should not at once be reduced to five cents per word for ordinary messages and twenty-five cents for urgent messages. This low tariff would prove a boon to the people who are now deterred from cabling on business or social occasions on account of the cost. The reduction to one-fifth of the present charge would change all that; it would revolutionize trans-Atlantic correspondence, greatly tend to promote and augment business, and increase a "powerful influence in bringing about closer union."

Canada, says Sir Sandford, is the only country in the British empire in which land telegraph lines are not state-owned and administered by the post office. He argues, in support of his proposition, that the wisdom of the policy followed by European nations in taking over low uniform charges for all distances, is in comparatively small countries, "the result of an eminently successful, who will deny, that in view of the geographical conditions of the dominion, there is no country on the face of the globe where the remarkable peculiarities of the electric telegraph can be turned to better account than here, in Canada."

The lowest telegraph charges, he states, are now twenty-five cents for day messages of ten words; and twenty-five cents for "night" messages of twenty-five words. "Would not the adoption of these rates for all distances, as far as the general interest is concerned, be a uniform tariff place our people in every province precisely on the same footing. We have long accepted the principle of uniform charges in the Canadian post office department. A two-cent postage stamp affixed to a letter secures its conveyance to any place near or remote, and yet it will be recognized that the carriage of a letter 1,000 miles costs more than its carriage one mile. If the principle be acceptable in the postal service, is not a uniform charge for all distances, far more justifiable in the telegraph service of the dominion?"

The minister of militia announces the following promotions and appointments to the 2nd Canadian mounted rifles: To be major, Capt. G. W. Cameron; to be captain, Lieut. P. E. Thacker; to be lieutenant, R. H. Ryan, King's Canadian Hussars; Canning, N.S.; C. P. D. Simpson, 6th Hussars, Montreal; W. T. Roddy, 3rd Victoria rifles, Montreal; R. E. Muir, customs department, Ottawa, (late Strathcona Horse.)

A cablegram from the war office states that the pay and conditions of service for the field hospital company will be the same as for the respective ranks of the mounted rifles. Recruiting for the field hospital company will take place in Ontario and Quebec next Wednesday and in the maritime provinces on Thursday. Thirty-five privates and twenty-one drivers are required, of whom Kingston's quota is one each.

Depew And Bride Coming Home.
Paris, Jan. 4.—Senator Chauncey M. Depew and his bride are among the passengers sailing from Cherbourg for New York, to-day. Upon arriving in America the couple will proceed immediately to Washington, where Mr. Depew will resume his duties in the senate.

The St. Paul trust company, capital \$200,000, has voted to go into liquidation.

A FINE CAPTURE. The Boer General Erasmus Is In British Hands.

London, Jan. 4.—Lord Kitchener reports to the war office, under date of Johannesburg, Jan. 3rd, as follows: "Bruce Hamilton, operating to the eastward of Ermelo, since December 24th, has captured 100 prisoners, including Gen. Erasmus."

The war office is considering the advisability of supplying false teeth free to recruits as a final endeavor to increase the army in South Africa. Sixty per cent of the rejected volunteers have been caused by defective molars. The dental hospitals of London have informed the war secretary that they will fix up the deficiency in recruits and have quoted a price for the job.

Lord Roberts has issued an official contradiction of the stories, circulated on the continent of the violation of Boer women by the British troops in South Africa and the employment of Boer female refugees for immoral purposes.

Gen. Hamilton's Capture. Pretoria, Jan. 4.—Gen. Dewet has ordered the Boer commandoes to retreat at any cost, the work of extending the British blockhouses. Further fighting may consequently be expected.

Gen. Bruce Hamilton has captured another Boer leader and twenty-two prisoners on the Swaziland border.

CONVICTED OF FRAUD. Dr. Glasco And His Amanuensis In Police Court.

Toronto, Jan. 4.—"Dr." Ezra Glasco, "the radiant health apostle," and his amanuensis, Mrs. Jane Lovelace, were convicted of fraud in the police court yesterday. The people conducted a series of success and health "cures," and drew \$1 a month from several people. The literature issued in connection with these "cures" was of a very florid character, and gave the impression that Glasco was to be regarded as a supernatural being.

A new company, with a capital of \$150,000, has been organized by some local capitalists, to be called the Imperial Bag Co., Limited, to manufacture large and custom bags and sacks. The capacity of the establishment will be about 7,000,000 sacks per annum. This enterprise will employ about 100 hands and fully \$75,000 will be spent in land, plant and buildings.

GOVERNOR IS HEARING IT. Minister's Charge Against Sheriff Being Investigated.

Albany, N.Y., Jan. 4.—Some time since Rev. O. P. Gifford, of Buffalo, charged sheriff Samuel Caldwell, of Erie county, with failing to clean up an alleged poolroom outside of the city. The minister's charge was founded upon affidavits, he said, in the investigation before governor Odell.

The sheriff visited the place, he said, but found no evidence of business being done there and the grand jury failed to indict the club, which was called the Illinois club.

OVERCOME BY GAS. Walter Briggs Meets His Death at Dominion Steel Works.

Halifax, Jan. 4.—Walter Briggs, of New York, nephew of H. Dimock, one of the directors of the Dominion steel and iron company, Sydney, was found dead yesterday near the door of the furnace. It is believed he was overcome by the gas. The body had been lying unnoticed, where found for five hours.

Bryan On Roosevelt. Lincoln, Neb., Jan. 4.—Mr. Bryan declares his belief that President Roosevelt is playing for domination at the hands of corporations in appointing Payne and Shaw to cabinet positions. He says Payne's selection is not only surprising when we remember the president's reiterated about "civil" virtue, but it is proof positive that the president is shaping his administration to secure a nomination at the hands of the next republican convention.

Death Of A Lady. Sarnia, Ont., Jan. 4.—Mrs. Mollie Buchanan, relict of David Buchanan, collector of customs, member of D. W. Buchanan, publisher of the Winnipeg Commercial, is dead here, in her eightieth year. She was a daughter of the late Thomas Porter, a noted U. E. loyalist, and western Ontario pioneer.

Must Have New Election. Galt, Ont., Jan. 4.—Returning officer McCarty has decided, on the advice of J. M. Glenn, E.C., that the election of the three candidates for the council who resigned and then withdrew their resignations, is illegal and a new election will be held to fill the vacancies.

The fire department and the fire rating are satisfactory, thanks to Ald. Toye's good offices. Elec. B'n to the mayoralty.

Do not miss the opportunity of hearing Jarvis, Smiley and Blackford, Tuesday evening.
