ONTARIO LEGISLATURE

The Opening Of The Last Session.
ADDRESS FROM THE THRONE
PLEASED WITH THE OUTLOOK OF THE YEAR.

Desire to Have a Perpetual Source of Income From the Forests of the Province—Provision For an Afflicted Class—New Measures to be Introduced.
Toronto, Jan. 8.—At the opening, to-day, of the Ontario legislature, the following address from the throne was read:
"I take great pleasure in again meeting you as representatives of the province in parliament assembled.
Since the last meeting of the legislature we have been honored by a visit from their royal highnesses, the duke and duchess of Cornwall, and I was greatly pleased to render them the hearty reception given to their royal highnesses, in every part of Ontario, which limited time at their disposal permitted them to visit. The gracious expressions of loyalty which their presence evoked and the interest they manifested in every matter pertaining to the prosperity of the province will, I trust, strengthen our attachment to the empire, which they so worthily represented, and in which we, as a province, are so deeply interested.
I congratulate you on the continued prosperity of the lumbering industry, which gives employment to so many of our people and from which such a large part of our revenue is derived. The permanent crown forest reserves amounting to over a million and a half acres, have been carefully protected during the past season, and no loss of any consequence from fires or other causes has occurred. Steps are being taken to further increase these reserves in order to provide a perpetual source of income from the forests of the province.
The mining industry of Ontario is making steady and satisfactory progress. More capital and labor are now being employed in mining operations than at any previous time, and the output of the chief minerals and products of the province is rapidly and steadily increasing in both quantity and value.
The work of settling the agricultural lands of the crown has been successfully prosecuted during the past season, and the disposal of the actual settlers, most of whom are from southern Ontario. It is satisfactory to know that those who have obtained the settlements of the province in former years now realize that they can find unexcelled opportunities within our own boundaries.
The adequate care and maintenance of the insane of our population still engages the attention of the government. Additional accommodation for 150 patients has been furnished by the completion of new asylum buildings at Cobourg. This will relieve, for the time being, the existing congestion of the asylums of the province, and fear you will be again called upon at no distant period, to consider the advisability of making further provision for the accommodation of the increasing number of this afflicted class.
I am glad to learn that the factory progress has been made in the promotion of technical education and that in several of our towns and cities special buildings and suitable equipment for the purpose have been generously provided, and also that the system of travelling libraries for the newer parts of the province, for which provision was made a year ago, has met with general approval.
The completion of the imperial statute in force in the province of Ontario under the provisions of chapter III, R.S.O., has been completed and embodied in what will constitute volume III of the revised statutes. This compilation will be necessary legislation will be submitted for your consideration, and I have no doubt will be regarded with great favor by the legal profession and the public.
The year just closed has been one of very gratifying prosperity to the agricultural classes. The growth of the dairy interests of the province is especially noteworthy, and the marked success of the exhibitors at the recent Fine Arts and American exhibition evinces the intelligence with which agricultural operations of every kind are carried on within the province.
The improvements made at the agricultural college by the erection of a physical and biological laboratory, and the early completion of the Massey library and museum, will add greatly to the efficiency of the college, and place it among the first agricultural colleges of America.
I am pleased to learn that the legislation of last session for the encouragement of the beet sugar industry is likely to produce the results desired. The experiments conducted by the department of agriculture conclusively show that the province is most favorably adapted to the growing of sugar beets, and several companies are now preparing to undertake the work of sugar production.
The amendments to the factories act, requiring the owners of factory buildings to provide suitable fire escapes, have greatly increased the safety of the operatives and others connected with the mechanical industries of the province.
It is gratifying to be able to state that the fishing industry has during the year been unusually prosperous. The work inaugurated last year, of restocking the inland lakes and rivers will be continued during the approaching season.
Measures will be submitted hereafter for the sale of interesting historic

HIS SEAT IN PRISON

To Be Arrested If He Touches English Soil.
QUEEN WILL BE WITH KING
AT THE OPENING OF THE IMPERIAL PARLIAMENT.

The Prince of Wales Goes To Berlin on January 26th—Decrease in the Imports and Exports—The Protocol Has Been Signed.
London, Dec. 8.—Col. Arthur Lynch, recently elected to the commons to represent Galway, will be prevented from taking the seas. As soon as he sets foot on English soil he will be arrested, charged with treason. Lynch does not deny that he aided the Boers, but says he will take the seat unless prevented by force.
The World says that Queen Alexandra will probably accompany the king to Westminster, on the opening of parliament, on January 16th. The state coach in which the monarch will ride is a very gaudy affair, consisting almost entirely of plate glass, with gilding and other ornamentation, and a crown on top. The cushions are of crimson velvet. The route will be through St. James' Park to the Horse Guards, to Whitehall, and thence to Westminster.
The prince of Wales, it is announced, will start for Berlin on January 26th. Emperor William will visit England to attend the coronation on the anniversary of queen Victoria's death, and he will also attend the coronation of king Edward.
The report of Great Britain's imports and exports show that the imports in 1901 amounted to £522,238,986, a decrease, compared with 1900, of £20,498,880, a decrease from the preceding year of £10,695,107.
Baring brothers, London, have received a cablegram from Buenos Ayres which states that the difference between Chile and Argentina have been settled, and that the Argentine and Dr. Rainsford's declaration that the W.C.T.U. is doing the devil's work.

SEVEN REBELS SENTENCED.

Lord Kitchener Commuted The Death Sentences.
Cape Town, Jan. 7.—The sentences of seven rebels were commuted after a long trial. Three were sentenced to be hanged by the military court, but Gen. Kitchener commuted the death penalty to imprisonment for life. Three were sentenced to two years' penal servitude, with hard labor, and one to three years' penal servitude.
The chairman of the gold law commission stated, to-day, that although it was impossible to tell as yet what alterations in the present law would be recommended, rights acquired under the old law will remain undisturbed.
The summary of weekly official reports, from the end of last year to the end of December, shows 1,162 Boers were killed, 576 wounded, 7,393 captured, and 1,912 surrendered.

The Story Denied.

London, Jan. 8.—The war office, on the authority of Lord Kitchener, has denied the report telegraphed from Pretoria, January 1st, that two officers of the intelligence department, sent to surrender near Warm Baths, were treacherously shot by concealed Boers.

The Capture Of Erasmus.

London, Jan. 8.—A correspondent of the Times, with Gen. Bruce Hamilton, writing from Durbanville, south-east Transvaal, gives details of a Boer party on Friday morning. Information having been obtained that the Boers were near Amsterdam, Simon's and Rawlinson's columns started early on Thursday evening. Evidence of Kaffirs whom the troops met en route was conflicting, but the enemy's trail was found at three o'clock in the morning, and after it had been followed along a long winding route, the Boers were surrounded at dawn. A few of them escaped. Forty surrendered, including commandant Erasmus and the remainder of Pretorius' command. Two other extensive areas were subsequently captured with 300 cattle. The same evening another group of Boers was surprised near the British camp and twenty were captured, with five wagons.

Truly Imperial.

Durban, Jan. 7.—With the consent of Lord Roberts and the approval of Lord Kitchener, it has been decided to increase the imperial light horse brigade, making it truly imperial, by the addition of a squadron from Great Britain, Canada and Australia.

Comparison Of Losses.

London, Jan. 8.—A published review of operations in South Africa during the past year, gives an interesting comparison of Boer and British losses. The total reduction of the Boer forces, in killed, wounded, taken prisoners, and surrendered, amounts to 18,320 men. The capture of Boer ammunition amounts to 2,300,000 cartridges. British columns are supposed to have captured a ton and a half of explosives, and twenty-seven guns, exclusive of those captured by Gen. Dewet at Zofontein. The capture of Boer stock have been enormous, including 29,882 horses and 366,821 head of cattle, and sheep taken. The British losses in the actual fighting, amounting to only half of those sustained by the Boers, namely, 9,113 men, of whom 1,513 were taken prisoners, and have since been released. During the last year 4,090 mules died of disease and fifteen officers and 342 men were killed.

TOD SLOAN TO STAY.

Will Ride The Horses of Cincinnati's Mayor.
New York, Jan. 8.—Tod Sloan, according to information which has reached the World; will this season wear the colors and ride the speedy horses of mayor Fleischman, of Cincinnati.
Sloan, it is stated will be reinstated in an English jockey club on the condition that he will not accept any mounts in England.
Then the jockey club in this country will license the rider.

Highest Price On Record.

Chicago, Jan. 8.—The Hereford bull "Perfection 92501" was sold for \$2,000 at the Union stock yards, Chicago. This is the highest price paid in America for a Hereford and the highest price in recent years for a bull or cow of any breed. Perfection was the champion Hereford bull of the international live stock exposition in December.

Accused Of Fraud.

Peterboro, Ont., Jan. 8.—James O'Boyle, of this town, has been arrested at Clarendon and taken to Whitley, charged with defrauding H. P. Kenney, the Peterboro stock dealer out of \$1,500. This money was given O'Boyle for purchase of hogs, but it is alleged, he failed to apply it.

M. V. Melanos, Canadian Government Immigration Agent, at Detroit, Shipped Twenty German-Americans from Michigan to Western Canada on Tuesday.

The Allan line steamer Mongolian, from St. John, N.B., and Halifax, for Liverpool, passed the Call of Man at 8:15 a.m., on Wednesday. H. P. Kenney, the Peterboro stock dealer, was given shelter in the police cells last night.

Would Like To Catch Bishop And Dr. Rainsford Alone.

Poughkeepsie, N.Y., Jan. 8.—William M. Smith, the famous cough drop manufacturer, once prohibition candidate for governor of New York, in speaking before an indignation meeting of the Poughkeepsie temperance society, last night, said:
"I would like to put bishop Potter and the Rev. Dr. Rainsford in a room together, stick my fingers in their faces and gouge their eyes out. I'd take this method of bringing them back to common sense and to the Lord."
Smith is an aggressive temperance worker and the remark was a result of bishop Potter's recent statement that prohibition is a failure and a fraud and Dr. Rainsford's declaration that the W.C.T.U. is doing the devil's work.

GRABS JAPAN'S TRADE.

Increase In Lumber Importation To The Orient.
Victoria, B.C., Jan. 8.—F. G. Nespe, consul-general for Japan, at Montreal, has arrived here from Yokohama. In an interview he said:
"Trade between Japan and Canada is growing fast, especially in the imports of salt sponges by Japanese from British Columbia. Japanese will also import much lumber from Canada, the market for timbers of this country being large. The finances of Japan are again in a stable condition. Money is plentiful, but in common with other nations, Japan was a heavy loser as a result of troubles in North China."
"Japan is making gigantic preparations for the monster exposition to be held in Osaka in 1903."

BEAUMONT DEFEATED.

Legislator Won Fight For Congressional Seat.
New York, Jan. 8.—Montague Lesler, republican, was elected in the seventh congressional district to succeed Nicholas Muller, democrat. He beat Perry Belmont, the regular democratic candidate, by 293 votes. The count was: Lesler, 7,677; Belmont, 7,384.

Think They Found a Swindle.

Buffalo, Jan. 8.—What is regarded by the federal authorities as a well developed lottery swindle was brought to light by the arrest of Andrew Gifford, a Seneca street barber. Gifford is charged with using the mails for fraudulent purposes and it is also stated by the federal officers that no drawers were held by the "lottery" purchasers of tickets never having a chance to win.

Hasn't Been Asked.

Princeton, N.J., Jan. 8.—Former president Grover Cleveland to-day that he has not received an invitation to represent the United States at the coronation of king Edward. Mr. Cleveland declined to say whether he would accept if such an invitation is tendered.

United States' Population.

Washington, Jan. 8.—The census bureau has issued a report announcing the population of the entire United States, including all outlying possessions, which was 84,275,069 in the census year 1900.

The Event of the Season Will Be the Opening of the Grand Opera House by the 14th P.W.O.R. Band, Monday Evening, January 13th, assisted by Bennett, Canada's star humorist and best local talent. Tickets, galleries 15c. and 25c. chairs 35c. and 50c.

English Lady Donates Sum To Church Of England.

Ottawa, Jan. 8.—J. Travers Lewis, chancellor of Ottawa (Anglican) diocese, has received a gift of £500 from an English lady, who was interested in the mission work of the late Rev. Mr. Low, of Tenbyson, who died recently. The money is to be used as an endowment for Mr. Low's district.
At a meeting of the patriotic fund association, to-day, it was decided that the fund should apply to members of the 3rd contingent just the same as it did to the other contingent, with the exception of married men. The wives and children of those who join the contingent will not get any benefit because married men are not supposed to go with the force.
Petitioners were put in circulation in Hull, to-day, asking the minister of justice to commute the death sentence of Stanislaus Lacroix, the Montebello murderer, who is to be executed in March. The petition sets forth that there has never been a legal hanging in Hull, that the petitioners believe the evidence of insanity, given at the trial, was sufficiently strong to raise a doubt in the prisoner's favor.
Robert McGregor, a local hardware merchant, was commuted to life on a charge of common assault, alleged to have been committed in Ottawa, the victim being a young French girl from St. Levi, Quebec. The girl came to the city with her sister and put up at an hotel. They had a room and ordered gin which they drank. One of the girls said that it had an unnatural taste and that her sister, after lying upon the bed became unconscious. Then the other sister fell asleep and when she awoke two men were in their room. The evidence given by the sister who awakened first was the basis of the charge. The victim was unconscious for an hour after the men left the room, McGregor will be tried this week.

C. M. Woodworth, a lawyer from Dawson City, is here to ask the authorities to mitigate the punishment of George St. Cyr, who is undergoing a life sentence at the police barracks, Dawson, for shooting and killing James Davis, some miles below Hootalinqua, on November 17th, 1900.

Mr. Pottinger, general manager of the I. C. R., says that a superannuation system in connection with the road is under consideration. Winter traffic on the line is very good, much better than last winter.

DRINK PECCALIAR TO "BOWERY" DISTRICT OF MCKEESPORT, PA.

McKeesport, Pa., Jan. 8.—Since the publication of the story about mayor Black of this city, persuading several drunkards to swear off numerous beverages has been made as to the nature of "fuss fungus," a beverage mentioned in connection with that story. "Bowery fuss fungus" is a drink found nowhere else in the world, perhaps, than the "Bowery" district of McKeesport. It was introduced by the Slav residents of that section and has since come to be the standard drink of the "Bowery." Its composition is a little difficult. The component parts are alcohol, burned brown sugar, water and some Orleans molasses. Properly mixed this stuff will start a fight in church.
