INCIDENTS OF THE DAY,

BODIES OFFERED THREE GRAVE INDIGNITIES.

Dark Deed Committed By Ghouls -Cut an Iron Bar-Bodies

Dragged on The Ground. Caretaker Lawless, of St. Mary's cemetery, received a shock this morning, upon visiting the vault, in find ing that during the night thieves had paid an unwelcome visit to the house of the dead and removed the bodies

of three women.

After satisfying himself that the tries es had not left any trace behind of their identity, he did not lose time in coming into the city and making

known the affair. Police constable Snodden, with constables Craig and Megarry, visited the scene of the desecration imme-The Imperial tobacco company, with a cap diately after the aftair was reported ed at the vault while a fourth remain-It is announced that the United States ed at the rig and as-isted in helping ches of hair that had been torn from farmer, to the United States to study are not at Queen's college, though racing. > Margaret Hughes' remains were placed in the vault on December 27th, and Matilda Cropley's on November 20th. The other bodi s had not been touch-

Caretaker Lawless reported the matter to Archibald Hanley, secretarytreasurer of the board of directors of the cemetery. He in turn informed Dr. Ryan, chairman of the board, who visited Queen's college, but did not find any trace of the body there. Archbishop Gauthier and Rev. Fr. Kehoe were informed of the regretted occurrence and they drove out to the cometery this afternoon to view the work of the ghoulish visitors. Mr. Hanley says the board of directors will push the matter to the very end

in an attempt to learn the identity of the parties guilty of the crime and punish them for it. Miss Matilda Cropley hailed from Ottawa. She died at Rockwood hospital for the insane, where she had been a patient for a long period, on November 29th last, her body being placed in the vault the day following

MOSQUITOES AND MALARIA Can Both Be Greatly Lessened By Vigorous Work.

London, Jan. 9.-Remarkable testimony as to the pos-ibility of combating malarial fever by modern scientimethods is afforded by a letter which major surgeon Gorgas, the santta?¢ officer of Havana, has written to a member of the Liverpool school of tropical medicine. After the annexation of Cuba by the United States, a commission of the United States government found reason to believe that the infection of yellow fever, like that of malarial fever, is carried by mesquitoes of a particular kind. Losng no time in abstract discussion on the matter, the Americans started to work at once to clear out mosquitoes in Havana. The result is declared to have been wonderful. Surgeon Gorgas writes that for the first time since 1762. Havana has been free from vellow fever in October, while malaria has decreased more than one-half. He also adds that Mr. Le Prince, who is di ectly in charge of the anti-mosquitoe work, estimates that mosqui toes have degreased ninety per cent, by ing sunk in the property of the Cleve the operations, as compared with the land Sarnia saw mill, Sarnia, Ont., same time last year. ARE REPORTED BY MONTREAL HEALTH DEPARTMENT.

Parents Thought A Child Had Chickenpox-Mayor R. Wilson-Smith May Secure the Mayoralty.

Montreal, Jan. 9 .- Present indications point strongly to the election of R. Wilson-Smith to the mayoraity by acclamation. Steps are now under way to bring him into the field and if the English speaking electors evidence unanimity in the matter, mayor Prefontaine has left the pledge that he will not stand in the way. The Irish electors are talking of putting W. E. Doran in the field a second time, but no definite steps have yet been taken.

Two fresh cases of small-pox have been reported to the bealth authorities, both being children. The disease has been dying out latery and these cases are the first new ones to break out in some time. One of the children was taken by its parents to the city hall, where the health officers are located, thinking it was a case of chick-

William Bramley, the diamond merchant, whose arrest has been resorted from St. Albans, Vt., on a charge of smuggling diamonds into the United States is well known here. He is president of the Montreal Incresse club and a director of the M.A.A.A. It is believed here that the arrest was made on information given out by some enemy out of spite. Mr. Bramhas been released on \$290 Lai and has left for home.

Dr. R. Seward Webb, is in the city to-day, being on a tour of in spection of the Rutland road which he controls. He says it is the intention to put the road in splendid condition and thoroughly equip it as he considers it one of the best routes to New York, Asked regarding the plans of the South Shore railway and the Caebec Central, in which he is interested, he stated that they were at present endeavoring to arrange details of the amalgamation of these two lines which will eventually be utilized as an entrance to the city of Quebec through

S. R. Callaway, president of the American locomotive trust, who now in the city, asked, regarding the construction of a plant in Canada, stated that, they would very much like to and probably would, at some future time, construct \ locomotive works here. "At present," said he, "we are using all our energy in perfecting the American plant, which is kept very busy turning out locomotives for which there is a great de mand at present. We are, at present, under contract to supply locomotives to the Grand Trunk, Michigan Central

and other roads." Charles Devlin, immigration commissioner in Ireland, is coming to Canada on the Tunisian to arrange for the tion this year.

CAN DO IT BEFORE MEN. Ladies Competing In Public

Swimming.

London, Jan. 9.-Last summer the

competed in public for a recognized championship race, when Miss championship of the Southern counties' swimming association. There were some, however, who disagreed with this decision, and recently the vexed question was again raised the annual council meeting of the southern couaties' association, when a proposal was made that in future the adies' swimming championship o England should be decided in the pres ence of none but ladies. It was urged by Frank Sachs that under the prevailing conditions a number of ladies who objected to the presence of men were debarred from competing, while Mr. Styn, father of the southern lady champion, opposed this argument, and gave several instances of ladies having improved their swimming through being enabled to swim in the presence of men. A letter was also read from the Portsmouth ladies' swimming club i favor of competing before men. When put to the vote this proposal was lost, thirty-nine favoring the presence men and only eighteen voting for ar

audience of ladies only.

Former Canadian Officer. London, Jan. 9 .- Maj.
