Boers Live In Hope.
Amsterdam, Jan. 11.—The Boer delegates in Holland evidently anticipate that some kind of peace overtures will shortly be forthcoming, though they are reluctant as to their reasons for this belief. They maintain, however, that the demand for an unconditional surrender must be abandoned. It is privately admitted that not only the Boers but also the British are in a state of suspense as to what they call "any fair offer of terms."

IS MAKING PROGRESS.

Fine Farms For The British Troops.

THE COUNTRY PICKING UP

GRAZING FOR HORSES AND VEGETABLES FOR ARMY.

Prosperity Returning to Johannesburg—Good Future For Industry—Several Rebels Have Been Given Long Terms.

London, Jan. 12.—A despatch from Cape Town to the Times says Lord Kitchener has established an excellent system of farms which are attached to recruiting stations in each colony. These farms provide grazing and forage, and it is intended they shall be utilized for the supply of vegetables for the army.
A correspondent of the Times writing from Johannesburg says that, returning after two years, he is astonished at the change effected. Progress, it seems, has been particularly rapid in the last two months, and prospects for the future are even better. Communication with the coast is secured by the block-house system, and an agreement with Portugal in regard to native labor appears to have removed obstacles to the resumption of industry. Thousands of refugees are still waiting to return. This community is naturally somewhat impoverished, but everyone is sanguine that, as regards Johannesburg, the worst of the war is over.

SMALLPOX IN CORNWALL.

An Hotel Quarantined—Fifteen Boarders There.

Cornwall, Ont., Jan. 11.—A man named Yates arrived in Cornwall several days ago peddling pictures, and with his wife was taken ill at the Carleton hotel. A doctor was called and pronounced it a case of smallpox. Medical health officer Hamilton immediately had the house quarantined, and set a strong guard to keep the inmates within the infected quarters. There are about fifteen boarders in the house, and the medical health officer, Dr. W. H. Hodgett, provincial inspector, is here, and, together with the medical health officer, are taking every precaution to stamp out and prevent the spread of the disease. Mrs. Yates is seriously ill, but her husband seems to have a mild attack. They will be removed to the smallpox hospital as soon as the woman's condition will permit.

TRUSTS PREVENT MARRIAGES.

Young Men Can't Keep Up to The Standard.

New York, Jan. 11.—The Rev. Albert Bruchhaus, pastor of Hope church, in an interview says that trusts are responsible for the decrease in the number of marriages here and in all parts of the country. He said: "The trouble is that the expense of the American standard of living is increasing all the time. Modern financial combinations, trusts, etc., make it impossible for young men to work for salaries to keep up with the march and support wives. If they are conscientious they will not burden themselves with families they can not support."

WOMEN STOP JAIL DELIVERY.

Hold Gang of Desperadoes at Bay Until Help Arrives.

Kokomo, Ind., Jan. 10.—The heroism of two women, the wife of sheriff Harness and Miss Pohlman, a domestic, stopped a wholesale jail delivery here last night. The Cleveland gang of desperadoes saved the cell keys and opened the outside door. The women held them at bay until help arrived. The prisoners fought desperately, but were driven back. A heavy guard has been placed around the jail, and a woman passed the keys into the jail.

TRUSTEES ARE NAMED.

Men To Have Charge Of Carnegie Institute.

Washington, Jan. 11.—Official announcement is made of the board of trustees of the Carnegie institution, incorporated here, under the \$10,000,000 gift of Andrew Carnegie. The only indication as to the form of the gift is that it will be in "five per cent. bonds." The announcement was made in the form of a statement given out by Dr. Charles D. Walcott, secretary of the incorporators.

Sews Up His Mouth.

Dublin, Ind., Jan. 11.—Jeremiah Peabody, an aged and infirm inmate of the Tipton county almshouse recently became dissatisfied with the food placed before him, so he decided to sew his mouth together to keep from eating. He procured a darning needle and some heavy thread and took eighteen stitches through his lips. He was discovered in a serious condition. The physicians believe blood poisoning will result from the wounds.

Had A Contest.

Hamilton, Ont., Jan. 11.—Dan McLeod, the noted Scottish wrestler, defeated Otto Hermann, who had claimed to be the best in the world at the Gracco-Roman style, here last night in two straight falls. Hermann, had the advantage in weight of about twenty pounds. Last night was the first time McLeod ever wrestled at the Gracco-Roman style.

Fuel Oil For Warships.

London, Jan. 11.—Following a long series of experiments with oil fuel in torpedo boat destroyers, the British admiralty has this week been conducting tests with it in two battleships and first-class cruisers of the Channel squadron. A fuel consisting of coal and oil mixed is under favorable consideration.

BELIEVES DEAD WARNED HER.

Girl Awakes in Time to Save Her Mother's Life.

St. Louis, Mo., Jan. 10.—That the dead can come back to warn the living is believed by the children of Mrs. Christina Binniger. "Hilda Binniger, sixteen years old, says she was awakened by her father's voice early this morning and warned to look after her mother. Only for this warning the woman would have died from morphine and chloroform which she had taken with suicidal intent, in order, she says, to join her husband, who was killed several months ago. According to the father, only for this warning the woman would have died from morphine and chloroform which she had taken with suicidal intent, in order, she says, to join her husband, who was killed several months ago. GERMANY AND ENGLAND.

They Must Cultivate Peaceful and Friendly Relations.

Berlin, Jan. 11.—The reichstag yesterday, Herr Liermann von Sonnenberg, whose hatred of Englishmen and Jews is co-equal, delivered a furious tirade against England and Mr. Chamberlain. His violence was not endorsed by a majority of the members, and when chancellor Von Buelow arose and rebuked the speaker all but the small anti-Semite section applauded him. The chancellor said he believed he would have the sympathy of the house in exposing the hope that the custom of abusing foreign ministers in the reichstag would not be adopted. Such abuse was neither in accordance with the habits of Germany, nor in the interest of the country. This statement elicited cheers.

Calling The House.

Victoria, B.C., Jan. 11.—The provincial Gazette announces that the local board is to meet for the transaction of public business on February 20th. This announcement was most unexpected, as several of the ministers have stated that it would not assemble before March and possibly May. The government's sudden decision to call the house together is attributed in some quarters to pressure by the governor.

To Make An Experiment.

Toronto, Jan. 11.—It is announced by Mr. Harcourt that for the purpose of facilitating the experiment of grading rural schools, by grouping a number of them together, he will introduce a bill permitting the consolidation of two or less sections with one group.

Slept At His Post.

Halifax, N.S., Jan. 11.—Word has been received to the effect that trooper Urny, of Halifax, had been placed under arrest in South Africa, and was held for court-martial. He was detected sleeping at his post while on picket duty. Recently a British soldier was shot for a similar offense.

The Erie Canal is to be enlarged.

Woodstock, Ont., Jan. 11.—On behalf of J. H. Nichols, of this city, a writ claiming \$200 damages from the Elder-Dempster steamship company for loss of baggage on the steamship Louisiana, which went on the rocks off the coast of Newfoundland, in July last, and on which he was a passenger, has been issued in the county court here.

New Committee Settles Garment Workers' Troubles.

40,000 MEN ARE IMPROVED

PRESIDENT MARKS RECEDES FROM HIS DEMANDS.

Reducing Time to Eight And One-Half Hours—Secretary of Garment Workers Agrees to Offer.

New York, Jan. 11.—A virtual settlement has been reached of the bitter controversy for shorter hours, that, for many months, has been waged between the garment cutters and the clothing manufacturers of the United States.
An amicable settlement of the question, which involved about 40,000 men in New York, Boston, Philadelphia, Chicago, St. Louis, Cincinnati, Syracuse, Utica, Rochester and Baltimore, was reached through the medium of the committee of thirty-six appointed by the recent conference of the national civic federation in this city.

The United garment workers demanded nearly a year ago an eight-hour day. This the employers absolutely refused to grant and preparations were making for a strike when the arbitration conference was held here in December last.

President Marks, of the national association of clothing manufacturers, and Henry White, secretary of the garment workers, were placed on the arbitration committee then selected. They came together later, discussed their differences, and a meeting of a portion of the full committee heard their views.

As an outcome of the meeting president Marks receded from his demands for a nine-hour day by reducing the time to eight and one-half hours. To this secretary White agreed.

It is understood the garment workers will continue efforts to secure an eight-hour day, but will abandon all ideas of striking.

GERMANY AND ENGLAND.

They Must Cultivate Peaceful and Friendly Relations.

Berlin, Jan. 11.—The reichstag yesterday, Herr Liermann von Sonnenberg, whose hatred of Englishmen and Jews is co-equal, delivered a furious tirade against England and Mr. Chamberlain. His violence was not endorsed by a majority of the members, and when chancellor Von Buelow arose and rebuked the speaker all but the small anti-Semite section applauded him. The chancellor said he believed he would have the sympathy of the house in exposing the hope that the custom of abusing foreign ministers in the reichstag would not be adopted. Such abuse was neither in accordance with the habits of Germany, nor in the interest of the country. This statement elicited cheers.

The chancellor continuing, said he had already made it clear that public opinion ought to resolutely repudiate any attempt to asperse the German army, "but if this repudiation is to be an excuse for forcing us into a different attitude in regard to the South African war, or to a pre-text creating unfriendly relations between ourselves and a people with whom we have never in hostility, and to whom we are also bound by weighty interests, I must leave it beyond doubt that we will have nothing to do with any thing of the kind. Our policy can only be determined by the permanent interests of the country. These require, while safeguarding our dignity and honor, the cultivation of peaceful and friendly relations with England."

Has Found The Cause.

Paris, Jan. 11.—M. Metchnikoff, bacteriologist, claims to have discovered the cause of hair turning grey. He ascribes it to a bacillus which devours the coloring pigment. He has christened this pigmentophagus. He says it is a voracious creature, whether there was any illegality in connection with the court of inquiry. It is understood that at the recent conference between the president and rear admiral Schley the latter pointed out some alleged violations of law in regard to the court, and these matters have been deemed worthy of examination.

Illegality Alleged.

Washington, Jan. 11.—The case of rear admiral Schley is now being considered by the attorney general, for the purpose of discovering whether there was any illegality in connection with the court of inquiry. It is understood that at the recent conference between the president and rear admiral Schley the latter pointed out some alleged violations of law in regard to the court, and these matters have been deemed worthy of examination.

Over The Attitude of Roblin, In Liquor Law.

Winnipeg, Jan. 11.—Over one million bushels of oats have been secured on government contract at Edmonton. J. J. Philby has been appointed fruit inspector of Manitoba.
Figures published here to-day show that the recent royal visit cost the city of Winnipeg \$5,280.

Ex-Corpl Woodhouse arrived here yesterday from the Yukon. Ex-constables Tweedie, Boyd and Arnold from the Yukon join him here to-day, when all four will proceed to Halifax, where places are being kept for them on the South African contingent.
Roblin's government policy on the liquor act is strongly condemned by the executive of the dominion alliance of Manitoba.
The weather this morning is a trifle colder, but is still very mild for this season of the year.

SIGNING PETITIONS.

For Arbitration of The South African Troubles.

Detroit, Mich., Jan. 11.—At a meeting of the Detroit Transvaal league, held last night, the Cleveland resolution, protesting against the British government securing bonds, mules and munitions of war in the United States, was discussed. A circular letter was sent to the pastors of all the churches in Detroit, asking for signatures to a petition asking president Roosevelt to question the United States in the arbitration of the South African question. The returns so far received shows that the petition has received 10,000 signatures in Detroit and more are coming in daily.

KRUPP'S WEALTH.

He Is By Long Odds The Richest Man In Germany.

Berlin, Jan. 11.—The richest man in Germany is Herr Krupp. According to the income tax returns he has twenty-one million marks a year, and one approaches him in wealth. He stands in a class alone, and there are over a dozen classes between Herr Krupp and the next richest man in Germany. The identity of the second wealthiest man in the empire, who has a yearly income of between five and six million marks, is not quite clear, although he is supposed to be the coal master, Herr Von Thiels-Winkel.

A Rich Strike Of Gold.

West Superior, Wis., Jan. 11.—Reports from the Sturgeon lake district in Ontario brought here show that the district is likely to become the richest gold field in Canada. Prospects from all other localities are coming to this part of the country, and the richest strike has been made by the steel mining company, backed by a number of Saginaw lumbermen. The one body of their mine is said to be fully 1,200 feet wide and extends for a distance of two or three miles. It is said that already several million dollars worth of gold is exposed and ready for the stamp mill. The Saginaw people have recently purchased some other property, which promises to be almost as rich, if not richer.
