SECOND EDITION NEWS ALSO ON PAGE FIVE.

COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

Trade is out in dull in Montreal as buyers and sellers are far apart in price. In future no new silver coins will be issued at Christmas time by the Bank of England. About 2,000,000 bushels of Manitoba wheat is stored at Duluth, Ontario elevators are full.

MAKING OTHERS HAPPY.

Sydney Smith cut the following from a newspaper, and preserved it: "When you rise in the morning, form a resolution to make the day a happy one to a fellow creature. It is easily done; a left-off garment to the man who needs it, a kind word to the sorrowful, an encouraging expression to the striving-trifler in thousands of light as air—will do at least for the twenty-four hours. And if you are young, depend upon it, it will tell when you are old; and if you are old, rest assured, it will send you gently and happily down the stream of time to eternity. But the most simple arithmetic sum, look at the result. If you send one person, only one, happily through each day, that is 365 and supposing you live forty years only after you commence that course of medicine, you have made 14,600 beings happy, at all events for a time."

JOKE DIDN'T WORK.

"Robson, do you know why you are like a donkey?" "Like a donkey?" echoed Robson, opening his eyes wide. "I don't." "Because your better half is stubbornness itself." The jest pleased Robson immensely, for he at once saw the opportunity of a glorious dig at his wife. So when he got home, he said: "Mrs. Robson, do you know why I am like a donkey?" "I don't," she answered, "I suppose it's because you were born so."

A FINE EVENT PROMISED.

The Montreal Star says "The Belle of New York," at its return engagement to be received by a large audience, which secured the favorite numbers over and over again. The chorus is splendidly balanced, and the ensemble of the costumes, though simple, is attractive, and the scenery shows little signs of wear. It will be here on the 22nd.

A SNOWSHOE TRAMP.

The snowshoe club, connected with the boys' brigade of St. George's cathedral, had their first tramp of the season last night. They visited the old fort and at the same time the hills that crown down over the river bank. The outing was led by Rev. G. L. Starr. The next tramp will be on Monday night, and afterwards refreshments will be served. The club's membership is limited to twenty-five.

HE FAILED TO CATCH ON.

She (gazing upwards)—How bright the stars are to-night, Mr. Sampson. He (promptly)—They are not bright. She (softly)—Than what, Mr. Sampson? He—Than they were last night.

A FINE GIFT.

Dr. Wood has presented a new operating table to a general hospital, governors, to be used in the Dutton wing (women's department). The table is of the modern design.

WHAT KIPPLING MEANT.

"Flannelled like at the wicket" may be simply a paraphrase for "batty."

BUILT ON GRIT! ISN'T IT?

Kingston remains as it was—grit.

GREAT SACRIFICE OF LIFE.

Shamokin, Pa., Jan. 17.—Mine inspector Edward Brunyan's annual report shows there were sixty fatal and ninety-eight non-fatal accidents in the past year, one life being sacrificed for every 123,892 tons of coal mined.

FROM THE CAPITAL CITY.

BOY GETS \$2,500 FOR LOSS OF AN EYE.

A Dynamite Cap Exploded—Another Lad Has a Turkey Bone in His Throat—Brought to the Hospital.

Ottawa, Jan. 17.—With a section of a turkey bone two inches long fast in his bronchial tube, Frederick Mullin, the three-year-old son of James Mullin, Osgoode, lives and suffers no inconvenience. The lad owes his life to peculiar structure of the bone, which is hollow. Every effort made by physicians, and the lad's parents to dislodge it, has proved unsuccessful. As a last measure the application of the X-rays was considered, but as an Ottawa specialist did not deem such a move of merit it was not adopted. The boy will be brought to the city to have the bone removed.

William Devine, a little boy, living in Hintonburg, has been awarded \$2,500 damages for the loss of an eye. The verdict was against contractor McDonald, of Aylmer, Devine found a dynamite cap near an excavation made by McDonald, and he was struck by a stone. The cap exploded, and destroyed the sight of one of Devine's eyes.

THE KINGSTON CADETS.

The Ontario Hockey Association Learning Sense.

Toronto, Jan. 17.—The Ontario hockey executive, at its meeting last night, restored the Royal military college club to membership, which had been forfeited by playing in Pittsburgh, Pa., against two expelled members of the O.H.A. It was pointed out that the defence that the match took place in foreign territory, was not sufficient, as the O.H.A. claims authority over its members, no matter where they may go. A resolution was adopted condemning the practice of playing seniors in intercollegiate games and then restoring them and playing them in senior matches. The letter of the regulation does not forbid this; but it is against the spirit of the game, and the executive hopes that the practice will not be generally followed.

FRANCE INSISTS.

Must be Allowed to Land in Venezuela. Paris, Jan. 17.—The French government has called Caracas, instructing the French consul there to insist that M. Secretat, who recently arrived at La Guayra on the French fine steamer St. Laurent, from Bordeaux, be allowed to land in Venezuela. The consul, when he reached La Guayra, was on his way to Caracas, in order to protest there against the seizure of the estates of Gen. Matos, the revolutionary leader, which had been legally passed to his father, a merchant of Bordeaux. He was prevented from landing by the Venezuelan authorities.

TO ESCORT YACHT.

Vessels May Join Hohenzollern at West Indies. Washington, Jan. 17.—The following squadron has been assigned to rear-admiral Evans to welcome prince Heinrich of Prussia, who is on the imperial yacht, Hohenzollern, on her way to the Atlantic coast from the West Indies and escort her to New York harbor.

DECIDES TO ENTER POLITICS.

Christiania, Jan. 17.—The Norwegian farmers' union in existence since 1896 as non-political organization, holding a strict mean between the two political parties, has decided to become a political party itself. The farmers in that country, who are mostly radicals, have entered the new party, and the irreconcilable agrarians, Rinde, has been elected a member of the new organization.

WILL DOUBLE EVERY GIFT.

Poughkeepsie, N.Y., Jan. 17.—It was announced in the chapel at Vassar college last evening that John D. Rockefeller had promised to double every gift made to the college before commencement day, 1902, to a sum not exceeding \$200,000. Besides lesser gifts, Vassar already owes her recitation hall and one residence hall to the generosity of Mr. Rockefeller.

PLEASANTEST FORM OF DEATH.

Miss Honely—As for myself, I should prefer to be kissed to death. An unkind member—But where could you get an executioner?

CHEAP ORANGES.

Large Valencia oranges regular price 20c. We will sell to-morrow only at 15c. per dozen at Carnovsky's.

THOMAS McDEVERA.

Thomas McDevera, Buffalo, N.Y., was arrested to-day by detective O'Loughlin on the charge of grand larceny, first degree. McDevera is wanted in Galt, Ont. It is said that he was treasurer of a church and stole \$1,000 belonging to the congregation. He will be held to-day by detective O'Loughlin from Canada.

HOTEL RANDOLPH.

Hotel Randolph will extend its capacity, so that twelve or fifteen additional rooms can be secured. This will necessitate a number of changes being made.

A SEVEN POUND PAID OF PURE JAM.

A seven pound paid of pure jam assorted flavors, 4c., at Mullin's grocery, corner Johnston and Division streets.

HAD NEVER SEEN WOMAN.

Physician Had a Unique Experience At Chicago.

Chicago, Jan. 17.—Meeting and marrying a woman whom he had never seen before was an undertaking which Dr. Andrew Stewart Hackney, Kansas City, Mo., accomplished on his arrival in Chicago yesterday. Miss Josephine Mulock, came from Middletown, N.Y., to meet her fiancé, and they were married last night at St. Paul's church. The marriage was the outcome of a jest made by Miss Mulock, when a mutual friend told her that Dr. Hackney would make her a good husband. Miss Mulock said she would marry him. A correspondence was started and soon a proposal came from Dr. Hackney, which was accepted. Dr. Hackney is fifty-six years old and his wife is thirty-four. She is said to be wealthy.

CHARGED WITH FRAUD.

A Plea That the Judge Took as Not Guilty.

Toronto, Jan. 17.—When Walter J. English, a young Peterboro man, was charged at police court this morning with passing a cheque on A. Clubb & Sons, when he had no funds in the bank, he pleaded guilty and said he could explain the matter. His defence was that he had been in the past cheque had been honored in the past by the canoe company at Peterboro, which had an account in the bank there. The magistrate said the plea was really one of "not guilty," and remanded English until Monday. If he could get out to see Mr. Cox, or Hon. Mr. Stratton, he could arrange the matter in a few minutes. The magistrate fixed bail at \$500. English is the son of a well-known Peterboro man.

SIX HUNDRED KILLED.

By an Earthquake in South American City.

Laredo, Texas, Jan. 17.—A telegram from the city of Mexico says a devastating earthquake has occurred in the state of Guerrero, suffering severely from yesterday's earthquake shock, and that 600 persons were killed.

Mexico City, Jan. 17.—Four distinct shocks of earthquake shook this city yesterday afternoon. The shocks were very sharp and building edges were off and dwellings in the middle of the streets for safety, and many knelt in prayer.

DIED FROM POISON.

Caretaker of Bishop's College Infirmary Commits Suicide.

Sherbrooke, Jan. 17.—Mrs. T. Miller, caretaker of the infirmary of Bishop's college school, Lennoxville, committed suicide yesterday. Her husband, the principal of the school, found her almost unconscious and she said something about taking a dose from a bottle. Dr. Thomas was called, but could do nothing, and she died soon afterwards. She was generally of a cheerful disposition, but is said to have attempted suicide before. Mr. and Mrs. Miller, ten years ago, lived in Point St. M. Secretat, and have since been at St. John, N.B.

COURSE CHANGES AT QUEEN'S.

A few important changes have been made in the courses at Queen's French and German have been divided into departments instead of being thrown together with Italian under the head of Moderns. Next session a new professor of French will be appointed, and Prof. Macgillivray will take the German. The change is considered necessary because it is too much for Prof. Macgillivray to take the whole Moderns' work. Hereafter in the science course, French, German, Latin and Greek will be placed on the same footing as a student may take any two of these subjects.

TRIAL BEGUN.

London, Jan. 17.—The trial of Dr. Krause, the former governor of Johannesburg, on the charge of inciting Cornelius Brocksman, the public prosecutor of Johannesburg, executed by the British authorities in South Africa, to murder John Douglas Foster, an English lawyer, on the staff of Lord Roberts, opened at the Old Bailey. The prisoner pleaded "not guilty."

DEATH FROM HEART FAILURE.

Sunderland, Ont., Jan. 17.—Mrs. C. H. Hadden, wife of a furniture dealer from Melton Man., was found dead in bed this morning at the house of her brother, Thomas Morrison, about three miles from here. Mrs. Hadden retired in her usual health last night. Heart failure is supposed to have been the cause of death.

OFFICIAL RETURNS TO-MORROW.

The correct returns for No. 7, sub-division, Cataragui ward, are: Hartly, 62; Metcalfe, 30. Mr. Hartly's majority now is placed at 70. The exact figures will be made known by the returning officer at noon to-morrow.

ENCORE FIEND A NUISANCE.

The encore fiend has grown to be one of the unaccountable features at a first night of a comic opera or musical comedy, and we doubt the wisdom of the theatrical managers who encourage such a nuisance by allowing unlimited repetitions of songs in response to encores.

AN EASY CURE FOR RHEUMATISM.

Relieve the pain with hot water, rub with GRIFFITH'S MENTHOL LINIMENT, draw down the skin, immediately rub follow. A short treatment will effect a cure. Universally acknowledged as the best liniment for all aches and pains. 25 and 75 cents at all druggists.

IS NOTHING NEW IN STORY.

SO SIR THOMAS SHAUGHNESSY STATES.

To Consider the Elevation of Tracks in Chicago—Cause For Strength of Stocks—Suit for Damages and the Verdict.

Montreal, Jan. 17.—C. M. Hays, general manager of the C.P.R., has gone to New York, where a meeting is being held, by the interested roads, regarding the elevation of tracks leading into Chicago. Besides representing the G.T.R. and the Grand Trunk Western, Mr. Hays also represents the Chicago Western and Indiana roads, which is now controlled by the Grand Trunk.

CABINET MINISTERS' SALARIES.

The new men selected for president Roosevelt's cabinet are very rich, and this fact has drawn attention to the necessity of cabinet ministers at Washington, being men of considerable fortune. It is said that Mr. Gage had to spend \$100,000 a year in excess of his salary, and that other cabinet ministers have had to spend large sums in order to respond to the demands of society. At Ottawa, the cabinet ministers do not receive large enough salaries to maintain their position properly. The trouble about any proposal to increase the amount is that among an audience of farmers an argument based on the hypothesis that \$7,000 a year was a large sum would be very generally accepted, and the same thing is true of the laboring classes in the cities, but this does not alter the fact that the sum is small, and inadequate. The prime minister receives \$1,000 more than his colleagues, and this, with the sessional indemnity, makes altogether \$9,000. If he received \$20,000, and his colleagues \$15,000, it would be more in accord with the dignity and responsibility of their positions, and would enable them to be more independent. As it is, the people and parliament of Canada simply put a premium on intrigue and intrigue, "deals" in allowing these salaries to remain as small as they are.

SOLDIER'S INVENTION.

Maj. Dipping-Hopewell (Hopping Step-in!) is diminutive (says the Week End); he is a brilliantly clever man, and a mechanical genius. Whilst stationed at Halifax, Nova Scotia, he invented an electrical apparatus for rigging and blocking the boats, after which in his quarters was a clockwork machine in which the duke of York, who, as prince George was at Halifax in command of the Parish, took the greatest interest. This machine was popularly reputed to wake the major up, throw him out of bed, bath, dry and shave him, whilst simultaneously performing such minor duties as making a cup of tea, soiling an egg, and blocking the boots, after which it dressed him, brushed his hair, curled his moustache, scented his handkerchief, and finally threw him downstairs in time for service. An element of exaggeration may have crept into these statements, but the machine undoubtedly existed, and probably exists to this day.

CANADIAN SAVINGS DEPOSITS.

A table showing the transactions of the government savings banks of Canada for the series of years 1867 to 1901, compiled by the Insurance and Finance Chronicle, is a striking commentary upon the present prosperity of the country and the thrift of the working classes. The total deposits grew from \$1,994,565 in 1867-68 to \$15,373,124 in 1897-98; \$49,472,992 in 1898-99; \$52,109,963 in 1899-01; \$57,213,188 in 1900-01, and \$68,712,057 in 1901-02, the business thus increasing thirty-four times in thirty-four years. We doubt if there are many countries in which this result would have been possible in a year which the average of comfort is so high.

THE ENCORE FIEND A NUISANCE.

The encore fiend has grown to be one of the unaccountable features at a first night of a comic opera or musical comedy, and we doubt the wisdom of the theatrical managers who encourage such a nuisance by allowing unlimited repetitions of songs in response to encores.
