INFORMATION GIVEN TO THE PRESS FROM MINISTER.

Blown up by Dynamite—Myles Travers Killed While at Work. W. S. Cranston is Dead—Had a Great Deal of Experience.

Ottawa, Jan. 25.—The Irish Catholic conservatives, at a largely attended meeting, last night, nominated Dennis Murphy, the well-known forger, as their choice as a candidate for the next provincial election. Mr. Murphy, accepted the nomination. This action of the Irish conservatives is subject to the approval of the general convention of the party which will be held later.

The nomination was first offered to Bernard Slattery, the defeated candidate at the last election, but he refused the nomination with entire unanimity. If the minister of justice does not desire the position, Walter Cassels, K.C., will be the next supreme court judge.

An order has been posted at the militia department that all information in future will be given from the minister's office to the press.

A petition has been presented to the minister of justice, asking for commutation of the death sentence passed on Stanislaus Lacroix, condemned to be hanged on March 13th, in Hull, for the murder of his wife and a neighbor in Montebello. This request is by the way of an alternative to the further petition for a new trial on the ground that judge Curran's charge was unduly severe upon the prisoner.

The modus vivendi between Canada and United States touching the purchase of bait and supplies, the transshipment of catch and the shipping of crews on the Atlantic coast has been renewed for another year.

REGULAR HORNET'S NEST. Stirred Up At Harvard by a Pro-Boer Professor.

Boston, Jan. 25.—Prof. Andrews, of Harvard university, has stirred up a regular hornet's nest with his appeal for a pro-Boer mass meeting to be held by the students. A recently numbered graduate of the university has sent letters to the faculty protesting against such a meeting. One prominent graduate wrote as follows:

"It seems to me that before this meeting could be held, it is necessary to consider British conduct in the Boer war, it should first review American behaviour in the Philippine war, and discuss the necessary brutal nature of warfare in general. The phrase 'civilized warfare' is one of the most preposterous of self-contradictions."

TWO IN THE HOSPITAL. McKay And Chadwick Unable To Attend The Banquet.

Winnipeg, Jan. 25.—The Wellingtons of Toronto, were entertained by the Victorians at a banquet, and to-day are guests of mayor and council. There he will provide for the young man's future, making him for the time being a member of his family."

LIQUOR MEN HEARD. A Big Deputation Waits Upon Premier Ross.

Toronto, Jan. 24.—Hotelkeepers from every corner of Ontario took part in the great deputation which waited on the government to-day to protest against prohibitory legislation. There were almost 800 of them from outside points, and with 200 city men added, it was an army of almost 1,000 men that proceeded to the parliament buildings.

The members of the government were grouped at the head of the main staircase, and the members of the deputation filled the lobbies and lower halls.

Eugene O'Keefe introduced the deputation, and the speakers were Frank Collins, of Dundas, president of the license holders' protective association; George Sleeman-Guelph, for the brewers; A. G. Smith, St. Thomas, for the shop license holders; and James H. Vernon, counsel for the trade generally.

Mr. Sheuman made a very vigorous speech in defence of the liquor trade as a legitimate enterprise, conducted under the sanction of the laws of the country. If the liquor men were committing a wrong, he said, let them be punished by the laws, meanwhile they were to fight for their rights and for nothing else. They did not ask the government to introduce any bill. They wanted rather to leave well enough alone. The country was prosperous, and it would be far better to let things stand as they are than to introduce any legislation that would cause dissension and ill-feeling in the province.

The premier, in his reply, said he could promise that the representations made would be considered fully before any bill was introduced.

MUTINY REPORT IS FALSE.

THE MOUNTED RIFLES ARE NOT DISCONTENTED.

Col. Evans Says They Are a Fine Body of Men—The Saddlery Alleged to be Very Inferior.

Toronto, Jan. 25.—A Halifax special to the Mail and Empire says: "The story sent out from here that the mounted rifles are in a mutinous condition is entirely untrue. The men are trying to inaugurate a revolt as soon as the Victorian has sailed, is absolutely without foundation. Col. Evans, who is in command of the rifles, says that they are the best body of men whom he had ever had any experience with, and he is sure that the 900 men he is taking to Africa will be a thorough, well-disciplined corps, and a credit to Canada. It is to make sure of this that a few men have been dismissed."

A Halifax special to the Mail and Empire says that in consequence of complaints a commission has been appointed to enquire into the quality of the saddlery issued to the mounted rifles, officers and men. According to the despatch they allege the saddlery is poor in every particular, that it is that of an inferior workmanship, and that the horses will speedily be ruined if its use is continued in the field.

Miss Nellie Henderson, a young girl of a respectable family, from Galt, had a very unpleasant experience last night. She had come to town as a servant owing to some difficulty with her family. The morality department misunderstanding the circumstances, caused her arrest for vagrancy and she spent last night at the police station.
