THE MITE GROWN IN MIGHT IN DAYS PAST.

The Influence of a Little Act-An Object Lesson Trom the Offering of the Widow in a Finan-

W. J. Young, Tamworth, in Napance Beaver The example of the widow who cast into the treasury her whole living has The influence of this act is extending itself more and more as the years roll sense, it may not be altogether unprofitable to look at the question of the possible financial increase if her

Thinking that many of your readers might be interested in this subject I send you the following results of some careful calculations for publication. The contribution was two naites, which is equal to about twofifths of one cent of our money. The simple interest on this sum at four per cent. per annum for 2,000 years would be only thirty two cents, but if compounded at the supposed date (A.D. 29), of giving to the present year it would amount to \$324,518,551, 536,577,713,667,831,560,205,576, a sum sufficient to give one million dollars to every person who has fived in this world, if we should grant 600 generations with an average population of 500 millions each. After all these had received their portion there would be enough money left to give an equal amount to every person in 1,081,728, .511 worlds, each having a similar population with our globe. After the present population of the world thirty-six billion dollars each, still leaving a surplus equal to at least 1,000 times the present wealth of the

Every care has been taken to avoid any error in the work, again and again has it been reviewed, so that i have every confidence in the correctness of the result as above given. To every one this result will be, as it was to me, a revelation, and to many a subject for deep thought. It illustrates the wonderful accumulative power of compound interest. Is it not thus with our lives? The influence we exert is being extended with everincreasing force from year to year How important it is that we should see to it that that influence is helpful and not harmful to the world, Yours

CAVE MORE THAN THEM ALL. Dr. Pitcher Saves An Old Lady's Life.

Mrs. Barclay of Ridgetown, Ont., Cured by Dr. Pitcher's Backache Kidney Tablets After Suffering Many Years.

Bawden, the Well-known Ridgetown Druggist, Endorses Mrs. Barclay's Statements.

The case of Mrs. George Barclay, er., whose home is in Ridgetown, Ont., and whose portrait appears above, recently attracted our attention, seemed to be of such importance that we thought it our duty, in the interests of suffering humanity, to thoroughly investigate it. Our representative was despatched

to Ridgetown, and on arriving there was, through the courtesy of Bawden, the local druggist, directed to the home of Mrs. Barulay. He found that lady, though nearly eighty years of age, hale and hearty. and to all appearances, likely to out-

lie many younger persons. When he spoke of the object of hi visit, Mrs. Barclay seemed only too delighted to give information respecting her case, and told her story as

follows: "For a number of years I have suffered a good deal from my kidneys, but more especially the two years prior to taking Dr. Pitcher's Tablets the trouble had grown rapidly worse. seemed to have lost all control of my bladder, and the distress was beyoud description. I was going down

"I had three doctors attending me acle, considering the lady's age. me any good. at different times, but all their medi-Hol- Backache Kidney ablete, and deterbox I took gave me such deciled resixteen boxes, I was completely cured

positively cured me, and I willingly allow my case to be published in the hope of being of benefit to some poor soul who needs these tablets. THE DRUGGIST'S STATEMENT.

On returning to Mr. Bawden's store our young man had a chat with that gentleman about the case. "Well," said he, "that case of Mrs. Barclay's has created quite a sensation in this town and neighborhood. "She is about eighty, and to my knowledge has been taking medicine for years, as well as doctors' treatment. Dr. Pitcher's Backache Kidney Tablets, which she bought from me,

seemed to suit her rase exactly. The doctors failed to relieve her, but the first box of tables be; ped her a great deal, and she continued taking them for some time. "She has had no return of her old trouble, and her general health much improved.

"She is recommending them everyone she runs across who has kidney trouble. For fifty years or more she has been a resident of our town. and is well-known to everyone. Her hill rapidly, and nothing I took did friends are delighted at her recovery, which is almost regarded as a mir-
