WAS FOUND IN A SNOW HEAP

Ottawa, Feb. 3 .- Jimmie Hayes, a nine-year old boy, was found in a snow heap last night almost frozen to death. The child had been sent on a message in the morning and did not go home again. His parents searched for him but unsuccessfully, and it was not until half past eleven, last night, that he was found unconscious in a drift. The boy had become benumbed v the cold and the swirling snow bothered him. He lost his way drossing a field and lay down. How long he was in the snow is unknown. His chances for recovery are good, but he is badly frozen. The boys' home is on Lewis street in a sparsely settled part of the city, but not more than half a mile from the city half.
