THE LONDON SAMPLE ROOM. It furns out that the manufacturers less it is made a means of adverti ing suggested that American goods should be exhibited in Canada, attracticly, in order that their value and merit might be fully appreciated. The idea is a correct int. The buyer must the articles in order to mes indement upon them, and England's sample room should be a complete one if the trace of the mother country is to be substantially developed. England's encouragement in this matter is a thing to be expected. Canada has been making sacrifices in order to show her regard in a right and dutiful way. and the mother country should show her appreciation by offering every faci'ity for the expansion of trade relations between her and this great

\* WORTH LOOKING INTO.

The Montreal street railway compeny, according to the Montreal Star. is about to submit to the city council an elaborate scheme for removing the snow from the streets on which ie cars run. "The company," says contemporary, "proposes to introduce special machinery for the work, which, it suggests, should be done between two and five o'clock in the morning. The company claims that it can do the work thoroughly for twenty-five per cent. less than the present cost, and, is willing to uncertake it for a fixed annual payment, or upon an agreement that the city pays half he cost." The subject is of special nterest to the people here, because the streets traversed by the street passible by the manner in which the track has been cleared of snow. The obstructions have been removed from some places, but Princess street, in the west, is in a very bad condition, and as things go it will be some time before the immense drifts have been reduced. The street railway should investigate the Montreal plan, and perhaps it can undertake the removal of the surplus show in a quicker and tion has resolved that those who brought in Canada and its outcome ford Minto, where the counters has performed. The machinery which Montreat is about to adopt may not expensive, and the city may fina it easier and more satisfactory to let the company do the work and pay half the expense.

WHICH IS HIS PARTY? The idea that Mr. Whitney "discoy

ered" the school of mines deal going through the legislature, that he exposed and yet endorsed it, is en was freely discussed in the press, that the World, then as now, opposed the Kingston institution, and that matter was one of common talk parliamentary circles, this "discovery" becomes really remarkable.
