**BURIED UNDER A VAN.**  
Four Cornwall Men Were Severely Injured.  
The climax of the sensational events which transpired at the Kingston rink last night occurred at a quarter past ten o'clock when the rink was cleared of spectators. The Cornwall players and supporters entered their van at the corner. One side of the van went downwards, and then the conveyance toppled over, a number of the occupants being buried underneath.  
When the van was righted, it was found that four of the Cornwall men had been severely hurt, two of them being players. The latter were Angus Allen, whose neck was injured, and W. A. Eastwood, who had his forehead cut. E. Gravely, manager of the team, was stunned, as also was Harry Liddell, a supporter of the visitors. The latter was carried into the rink office, in a semi-unconscious condition, while the other three were taken to the general hospital. Afterwards the first named was also removed to the hospital, where the injuries were attended to by the house surgeons and nurses. All were satisfactorily recovered to leave for Cornwall on the early morning train.

**Approve the Course.**  
Winning, Feb. 15.—The liquor dealers of the city, at a meeting held yesterday, passed a resolution approving of the local government's course on the referendum to the liquor act.

**Montreal is threatened with milk famine.** There is now said to be a shortage of 5,000 to 6,000 gallons a day. The cause is put down to the high cost of cattle and feed.  
Application will be made to the parliament this session for an act to incorporate the Canadian Northern express company and the Canadian Northern telegraph company.  
Mr. Marconi will return to Canada in ten days to resume wireless telegraphy across the Atlantic.  
The cattle shipment to Boston from Montreal is very large and prices have greatly improved.

### THE MAKING OF PEACE

**Suggestion Worthy of Government's Consideration.**  
**NO ALLIANCE WITH IRISH**  
**CLAIMS OF NATIONALIST CAN NOT BE CONCEDED.**

**Lord Rosebery Says No Sane Man Would Ever Think of Giving Them Independence—Speech Made at Great Meeting in Liverpool.**

London, Feb. 15.—Lord Rosebery addressed a great meeting at Liverpool, yesterday. He received an enthusiastic ovation. He commended Kuyper, the Netherlands prime minister, for his efforts to secure peace in South Africa, and said he thought the suggestion that the government grant Boer delegates a passport to South Africa was well worthy of the government's consideration, notwithstanding the limited nature of the commission the delegates possessed. Lord Rosebery emphasized the criticism he made at Chester in regard to the making of peace. He asserted his repudiation of an alliance with the Irish. The claims of the nationalists could not be conceded, he said. They had declared that nothing short of absolute separation would satisfy them, and no sane man would ever advocate granting them independence, which in time of war might turn the balance between the success and defeat of the British army.

**Over The British-Japanese Treaty Just Concluded.**  
Paris, Feb. 15.—The Lanterne says the treaty between Russia and China has been signed. It adds that the conclusion of the treaty is Russia's reply to the Anglo-Japanese alliance. The Liberte bitterly accuses Russia of wanting to forestall in allowing any British-Japanese agreement to be made. It charges Russian statesmen, and particularly Dewitte, the minister of finance, with having, in every way, recently discouraged the alliance, but is important that its solidarity shall not become compromised.

**Slanders Denied.**  
That The Germans in Natal Favor Boers.  
Durban, Natal, Feb. 14.—Many Germans, through the press, are daily repudiating the slander that members of parliament are indulging in by declaring that they favor the Boer cause. Leading colonists intend to submit resolutions at a public meeting, strongly protesting, on actual knowledge of the facts, against the declaration that Sir Henry Campbell-Bannerman's attitude and that of certain other liberals have contributed to the prolongation of the war and its calamities. The resolutions will express unshaken confidence in colonial secretary Chamberlain, and heartily concurrence in the government's policy as the only way to secure lasting peace.

**Complete Understanding.**  
Vienna, Feb. 15.—The Neue Freie Presse says that there is a complete understanding between Austria and Germany on the sugar question. Both are prepared to meet the demands of Great Britain in a conciliatory manner, and accordingly, if the Brussels conference ends successfully sugar bounties will be abolished. Moreover, an abatement in sugar duties by approximating the amount of the premiums will be proposed.

**Unprecedented in History.**  
London, Feb. 15.—It is said that prior to the conclusion of the Anglo-English treaty friendly greetings were exchanged between King Edward and the mikado, and when it was signed queen Alexandra sent a cordial message to the empress of Japan. It is asserted that the sending of such a message by a queen is unprecedented in the history of Europe.

**Toronto Carnages.**  
Toronto, Feb. 15.—Mrs. Massey Treble and Chester Massey have announced their intention of presenting a free library to the village of Newcastle, Durham county, which was the home of the Massey works before they came to Toronto.

### AN OLD AGITATOR.

**Susan B. Anthony Reaches Her Eighty-Second Birthday.**

Washington, D.C., Feb. 15.—Miss Susan B. Anthony, who has been in Washington this week, in attendance on the annual convention of the National woman's suffrage association, was eighty-two years old to-day. Miss Anthony's wonderful health and spirit have been a matter of comment among all who attended the convention. So lightly does her age rest upon her that she is still in the habit of working as she has been accustomed to work for half a century—that is to say, as if there was no limit to her capacity. Her home is in Rochester, N.Y., where she has been a conspicuous figure for many years. During the last few days the venerable agitator has been in receipt of innumerable messages of congratulation by mail and wire, and has received some pretty and valuable presents as tokens of remembrance from those in sympathy with her life-work.

**The Very Latest News Collected From All Over the World.**  
Archbishop Begir, Quebec, is about to leave on a visit to Rome.  
Massey is working on his new opera, "Marie Antoinette." The prologue is placed in the court of Austria.  
A. E. Brans, broker, Montreal, has been arrested in connection with the recent ballot frauds in St. James' division.  
James Ferrier, Montreal, is dead, aged seventy-nine years. He was a leading Methodist. He was a hardware dealer.  
Under the new regime of non-intervention the plague is ravaging the Punjab, and a thousand deaths are occurring daily.  
Harry Butler Williston died at Pretoria from enteric fever. Deceased's father is Charles Williston, of 284 Robie street, Halifax.  
The Bankers' Magazine, London, in analysis of 325 stocks, shows that the price and value in two years amounts to \$250,000,000.  
P. W. Slevesley, accountant for the Hendrie carriage company, Hamilton, who has disappeared, is said to be about \$2,000 short in his accounts.  
The dominion government is making an agreement with the Marconi wireless telegraph company that is hoped will prove of great advantage to Canada.

**Chicago Shows Interest.**  
Chicago, Ill., Feb. 15.—With the object in view of showing Chicago's appreciation for Missouri's efforts toward promoting the world's Columbian exposition, the Chicago press club has arranged for a dinner this evening in honor of the officials of the Louisiana purchase exposition company. The officials, including ex-governor Francis, president of the company, arrived in the city to-day and were heartily received. A programme has been arranged, calculated to leave no doubt in the minds of the guests that Chicago is heartily interested in the world's fair, reports and stories to the contrary notwithstanding.

**The Case Dismissed.**  
Brookville, Ont., Feb. 15.—Mayor Harrison and councillor Thomas Kitz, chairman of the property committee, were summoned to appear before the police magistrate, yesterday, to answer the charge of allowing improper bill posters on the town bill boards. No evidence, except that of the complainant, J. L. Upham, ex-lessee of the opera house, was presented to show that the pictures were immoral, and the case was dismissed, with costs against Upham. The plaintiff was fined a few years ago on a similar charge.

**Holy Cross and Brown in Debate.**  
Worcester, Mass., Feb. 15.—A lively interest is displayed in the debate between representatives of Holy Cross and Brown universities, which takes place to-night. Holy Cross has elected to support the affirmative and Brown the negative side of the question: "Resolved, that the present policy of the British government with regard to the war in South Africa deserves the full support of parliament and people."

**New Railroad Completed.**  
Denning, N.M., Feb. 15.—The new Erie-South-western railroad between Denning and Bonanza was practically completed and made ready for traffic to-day. The new road opens up communication by direct line with some of the greatest producing mining camps in the world.

**20 Per Cent. Discount Sale.**  
In connection with our sale of line ties, we will give 20 per cent. discount on every line, except 1st. reform. Jenkins.

**Matter May Be Arranged.**  
Montreal, Feb. 15.—Principal Magistrate of the Wesleyan theological college, who has been called to the college board, has consented to reconsider the matter, where it now rests. The resignation was brought about over a question of authority regarding a matter concerning the management of the institution.

### ACCIDENT TO AIRSHIP.

**Santos Dumont in Trouble at Monte Carlo.**  
**THE AERONAUT WAS SAVED BY A STEAMLAUNCH WHICH HAD FOLLOWED.**

Monte Carlo, Feb. 15.—When Santos Dumont started to make an experimental trip yesterday, spectators arranged every way possible. It was noticed that his airship did not sail with its usual steadiness. It pitched considerably, eliciting frightened exclamations from the spectators, but the aeronaut kept his course, rising until the guide rope was twenty feet out of the water. The weather was windless and sunny, but suddenly a great gust struck the airship sharply, causing it to rear until it seemed to be standing on its head. Gill began to pour out of the motor, and Santos Dumont, fearing an explosion, promptly opened a valve, and the lower end of the balloon began to empty, partly righting the vessel, but the guide rope had caught in the screw while the rudder was apparently also entangled. The airship was thus regarded helpless, and it slowly drifted slantingly toward the land. Launches from the Prince of Monaco and other yachts had meanwhile followed close, and as soon as the airship was low enough one of them seized the guide rope and began towing. Santos Dumont immersed to his arms-pits, refused to leave the car. He shouted directions to those in the launches. Suddenly the balloon burst into ragged pieces of silk that flapped in the wind. From the shore the aeronaut's rescue, looked doubtful, but the launch of the Prince of Monaco was close to the car, and Santos Dumont, extricating himself, climbed over the gunwale. On landing he assured his sympathizers that he had been in no danger, and said it was only one more accident. He added that as soon as the airship was repaired he would try again.

**END OF COMMISSION.**  
Every Phase of Industrial Situation Investigated.  
Washington, D.C., Feb. 15.—The life of the industrial commission expired to-day by congressional limitation. Opinion differs as to the practical value of the work accomplished by the commission, but it is understood that the longer this question remained unsettled the worse it would be to settle.

**ASKS FOR SETTLEMENT.**  
Laurier Agrees That Action Should Be Taken.  
Ottawa, Feb. 15.—In the house yesterday Hon. R. L. Borden wanted to know why no statement was made in the speech from the throne regarding the Alaska boundary. He said that the longer this question remained unsettled the worse it would be to settle.

**PROHIBITION BILL.**  
Will The Opposition Move The Six Months' Hoist.  
Toronto, Feb. 15.—A story that does not seem to have been entirely without foundation credits the opposition with the intention of moving a six months' hoist to the premier's liquor act. Such a step would give the government an opportunity of shaking of their allegiance to the administration on the question of prohibition.

**May Sell Out Elsewhere.**  
Montreal, Feb. 15.—The Montreal baseball club has been sold to Charles Dooley, the captain and manager, and unless he secures encouragement for the game in this city, he will be in a position to sell the franchise to the best advantage, which would mean that league baseball would be seen no more in Montreal.

**Shortage Of Coal.**  
Hamilton, Ont., Feb. 15.—There is a serious shortage of bituminous coal in the city and the dealers have very little on hand. It is said that the majority of the factories are short of coal, and the dealers are doling out their small supplies very carefully, and only to old customers.

### SPEECHES ON THE ADDRESS.

**Mover And Second Praise For Their Efforts.**

Ottawa, Feb. 15.—It was generally expected that the debate on the address would close this afternoon, after speeches by the mover and second, and by the opposition leader and premier. That expectation, however, was not fulfilled. Mr. Maclean desired to be heard, and he was given the opportunity to-night. Then Henri Bourassa of Labelle gave notice of an amendment calling for a railway policy which would yield some return to the people for the sacrifices they have made to further the development of trade, and especially to prevent Canadian railway systems from falling under the control of foreign railway corporations. Mr. Bourassa moved the adjournment of the debate, and has the floor for Monday, when he will debate on the motion which he has laid before the house. The obtrusion of the railway question at this stage seems to promise a discussion which may be protracted much beyond the ordinary length, since there is scarcely a member of the house whose constituents are not interested to a greater or lesser degree. It is perhaps just as well that the matter has arisen at this early period, although it may be doubted whether any practical results will follow from a resolution such as Mr. Bourassa has framed.

**A TERRIBLE DISASTER.**  
Caused By Earthquakes In Russian Territory.  
Tiflis, Russian Transcaucasia, Feb. 15.—Two hundred bodies of victims of the earthquake, which destroyed the town of Shanak, have been recovered. It appears certain that several hundred bodies are buried in the fissures and debris caused by the shock. The quakes continued at intervals and the work of excavating in search of the victims, therefore, proceeds with difficulty. Among the dead are many women, who at the time of the principal shock, were congregated in the various bath houses.

The latest news received from Shanak confirms the appalling character of the earthquake at the place and out of season for the settlement ready been taken from the ruins. The piles of wreckage are so vast that the search is necessarily slow. Most of the victims were Mussulmans. The survivors are encamped outside the ruins of the city.
