PETERBORO WON THE MATCH.

DEFEATED E. M. C. BY FOUR
GOALS TO TWO.

Cadets Gave Their Opponents
Many Hard Bumps—Carr-Harris'
Brilliant Rush—Peterboro
Forwards Are Strong Shots.

Peterboro hockey team defeated the O. H. A. in
intermediate series last night at the Kingston rink; by four goals to two. Having won at home by the extra-
ordinary score of thirteen to one, Peterboro won the road by four goals. Last night a match was rough
and uninteresting. It wasn't piping or parlor croquet that the Peter-
boro team is used to playing on
their tiny rink at home. The cadets were much heavier than their opponents, who suffered severely by bumps and falls and somersaults. Had the R. M. C. players paid more attention to the puck, they might have won. For rough tactics members of the home team were ruled off many times. Peterboro played a猛kier, more effective game, and the shooting of the forwards was good. Graham being particularly noticeable. Carr-Harris' point was the hero of the game, and easily the best man on the ice. Had he been on the line, cadets would have won.

Peterboro scored first, after fifteen minutes play. Graham putting the puck past Deyell. That was the only score made in the first half. It fell to Carr-Harris to give the cadets a lift. Securing the puck in front of his goal, he raised it for a heading, feet still, bumped Peterboro's point over the side of the rink, and carried the puck in front of the enemy's goal and slammed it in. It was a feat that is seldom seen in a hockey match, and "Klondyke" was cheered to the echo. That evened the score, until Waldron put in another, and cadets were one ahead. This lead they held till ten minutes before time, when Peterboro began a lively pace, and strong shooting. Graham evened the score, and R. Arshamson gave Peterboro a lead of one. Then Graham again took the lead, this time four to two. Cadets tried hard to score again, and almost succeeded—but didn't.

The Peterboro team use the same size of cordwood sticks as McGill, and have decided advantage. They chopped much wood during last night's match, smashing over a dozen sticks. The match was not a good exhibition of intermediate hockey. However, the better team won. Peterboro—Goal, Wasson; point, Glover; cover-point, H. Armstrong; centre, M. Whitmore; wings, Grant and K. Armstrong. E. M. C.—Goal, Deyell; point, Carr-Harris; cover-point, Ramsay; centres, Biggs, Trotter; wings, Waldron, Dunlop. Referee, Sadler, of Osgoode Hall, Toronto.

SPORT IN GENERAL.

Yale hockey team defeated Harvard four to three in a rough game in New York.

Iroquois defeated Morrisburg on Friday night, in the O. H. A. series five to four.

Montreal team still leads in the Quebec hockey union, and will likely take the championship.

Flavelle, of Lindsay, has been making a record at the Winnipeg hospital. The best Daniel, St. Paul said. Welsch, of the hockey team, are champions of Toronto, having defeated St. George's in a challenge match, seven to three.

In an international match at Winnipeg, on Monday, between Canada and the United States, three rinks side Canada won easily, 46 to 17. The annual tournament of the Dominion of Canada trap shooting and game protective association takes place in Hamilton, on August 14th, 15th and 16th.

The American lawn tennis association had decided on a change in the size of the ball to conform to the ball used in the English championships and principal tournaments.

The Pittsburgh baseball champions of 1901, showed their nerve by winning nine games in the ninth inning, and losing only two in the closing inning. No other team has anything like such a record.

The Frontenac hockey club asked permission of the O. H. A. executive to play "Charlie" Clarke against Cornwall, but their request was refused on the ground that the ex-Queen's wing had been playing in the New York league.

Toronto Mail-Empire reports: Reports of hockey matches indicate that the "players believe in a strenuous game." Down in Ottawa they have the style down to a nicely, and Mr. Gill will probably concede that Queen's has not much to learn in this respect.

On Friday the Capitals, a boys' hockey team, journey to Belleville, in charge of G. Lockett. They play the high school hockey team of that town. The team will be made up of: Goal, F. Hewitt; point, R. McRee; cover, R. Birch; centres, W. Lockett, R. Hamilton; wings, J. Merrick, E. Oldfield.

The Toronto Globe: The class of hockey shown in the senior series this season locally has been away ahead of former years. The Wellingtons, St. Georges and Varsity are a trio of pretty evenly matched teams, capable of holding their own in any company.

Cornwall hockey team will run a big excursion to Morrisburg tomorrow night for the match with Frontenacs. The "tooting" will mostly be for Cornwall, as Frontenacs will go without any body-guard. However, the Kingston team wants none as a referee, and Mr. Sealey of Toronto, has proved himself in that regard.

Manager Barrow, of the Toronto baseball club, has discovered that the new American association, the "outlaw league," has been tampering with his players, but all of them have returned signed contracts, except Schaub, Carr and Downey. Mr. Barrow has gone right back at the "outlaws" in vigorous fashion. He is fighting them with their own weapons.

and is at present negotiating with several of the stars of that association, whom he hopes to land before long.

In the return match with New South Wales, MacLaren's team was prevented by rain from beating the record total of 918 in first-class cricket. Their score of 769 was by far the highest ever obtained by an English team in Australia, the nearest approach to it being in an eleven-man match, 621, by Shaw and Shrewsbury's eleven against Victoria at Melbourne, in December, 1887. New South Wales was in a hopeless position, having only five wickets to fall, and wanting 228 runs to avert a single innings' defeat.

DEATH OF P. ASSELSTINE.

The End Came Suddenly—A Life-
Long Kingstone.

The death of Peter Asselstine, Division street, came very suddenly, and was a great shock to his family. He was apparently in good health on Friday, having only the signs of a severe cold, and was around about his usual self as usual. On Saturday, however, he took seriously ill of cerebral meningitis, and on Sunday was removed to the general hospital. Death ensued at three o'clock on Monday afternoon.

The deceased was a son of the late Henry Asselstine, who was of United Empire loyalist stock. He was born fifty-nine years ago within a few rods of his late home, on the celebrated lot twenty-four, and lived in Kingston all his life. He was born to many trials, and was a Methodist, member of Brock street church since its establishment, and being one of the builders of that edifice. He was also a member of its official board for years. Mr. Asselstine was a staunch reformer, and one of the most active workers in Reid ward.

Mr. Asselstine married Miss Jessie Milne, sister of Alexander and James, of Milne's city, and died in 1885.

Several years ago the family consists of: Thomas M., deputy sheriff, Kingston; Alexander M. and W. P., with the Rathbun company, Deseronto; Herbert, Maude, Gertrude and Laura at home. Four brothers and one sister also survive: Benjamin and Isaac of this city; Richard, Oswego, N.Y.; Leonard, Cleveland, Ohio; Mrs. Abrams, Montana.

The funeral will be private on Wednesday morning at ten o'clock. Rev. Ebenezer Crumley will officiate at the burial service.

A FRIENDLY CROSS-FIRE.

When Mr. Sneling informed the council that the city had to pay \$20 for use of the old collegiate institute for recent registration purposes, alderman Graham just reminded his colleagues that Mr. Whitney had put the city to that expense; he refused to accept a late registration and insisted on a fresh one. Alderman King remarked that the late speaker did not know what he was talking of. Where it would be possible to use for an Ontario by-election a registration made for a dominion by-election, it was not necessary to use for a dominion by-election a registration made for an Ontario by-election.

Mayor and council of Toronto, forwarding petitions to be sent to house of commons, senate and governor general, protesting against allowing the Bell telephone company power to increase its rates.—Referred to finance committee.

Ottario manufacturers' association, asking co-operation in securing legislation permitting council of municipalities to grant exemption to industries on a two-thirds vote of councils, instead of vote of ratepayers, as formerly.—Fyled.

REPORT OF FINANCE COMMITTEE.

Ald. McFarlane presented the report of the committee on finance, recommending payment of these accounts: Thomas Vaughan, \$5.19; Dalton & Strange, \$6.10; Webster, part, \$721.22; Prof. Nicholas, \$1.25; A. Stratton, \$22.17; John Corbett, \$1.25; P. Hutchison, \$81.65; G.T.R. company, \$1.03; Booth & Co., \$4.50; John Bennett, \$5.40; J. Greenwood, \$12.36; A. Abernethy, \$35.65; R. E. Wilson, \$16. R. Crawford, \$85.22; McKeyle & Birch, \$10.01; Lawrie & Co., \$17.5; R. W. Allen, \$4.50.

"Your committee recommend that tax for 1901 on the property of H. J. Wilkinson, used by the Jews for religious purposes, be refunded."

Adopted on motion of Ald. McFarlane and White.

Ald. McLeod presented the report of the board of works, already published. Adopted on motion of Alds. McLeod and Craig.

In the absence of Ald. Bell, chair-

man, Ald. King presented the report of the committee on fire and light, already published.

Ald. King and Farrell moved the adoption of the report.

Ald. McLeod was surprised that

the horse question should again be introduced. He thought that when the grey team was purchased two years ago the animals would do their work satisfactorily for the supposed natural life of a horse—five years. The council did not have \$300 or any money to throw away on horses. He thought an expert veterinarian should be engaged to make a report as to the condition of the fine horses.

Ald. King replied that a veterinarian had already recommended the sale of three horses. The committee did not alone accept the report of the veterinarian, but had appointed a sub-committee of experts to examine the animals, and their report upheld that of the veterinarian to the extent of recom-

mending the sale of two horses and the placing of the third horse as an extra one.

The explanation was considered satis-

sfactory and the motion to adopt the report carried.

CITY SHOULD NOT BEAR EXPENSE.

Major Shaw informed the city council last night that the last provincial election had cost the city \$175, for booths, etc. The council endorsed Toronto's petition to the legislative assembly that the whole cost of Ontario elections be borne by the province, instead of partly by municipalities.

The last Ontario registration cost the city \$30 for rent of the old college institute.

Ald. King replied that a veterinarian

had recommended the sale of three horses. The committee did not alone accept the report of the veterinarian, but had appointed a sub-committee of experts to examine the animals, and their report upheld that of the veterinarian to the extent of recom-

mending the sale of two horses and the placing of the third horse as an extra one.

The explanation was considered satis-

factory and the motion to adopt the report carried.

PERSONAL MENTION.

MOVEMENTS OF THE PEOPLE—WHAT THEY ARE SAYING AND DOING.

L. W. Murphy sailed on Monday

from Halifax for London, Eng.

Miss Mabel Phipps has left for

Moosonee, N.W.T., where she has a

school.

Prof. Duppins has been re-elected a

director of the Home Life Association,

an insurance concern.

J. G. Chown and wife left for San Francisco yesterday after several months' visit in Kingston.

Mrs. J. D. Thompson left on Mon-

day for Regina, N.W.T., to be with

her daughter, who is ill.

Mrs. Edith Jones, Belleville, has

gone to Gravenhurst to act as lady

superintendent of the sanitarium.

When he began teaching about a year ago, he had just completed his education and was badly broken down in health. He had only about two months vacation and spent it at Excelsior Springs, but when he returned there was no improvement.

We thought he would get better af-

ter he began his work, but instead of improving he became more weak and nervous, and finally, forgetful, in the schoolroom. He tried different physi-

cians and everything he could hear of

and at last gave up school and came home, after putting a teacher in his place.

I cooked every delicacy I could think
