IN THE PRICE OF DOMINION COAL STOCK. The Bulls Scooped in Thousands of Dollars in The Past Few

Days-To Prosecute Those Who Sell On Sunday. Montreal, Feb. 24.-The bear ment in the stock exchange had their turn, to-day, in connection with the trading in Dominion coal stock in which there has been tremendous speculation for months. The buying of the past few days at eighty to eightyfive is said to have been largely to cover short contracts, and had shorts been able to hold on a days longer they might have got out all right, but a good many got discouraged by the way the price soared and finally they gave in and took

the losses, in many cases extending into tens of thousands of dollars which lucky bulls were able to pocket. The Boston bears broke the price to-day and the drop extended from eighty-five to seventy-nine in the forenoon trading. Dominion steel reacted in sympathy from thirty-eight to thirty-six. A deputation of the Lord's day alliance waited on the mayor to-day and asked that the law regarding Sunday selling in this city be enforced. The mayor expressed willingness to do all he could in that direction but pointed out a few of the difficul ties, one of which is the fact that the city give: out a contract for the structed to make a list of the Sunday sellers and prosecute where they refuse to obey the law.
