The fighting occurred near Klerksdorp in Delarey's country.

The correspondent of the Times at Ermelo says that Col. Mackenzie's column, operating near lake Christa, south-eastern Transvaal, has surprised Hans Grobelaar's small laager, capturing Stephans Grobelaar, Corp. ## THE MEDICAL BATTLE

**Experts Working With Much Increased Energy**

**ANOTHER CURE ANNOUNCED**

**IN ENGLAND FOR THE DREAD CONSUMPTION.**

**The Discoverer is an Authority on Tuberculosis—An Antiseptic Injected Into the Blood to Attack the Germs.**

London, Feb. 27.—Since king Edward has taken such a marked interest in the medical battle against consumption, experts are devoting themselves with renewed energy to finding a remedy for the dread disease. Attention this week has been centered on a discovery which, if circumstantial reports may be credited, promises to have important results.

The discoverer is Dr. Robert Maguire, a physician at the Brompton hospital, and one of the first authorities on tuberculosis. It occurred to him that, as certain antiseptics produced remarkably good results, even with a limited use, because doses had to be so mild as not to irritate the stomach, if one could be found that could be injected into the blood so as to directly attack the germ of the disease, great benefit would result.

After great research he chose fomic aldehyde, one of a group of very active germicides, notable for the fact that a solution of one in one hundred and seventy thousand parts is fatal to the consumption germ. He has injected this in various strengths with marvelous results, and in the lungs healing up, as it is reported, in three weeks' time, achieving what may be regarded as thorough cures of cases thought hopeless.

A patient is instanced who was given up as in the last stages of consumption. The treatment was tried on him with the result that in two months he was passed by a medical examiner for an insurance company. The injection of the drug is painless and is made by means of a hypodermic needle, yet to say that the treatment can do all that is claimed for it, the discoverer has nevertheless attracted the attention of eminent medical men all over England and on the continent.

## A NEW ORGANIZATION.

**Found Within The British Liberal Party.**

London, Feb. 27.—The latest development in the liberal party is the formation of a new organization within the party, announcement of which was made last night in the following terms:

"It has been decided by those who adhere to the Chesterfield policy that they have no intention of severing themselves from the liberal party, but, on the contrary, they intend to act with the best of the liberal opposition on the lines of that policy. For purposes of organization and development on these lines, an association, under the name of the liberal league, has been formed. Its first president is Lord Rosebery and its vice-presidents are Herbert Asquith, Sir Henry Fowler, and Sir Edward Grey."

There is no further official information, but it is supposed that the new league will supplant the liberal imperialist league, whose chairman has just resigned, owing to the party conflict. Lord Rosebery's acceptance of the presidency, with the support of prominent imperialist liberals, is regarded as setting the seal of his definite return to active politics.

There is much curiosity regarding the electric railway act, providing for regulation of rates. Mr. Whitney repeated his charge that he had been approached by liberals in connection with the bill relating to the Leeds county judicature, which brought an effective reply from Mr. Gibson.

Under the attorney-general's bill New Ontario is to have seven representatives in the legislature, four more than at present.

West Algona is sub-divided into two electoral districts, "Fort William and Rainy River."

East Algona is cut up into three electoral districts, "Sault Ste. Marie," "Manitoulin," and "Algoma."

Nipissing is divided into three electoral districts, "East Nipissing," and "West Nipissing." Three townships along the Ottawa river will be transferred from north Renfrew to east Nipissing, and several townships south of Algonquin park, now part of Nipissing, are transferred to north Hastings.

**RAPID PROGRESS MADE.**

**Legislature Deals With Bills And Estimates.**

Toronto, Feb. 27.—The general work of the legislature yesterday other than the introduction of the new Ontario re-distribution bill, was of a routine character, though much progress was made. The house approved Mr. Pattullo's amendment to the electric railway act, providing for regulation of rates. Mr. Whitney repeated his charge that he had been approached by liberals in connection with the bill relating to the Leeds county judicature, which brought an effective reply from Mr. Gibson.
