Hon. Mr. Gibson made a vigorous speech defending the government from the charge of truckling to corparations. The bill of Mr. Fay. he said, was unfair in its present shape and drawn simply for Toronto. It would work great injustice to the towns which under Mr. Ross' bill, of last year, would have had power to grant exemption where injustice done to small and struggling panies in towns. Mr. Gibson added that in some of these towns nothing was made by operating railway and ighting plants.

Mr. Gibson suggested the acceptance of a proposal by Dr. Pyne, slightly changed, which, as re-drafted, says "Subways, rails, poles, wires, gas and other pipes, mains, conduits, substructions, super-structures and other plants and appliances shall be assessed at their actual cash values as the same would be appraised upon the sale by the company to another company possessing similar powers, rights and franchises." This clause was finally adopted and ordered to be carefully drafted for insertion in the bill.
