COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

Salvador exported half a million bags of coffee last year.

The men who gather clam shells along the Mississippi river and its tributaries last year gathered and sold nearly 46,000,000 pounds, for which they received more than \$205,000.

Great Britain's exports to its colonies, according to recent returns, increased in 1901 to \$51,363,000. Its exports to foreign countries, in the same period, decreased \$14,500,000.

A statement just issued by the Dominion coal company gives the total shipments for the year ending February, 1902, as 2,412,525 tons, against 1,957,000 the year before, 1,961,700 in 1899-00, and \$1,148,362 the year 1898-9.

As freshhauled in dry goods reports the mills have advanced the prices of nearly all lines of cottons five to ten per cent., including sheetings, pillow cottons and grey and white cottons. Further advances are not improbable.

To Revise The Fees.

Hon. J. M. Gibson, attorney-general will ask the legislature this week to revise the fees paid to clerks in the courts of the province. The principal consideration proposed is to pay the clerks \$2 per day instead of \$1 per day for attending at assizes, general sessions, county court, and county judges' criminal court. Fair increases take place in other parts of their services. The petition of the clerks of the province, about eighty, was presented and advocated by the member for Kingston.

Made A Rousing Speech.

Hon. Senator Sullivan attended the meeting of special committee upon the proposed bill to decapitate the medical act, at the legislative building, Toronto, yesterday. He made a rousing speech in defence of university and medical school rights to continued representation. A motion to reduce this educational oversight was lost, but final disposal of the bill was not reached.

THE MORMONS PROSPEROUS AND THEY ARE NOT GUILTY OF POLYGYAMY.

The Minister of Militia Submits a Report to the House as to the Selection of Officers for the South African Campaign.

Ottawa, March 12.—The Mormon community in Alberta is making great progress. Prof. Saunders told agricultural committee this morning that the co-operative system adopted by these people who have been in Canada only about a year has enabled them to outstrip any other similar community in the west.

A canal a hundred and sixteen miles long provides irrigation for their 200,000 acre tract, and will make the 2,500 members of the community prosperous. The latest addition is a tract of 100,000 acres purchased by Jassir Knight, a wealthy Utah Mormon. This he has fenced in and proposes to use as a cattle ranch. The Mormon population is drawn from all parts of the world, many of them coming from London. Polygamy, as far as Prof. Saunders could see, was not practised.

The minister of militia tabled a return in answer to information sought by Mr. Monk as to the selection of officers for the Canadian S.A.C. and other Canadian regiments serving in South Africa, who were selected, and how they were chosen.

The information states that the government did not select officers for the Canadians in the S.A.C., but that they were selected for the imperial government by the governor-general, and that the commissions were imperial, that the number of commissioned officers in the Canadian militia who served in the ranks in the first and second contingents was as follows:

Table with 2 columns: Regiment, Officers, Men. Rows include Royal Canadian Regiment, Royal Canadian Dragoons, Canadian Mounted Rifles, Royal Canadian Field Artillery, and Total.

That the non-commissioned officers and men of the permanent corps were enlisted in the S.A.C., and of this number 134 were non-commissioned officers in South Africa; that the non-commissioned officers of these corps were appointed by commanding officers, and that it is presumed that they (the commanding officers) selected the best men available irrespective of the rank they held in the active militia up to the time of enlistment.

Capt. Edward Sutherland, 43rd regiment, Ottawa, had been made adjutant of the Bisley team, 1902.

Sir Wilfrid Laurier and Hon. Mr. Fielding have been asked to attend the banquet of St. George's society in Montreal on April 27th. The premier and Hon. Mr. Fielding said if parliamentary duties permitted, they would accept the invitation.

Orders from military headquarters announce for general information that the courses at the Canadian school of musketry at Rockcliffe, Ottawa, will commence respectively on July 1st, and on September 8th.

MONUMENT FOR BILLY RICE.

Will Have \$5,000 Spent On Him After He's Buried.

Hot Springs, Ark., March 12.—The funeral of "Billy" Rice, the famous minstrel, who died here February 28th, was scheduled for yesterday, but on receipt of a telegram from W. Collins and Charles Ernst, of St. Louis, was postponed until today. Rice died in poverty and it was only after his widow's third appeal that the actors' fund of America contributed \$50 to send him from the porter's field.

A number of wealthy old time friends of Rice were here, and a movement started by Frank Damon and others to raise \$5,000 for a monument, will, it is understood, be speedily responded to.

Australia And The Navy.

Sydney, March 11.—The discussion in the house of commons with regard to a colonial contribution to the navy has been much commented upon here.

The general purport of the criticism is to the effect that although Australia does not desire to shirk any of the obligations of a colony, she is not inclined to increase the present subsidy while remaining powerless to control the institution for which she is taxed.

It is emphasized that Australia presides at her own expense an unrivalled naval base and an unlimited coal supply.

\$2,000 For Maud Adams.

Washington, D.C., March 12.—Miss Maud Adams benefits to the extent of \$2,000 by a bill which has passed the senate and house and gone to the court of claims.

During the civil war Miss Adams' grandfather, who lived in Tiffin, Ohio, shipped horses and mules to the northern army. These fell into the hands of the confederates and never reached their destination. Now the heirs have put in a claim to recover the loss, and congress has given its approval.

Official Action.

Washington, D.C., March 12.—The officials of the department of justice will make every effort to secure the extradition from Canada of Gaynor and Green, charged with complicity in the Savannah fraud, for which Capt. O. M. Carter was sent to the penitentiary. The officials are looking up the law and the treaty bearing on the subject, and as soon as this is completed they will file the return to the department to take steps to secure the extradition of the men who are at Quebec.

Flight To The Pole Sure.

Paris, March 12.—M. Santos Dumont said yesterday: "Scientists are usually endowed with an enthusiasm which does not overstep the bounds. That the Mediterranean can be crossed to Africa on an airship is quite certain. That the time is at hand when we can make a descent upon the north pole is equally certain. A little patience, a little luck, a little more experimental science will bring us up there."

A Charles I. Relic.

London, March 12.—The blue silk vest worn by Charles I. on the scaffold, was sold at Stevens' room for 200 guineas.

Owing to so many counter attractions to-night, the directors of the Kingston fair association have postponed their meeting for one week.

HAS SHIP BEEN WRECKED?

ON THAT BARREN SPOT, SABLE ISLAND.

Huronian May Have Met Her Fate on the Graveyard of the Atlantic—The Government Steamer Goes on a Hunt.

Halifax, N.B., March 12.—It is reported that the Allan liner Huronian, which left Glasgow, on February 11th for St. John, N.B., and has not since been heard of, has been wrecked on Sable island. Confirmation of the report is, of course, impossible as there has been no communication with the island since Christmas. It seems that a west bound steamer reported a large vessel, supposed to be a steamer, on the bar and this gave rise to the belief that the Huronian may have met her fate at the "grave yard of the Atlantic." Acting upon this information the department of the marine, yesterday, ordered the government steamer Aberdeen to proceed at once to the island. The Aberdeen was all ready to start out on buoy service, but agent Parsons at once had the buoy unloaded, and made preparations for putting on board supplies for the island. Extra supplies will be taken in case a wreck has occurred. The Aberdeen will sail this afternoon and should reach Sable island on Thursday morning.

THE CABINET RESIGNS.

Weyler Is Likely To Be Spanish Dictator.

Madrid, March 12.—Announcement was made, this morning, that the members of the cabinet, headed by senor Sagasta, would place their resignations in the hands of the queen regent some time to-day. It is probable that senor Mariero will be entrusted with the formation of a new cabinet. Senor Weyler, a present minister of war, senor Canalejas and the marquis Armigo, are certain to be included in the cabinet.

Gen. Weyler seems to be well on the road to becoming dictator of Spain. It is a recognized fact that he is indispensable to the formation of any cabinet and he seems to gain strength with every crisis.

The new cabinet will probably summon the cortes to meet on March 17th to have king Alfonso take the oath. Meantime the revolutionists throughout the country are reported to be active.

Down The River News.

Thousand Island Park, March 12.—The ice bridges in this vicinity still remains good for heavy loads. D. W. Gardner has got a number of teams engaged in drawing timber from Clayton and Gananoque for the enlargement of the steamboat dock, which will be lengthened and widened with a knuckle in the middle and when completed will be one of the best on the river. Several families have moved from Wells Island to the mainland to the island. Preparations are being made for building a large cottage on Watch Island opposite here. It will be a fine one when completed in July. Otis Brooks, contractor, of Clayton, has the contract. Contractor J. Doll has the contract of building the stocks, ice and boat houses. Quite a number of improvements will be begun in the Columbus hotel here as soon as warm weather begins. Large quantities of goods are being drawn from Clayton for H. V. Moore, Fine View. Ira Ingersoll is building a maphia launch for Clarence Bretsch, of Fisher's Landing. A large cottage will be built early in the coming season on the north side of Murray Hill park facing Eel bay. Crows are getting plentiful.

They Liked The Butter.

James Rowland & Co., New York, writes to superintendent Hart, of the Kingston dairy school, enclosing a cheque for two boxes of butter. The firm adds: "We find the quality looking very good indeed, and we would very much like to have regular shipments of such butter as this; the enclosed used score card showing the butter to be about perfect. Is there any prospect of your making regular shipments to this market?"

This trial shipment was made merely for the purpose of getting expert opinion. As the fees and duty amount to six cents a pound, it would not prove profitable to send butter to this market, although the account sales sent show that it sold for 27c a pound.

A Unus Equus Town.

Bishop Potter is accused of having given currency to the following anecdote: A Chicagoan had been taken around Boston all day to observe her ball-walks, but had failed to exhibit any of those symptoms of paralysis which are acceptable to the Bostonian mind.

"Now, confess," said the Bostonian host, after the burden and heat of the day, "Isn't Boston a unique town?"

"Unique?" mused the Westerner; "I believe that word is derived from two latin words, unus, one, and equus, horse. I think Boston is a unique town."

Francis Joseph To Abdicate.

Vienna, March 12.—At a court banquet at Buda Pest, emperor Francis Joseph, conversing with a recently pensioned officer, said: "I, too, desire to go into retirement." The remark has caused much speculation as to whether the emperor meant to abdicate the throne.
