An Emergency me, and I'll mend them for you." To hear was to obey, but when once the dressing room was reached, the wife said : "Well, you know, I can't mend them while you have them on," and the tractable husband took the trousers off and handed them over for repair. But this domestic scene was in-terrupted by other belated guests who sought to enter and divest themselves of wraps.

"Good gracious !" said the husband, what shall I do now? "Get into this closet," advised his resourceful spouse, "and I'll get rid of these people in a jiffy."
With the words she whisked him through the door and slammed it ing room door to admit the now clamorous guests. Just as she reach ed it she was stayed by a pounding on the other door, and the imploring voice of her husband. "For heaven" sake," he pleaded, "let me back; you've shut me in the ballroom."

# Home Work for Ladies

CONGENIAL WORK. Lace making is a fascinating employment of absorbing interest, and with our Lace Loom the finest grade of Torchon and Valenciennes Laces (hitherto almost exclusively made by the women of Germany and Sweden) can be made at home in the evenings or other spare time.

EASY TO LEARN. Our Lace Loom, though ingenious in construction, is easy to operate without a teacher as the illustrated book of instructions accompanying each machine is full and complete, and patterns are furnished free by us

PROFITABLE. In European countries where these laces are made it forms the chief industry of the women, who make them in their own homes. By working for us in their spare time ladies can add considerably to their income or by giving more time to it can make an independent living for themselves.

## THE NOTTINGHAM LACE CO., TORONTO, CANADA

WANT TO ENGAGE A FEW MORE LADIES IN ANY PART OF CANADA TO WORK FOR THE COMPANY AT THEIR-OWN HOMES

Our plan is simple and is here fully explained. The work is also simple and easily performed on the Lace Loom furnished by us. With each Loom is furnished an Instruction Book with which the different kinds of lace can be made without a teacher. If you wish to make an independent living, or if you wish to add to your income by lace making in your spare time, write to us promptly, enclosing Contract Order Form given below, with remittance, and we will send the Lace Loom and outfit to begin work at once. The market for Laces of all kinds is so large, and increasing so rapidly, that we can sell practically unlimited quantities and we are

anxious to get as many new workers as possible. Our plan of buying material in very large quantities and employing people at their own homes working on their own Looms saves us many business expenses and, with the Customs duties, enables us to undersell foreign manufacturers. The prices we pay our workers for making the ordinary kinds of lace that we sell, range from 3 cents per yard for the narrowest and

easiest made upwards to 20 cents. With practice, very fine and beautiful laces can be made for which we pay very much higher prices. The Loom accommodates work of from half an inch to eight inches in width, and with the number of bobbins used an immense variety of patterns can be worked. The accuracy and ease with which the work can be turned out is marvellous, and yet all the grace and beauty of handwork is retained. Lace of the most delicate and intricate texture as well as the more simple though pretty patterns can be made. The work is easily and rapidly done. You will be surprised at the speed with which the roll of finished lace grows on the Receiving Spool. As the art becomes more familiar it is done almost automatically, although the great number of beautiful patterns supplied free by us gives the work a constant variety and makes it of absorbing interest. We cannot lay too much stress upon the fact that the products of this Loom are not cheap imitations of lace, but genuine fine laces, such as are made by hand (as the machine is so constructed that one's own handiwork enters into it). and they are of the same quality as the most high class imported handmade laces which sell at the highest prices.

We supply all material, patterns, etc., free of charge, commencing with enough for the first samples to be made by beginners. When these samples have been made satisfactorily and returned to us, we send a quantity of material and patterns at our own expense for lace to be made for us to sell and we pay promptly for the making. We pay the cost of sending everything to the worker and they pay the cost of sending the finished work back to us. The cost of sending back the lace to us is very little, as many yards of lace can be sent from any distance by post for a mere trifle. The work is very simple, and rapidly done. Everything necessary for the work except the Loom is furnished free to our workers. The manufactured price of the Loom is \$10, and those desiring to work for us must sign the Contract Order Form in this advertisement and send the remittance of \$10 for the Loom. This is necessary to give us confidence that you mean business. Our interests are the same, and there must be mutual confidence in order that your business with us will be successful. We are in a large way of business and have a regular system from which we cannot deviate. We guarantee fair dealing and prompt payment for work. Indeed we

could not remain in business otherwise than on the foregoing principles.

The Loom and all patterns and material to begin are all absolutely your own property to do what you like with after you have paid the S10; but after you have sent in your first sample satisfactorily, we send you more material for making fine laces for us to sell and for making which we pay you; these last materials will belong to us and must be returned to us when made into lace. If at any time after you commence

working for us you wish to discontinue we will buy back the Loom and refund the \$10 less costs of our expense, expressage, etc.

If you engage with us we will keep you supplied with work as long as you do it satisfactorily. Our workers are engaged summer and winter (whole or spare time whichever they wish), year after year. We entrust them with large quantities of valuable material, and though they may make lace for themselves or their neighbors (as the Loom and pattern and outfit are their own property), yet we expect them to take good care of the material we send them to be worked up for us, and for this work we pay well and pay promptly.

We have here stated, as briefly as possible, just what our method is, and we simply say as to the Loom, it is just what we represent it to

be, and will positively do everything we claim for it, or we will refund the money.

CONTRACT ORDER FORM FULL NAME To the Nottingham Lace Co., McKinnon Bld'g., Toronto, Canada:-GENTLEMEN,-I desire to do the work as described in this adver-

tisement and enclose \$10 to pay for one Lace Loom together with patterns, instructions and everything necessary for the work. The same to be sent to me by express, charges prepaid. POST OFFICE......STREET COUNTY ..... PROVINCE..... It is understood and agreed that any time I wish to discont working for you that you will take back the machine and outfit and NEAREST EXPRESS OFFICE.....

and refund to me the \$10 less your expenses, expressage, etc. State how much time you can devote to the work and also how you wish to be paid, weekly, monthly, or as you send in the work. Send your remittance by Express Money Order, Registered Letter, or Post Office Money Order, and we will be responsible for its safe passage to us.
