DANGEROUS SURGERY

Should Be The Last Resort Many people suffer from piles, because after trying various lotions salves and ointments without relief or cu t, they come to the conclusion that a surgical operation is the last resort, and rather than submit to the shock and risk to life of an operation, prefer to suffer on; very often, however, the afflicted one is over persuaded to resort to the knife, and even though he operation is apparently successful, and there is complete recovery from the shock incident thereto, the result is invariably the same; the piles sooner or later return because their cause as not been removed. This result is a logical one, inasmuch as the knife removes the effects of the disease only, while the cause remains as before. There is claimed to be a remedy which ooes remove the cause, hence eradicating the disease, and that is the Pyramid Pile Cure; it is in the form of a suppository, is applied directly to the parts affected, and brings about a complete cure, quietly and painlessly.

in this . connection the testimony of

John Cullen Bryant, the well-known

pookseller of Haverhill, Mass., is of nusual interest. "I desire to contribute an unsolicited, but purely voluntary testimonial in favor of Pyramid Pile Cure. I have suffered for more than twenty years with hemorrhoids, and have consulted numerous physicians and expended a great deal of money for medicines that did me no good. I had often seen Pyramid Pile Cure advertised, but hesitated for months before buying same, thinking it a patent or quack remedy that had no merit; but having tried every other remedy prescribed was finally persuaded one year ago to try Pyramid Pile Cure. I bought a fifty cent package at the drug store, and while I may not be permanently cured, the past year has been the only year of my life worth living during the past twenty years, and nothing the Pyramid remedies have wrought this change. I offer this testimony for the benefit of suffering hu-

American Girls at the Coronation -Famous Hotel to be Torn Down-Costly Panama Hats-Other Metropolitan Matters.

New York, March 21 .- After one of the busiest sessions in its history the New York state legislature closes next | Hook. The news of an incoming shi Thursday, which by the way will be the earliest adjournment on record for that body. A large number of bills have been passed and equally as many shelved, but the most notable of the the qui vive to know what will be th latter is the "three platoon" bill, result of the national league magnate which has been the cause of a great at the conference to be held nex expenditure of money by the police Monday. Concerning the details of the men of New York.

Nothing has been the cause lately of so much gratification on the part mation, as everything has been of comptroller Grout as the passage transacted behind closed doors, but of his bill by the state assembly to both sides have been flying signals permit the collection of New York city taxes in the spring, instead of fact that Freedman and his friend the fall. However simple the change have consented to meet the oppos may seem it means a great deal for tion in conference without stipulating the city, which for some years has that Spaulding must be flung asis been obliged to live upon its future by his allies, is taken as conclusive income, and for nine months of the year to borrow from the banks \$50, ficials will welcome peace as much 000,000 and more, in order to provide anybody. Baseball men are anxious for its expenses until such time as its know who set the first ball rolling taxes are paid. This costs the city looking to a compromise. something like a round million in in- The Provident loan association

terest charges. Every year New York received from broking business in this city made anonymous contributors money paid last year a profit of six per cent. in restitution and credited to the a capital of \$380,000, and has a su conscience fund," The amounts are plus of \$111,000. Philanthropy in the small, varying some years from low as \$50 to as high as \$400, Last year they were \$302. The state ernment gets very little from any conscious fund. Some years there are no such payments; the latest statistics show that last year they were \$10.

The majority of the American girls who have become English women and who will be conspicuous as hostesses during the gay season following king Edward's coronation are New Yorkers. The duchess of Marlborough, who will probably head the list of most lavish entertainers, as her functions will extend beyond London to her country palace at Blenheim, is the daughter of William K. Vanderbilt. Lady Stratford, who is both beautiful and immensely wealthy, was Mrs. Cora Colgate, of New York. Then there is the dowager duchess of Manchester, also Mrs. Arthur Paget, the countess Craven and lady Beresford, all of whom have reigned as belles in Gotham's

smart set. Nineteen hundred and two will be what is known as a state year in New York, for the offices to be filled at the fall elections except congress, are all state posts. The date of the official primary election in New York city more on his last season Panama than

will be September 16th. Wall street men are looking forward with an unusual degree of interest to the visit of count Matsukata and oth er leading Japanese who are now en route to America-next month. Count

In a Plaster Paris Jacket

o Relieve Excruciating Pains in th Back and Lions-When Doctors Failed a Oure Was

Found In DR. CHASE'S

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidne disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life. S. O. Demers, Conception Station, Labelle county, Que., writes : "I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins and back, and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating

"I consulted several doctors and neer, John McFaul; purser, Edward specialists, but all of them pronounced me incurable, and could not even give me relief. One had me encased in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die

without being able to find a cure. "About this time I received one of Br. Chase's books, and found my case described exactly. The sample of Dr. Chase's Kidney Liver Pills which came with this book gave me marked relief, so I bought some more, and continued the treatment. Gradually the sharp pains in my back and sides grew less severei and my bowels became regular and active constinution had been one

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and sides, frequent desire to urinate and pain in making water, stiffness of the body, and all the sufferings accompanying derangements of the liver

"Since using Dr. Chase's Kidney Liver Pills these ailments have become less and less, until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their praise. The people in this country are surprised to see me so well again, and no wender, for my cure has been al-

Dr. Chase's Kidney-Liver Pills: pill a dose; 25c. a box, at all dealers or of Edmanson, Bates & Co., Toron-

Matsukata is one of the foremost fin-anciers and statesmen of Japan and in the street will hear more about the proposed Japanese loan of \$10,000,000 heing floated

"Holt's Folly" is doomed to disappear at last. The famous old United States hotel, on Fulton street is shortly to be torn down. The proper ty has been sold for \$225,000 and will give way to a ten storey office and loft building in the near future, I was originally opened as a signal sta tion for ships sighted at Sandy was flagged to the hotel by way o Governor's Island.

Those sportsmen whose interest centre chiefly in baseball are all o conferences which led up to this a reement, there is absolutely no info distress for some time past and the evidence that the New York club o

which conducts a philanthropic paw case is a good business investment, which makes it the best kind of an investment. Loans are made on personal property at moderate but paying rates. Among the trustees of the association are Cornelius Vanderbilt, D. Ogden Mills, Abram S. Hewitt, and other representative financiers. In this unseasonable weather there comes the news from fashionable London that Panama hats are going to cost more the coming summer than ever before. This will be pleasing information for the thrifty young men who economically invested from 820 to \$100 each last summer for a Panama hat. The English hats are made principally in Belgium and the makers have declared a fifty per cent. advance in prices largely based on the excess of demand over supply. Last year the Panama here was so popular that the supply was quickly exhausted despite the fact that some of the prices paid for designs were high enough to make a fashionable woman's milliner hide her face and admit that she did not know how to charge. If they are again to be in style, it will relieve the minds of many a young man who squandered he could afford and whose only hope of getting square with his finances is to wear his Panama another summer. Admiral Taylor has addressed a letter to president Cantor of Manhattan, in regard to the bill to lease part of Blackwell's Island, which is now used for various city institutions, to the government for a naval park and drill ground. The position of the island would cause it to become a de

esting relics, and would become a national site for monuments or other naval memorials, admiral Taylor One of the most striking incongrui-

NOTE.-The latest monthly returns received from Dawson City and Atlin, are those of the 30th November, 1901, and the figures of those returns are introduced into this account. The balance of the transactions for December with those branches has been carried to a suspense account, pending the receipt of the December accounts.

We have examined the above Balance Sheet with the Books in London, and the Certified Returns from the Branches, and find it to present a true statement of the Bank's affairs.

EDWIN WATERHOUSE. GEORGE SNEATH,

Of the Firm of Price, Waterhouse & Co., Chartered Accountants.

£7,724,706 6 11

London, 20th February, 1902

The output of the THE CLARIFIED MILK

no doubt that immense quantities

grain are still in the hands

bring in a considerable staff of bookkeepers in the hope of being able ulstate of his affairs. When speaking about the acounts, I said that I should refer again the diminished profits for the halfyear and to the smaller appropriation to the reserve fund. This loss is the reason for both those disappointing results. Had it not been for this loss our profits would have equalled those of the corresponding period, and the amount transferred to the reserve fund would have been £25,000, instead of £15,000. Under the circumstances which I have described to you-circum stances which demand and are receiving the closest investigation-it is im possible to say what our ultimate loss may prove to be; but it will at least be a satisfaction to you, if there can be any satisfaction in such a wretched tale, to know that whatever the loss may be it is fully provided for, and you need be under no apprehension so far as this account is concerned that there is any further disappointment in store for you. I wish that I could speak more hopefully respecting business in Victoria generally, but at the present time there is no doubt a feeling of uneasiness in that place and on the Pacific coast. I have spoken to you about one failure because we have only suffered by that one, but there have been others, and we know moderate recovery. In the other sehow contagious this state of things becomes. I can only assure you that we are well and strongly represented crease consists of provincial and muniat that point by a manager who is exerting himself to the utmost to sale guard the interests of the bank, and cember 31st show that they are worth in whom we have complete confidence. Proceeding northwards to Dawson City, it will interest you to know that we have done a considerable business in the export of gold, and that our general banking business is satisfactory. The government estimate of the amount of gold shipped from Dawson during the year is 23,-000,000 dols; but our Dawson City manager, who is now at home on vaney, Cape Breton. After giving the cation, tells me that he thinks these figures exceed the actual total, and that there has been an inaccuracy in the figures issued by the department. That, however, is not important to us now; we are not so much concern ea with the amount of gold that has been brought out as we are with the doubled, having increased from 98, amount which is left in, and upon 000,000 dols to 196,000,000 dols; which alone the future prosperity of while her imports have grown from Dawson City depends. As to the future life of the goldfields, I notice that the opinions of experts who have are evidence of great prosperity, and servations on the spot differ widely we are inclined to hope that the year and you will not, therefore, expect upon which we have now entered may any opinion at all from me. I will only say this, that we do not expect to see any increase in the output, and that if the exports of gold continue upon the present scale we shall be content. Last summer our general manager, Mr. Stikeman, visited this country, and, although he was only here on furlough and not upon the business of the bank, we had the great advantage of many interviews with him, which were most valuable to us. I do not think I have any further observations to offer upon the report and accounts, and I therefore beg to move that they be adopted, adding that I shall be happy to reply to the best of my ability to any inquiries which you may wish to put to me. Henry R. Farrar seconded the motion, which was then put and carried conclude that the large sum of 40; 900,000 dols has already gone into the The retiring directors-Messrs. pockets of the farmers (for there i

trade generally, and especially in Victoria, have not been so favorable as elsewhere in Canada. It is difficult to assign a reason for this exceptional state of things-some are of opinion that it is owing to political unrest, while others think that the gold discoveries at Dawson led to an inflation at these points, from the after effects of which they are now suffering. Whatever may be the cause, there have been failures in Victoria, and I deeply regret to say that by one of them our bank has sustained a serious loss. one of our oldest customers having been compelled to make an assignment. The person to whom I refer has been long resident in Victoria. and has always been regarded most highly amongst the commercial community. He has throughout dealt with the bank with apparent frankness, and has submitted to the lank statements respecting his affairs which are now proved to have been absolu-tely fictitious. When the assignment was made, it was found that for ten years past the books of account had not been properly kept and it has been necessary for the assignee to PUNERAL DIRECTOR, 281 PRINCES
