REMEMBER each time you call you see the blood to flow. He was since; the discovery of vaccination,
taken into Wade's drug store where and Dr. Jenner's great services in
these were attended to. Tucker cerstaying the frightful ravages of smallrecovered from the fright he looked up warfare. Weight is given to the inlown by that route."

Will Fight Payment. The claim of \$900 made by the county council against the city for renovating the county court house, is still creating no end of interest among the members of the city council. A member of the latter body stated this morning that the city clerk was sent to the court house to procure a copy of the by-laws of the county council, but was unable do so, being informed by both the county clerk and treasurer that such was not available; by-laws passed by council are written in the minutes and no further effort is made to keep a convenient record of them. The al derman in question says it is next to impossible to look up any county bylaw, they not being kept in consolidated form. The city will not pay the account charged unless compelled to do so. "For instance," he remarked, "it cost \$105 for linoleum for the floor of the office of the clerk of the peace, Mr. Whiting. Of what benefit

is that to the city.
