The Heads of the Households no Doubt Feel Wretched—J. A. Shibley Arrives Safely at Phoenix, Arizona—Pert Personal.

Napanee, March 24.—Saturday was most springlike in its nature, and dust flying on the streets. The millinery openings brought out the ladies in large numbers, and all afternoon and evening the streets were thronged.

First one place was visited and then another until all through. The Hardy dry goods company, Dosses & Co., and the Robinson company were visited, and the spring creations inspected and criticized.

A large quantity of maple syrup was on the market on Saturday, but all quickly disposed of at one dollar per gallon.

General Otis Retires.—After many years of active service, including active participation in three wars, Maj. Gen. O. S. Otis was placed on the retired list to-day by operation of the law requiring the retirement of army officers on their sixty-fourth birthday.

Since his return from the Philippines the most of Gen. Otis' time has been spent in command of the military departments of the lakes, with headquarters at Chicago, and of Dakotas, with headquarters at St. Paul. Gen. Otis will make his future home in Rochester, N. Y.

The retirement of Gen. Otis results in the usual number of transfers and promotions: Maj. Gen. Arthur MacArthur, of the Colorado, with headquarters at Denver, to the command of the department of the lakes, while Brigadier-Gen. Frederick Funston succeeds to the command of the department of the Colorado.

The command of the department of Dakotas is to be assigned to brigadier-Gen. W. A. Kobbe. Gen. Funston is at present on leave of absence, and for the time being the command of the department of the Colorado will devolve upon brigadier-Gen. Bates, commanding the department of the Missouri at Omaha.

What Colds Lead To

The Opinions of Great Doctors—Protection and Safety Found In Dr. Chase's Remedies

Contrary to the common belief, the best doctors tell us that very many of the most painful and fatal diseases have their beginnings in a neglected cold.

Kidney disease is particularly the case. It is very often brought on by catching cold as a result of exposure to cold and dampness, and hence it is that so many teamsters, railroad men and laborers suffer with aching backs, and diseased kidneys.

The wise way is to check the cold once by the use of Dr. Chase's Syrup of Linseed and Turpentine. This preparation is so thorough and far-reaching in its effects that while easing and loosening the cough, it also cures the cold and prevents the possibility of lung troubles or disease of the kidneys.

If the cold is already settling on the kidneys, and you are suffering with backache, irregular or constipated bowels, nervous, highly-colored urine, pains and aches in the hips and legs, and a general depressed condition of the system, Dr. Chase's Kidney-Liver Pills will prove wonderfully prompt and thorough in relieving your sufferings and curing your disease.

Thousands of people have testified that Dr. Chase's Kidney-Liver Pills have cured them of kidney disease, liver complaint and constipation.

If you really want to be cured, it may be worth while for you to try them on the strength of this evidence.

Dr. Chase's Syrup of Linseed and Turpentine is equally popular, and is having an enormous sale now, when so many are suffering with colds and nervous throat and lung affections.

These standard remedies sell for 25c. at all dealers, or Edmondson, Bates & Co., Toronto.

A LONG HUNT.

Kansas P.O. Inspector Chases a Man 5,000 Miles.

Wichita, Kan., March 25.—After trailing his man from the Mississippi to the Pacific coast covering more than 5,000 miles in the pursuit, and devoting his entire time to it for thirteen months, Inspector D. W. Peters, of the Kansas City division of post office inspectors, captured George Frions, alleged to be the leader of a gang of western post office robbers, and brought him back to Kansas, where Frions was wanted on the specific charge of robbing the post office at Salva, February 18th, 1902.

A federal grand jury at Wichita has indicted Frions with Albert Gibbs, Ray Taggart and Albert Taggart on charges of post office robbery. The three last named men have all confessed that they were members of a gang which committed many post office robberies in western Kansas under the leadership of Frions.

Three weeks ago a developing company struck oil on Miss Spellman's property and she was offered \$20,000 for the quarter acre upon which the well was bored. She signed papers to-day by which she will make the sale. This she will spend in developing other promising sites on the same property.

Milwaukee, Wis., March 25.—John Brown, sixteen years old, living with his parents in this city, is a victim of bad-room gymnastics. Young Brown had read in some of the journals the athletic advantages to be gained through the use of a pole hung in the closet, and tried the scheme. When he did not appear at the usual time his parents investigated, and found him dead in the closet. He was hanging by the neck to the ropes, which had become twisted, so that he was unable to free himself, and choked to death.

CORONATION THE TOPIC

SOON LONDON WILL BE IN A DIZZY WHIRL.

The Event is Discussed in All Quarters—The King Gathering Pointers—The Queen Selecting Robes.

London, March 25.—Just three months from to-day London will be in the dizzy whirl of the coronation fetes. Three months is a short time in which to complete the arrangements for the great ceremony and those upon whose shoulders rest the responsibility have taken their coats of and are working ceaselessly at their gigantic task of preparation.

The coronation is the one topic of conversation among all classes. In the clubs and drawing rooms the smart set discusses the approaching ceremony and in the public house the workmen discuss over their ale the details of the arrangements with which the press is filled.

The periodical literature covering the time of queen Victoria's coronation is in great demand by persons who desire to inform themselves of the etiquette and ceremonials of the occasion. King Edward himself has read and re-read the accounts of his mother's coronation and doubtless has obtained therefrom many valuable pointers. For instance, in selecting the robes and quality of his coronation robes, the king doubtless kept in mind the account of the late Lord Salisbury, one of the royal train-bearers, who declared that the weight of the robes gave them all "a Turkish bath of some hours' duration."

The same inconvenience and discomfort from the weight of the robes was encountered by George IV., at his coronation. The king, it is said, bore the infliction with all the dignity of which he was capable, but as soon as the elaborate ceremony was concluded his majesty retired to his dressing room in the abbey, and casting off all incumbrances walked "up and down in a state of nudity," but still wearing the crown upon his head—a state of barbaric splendor strangely at variance with the familiar aspect of the tailor-made "First gentleman of Europe."

Before deciding to have an entirely new crown with eight jewelled arches and the Koh-i-Noor, which is expected to make more impression on the great Indian princes than all the rest of the coronation display, queen Alexandra is said to have examined at least thirty or forty different designs specially prepared for her inspection. Her majesty has given quite as much attention to the selection of her coronation robes, the details affording a wide field of choice, which was enlarged by the freedom to determine upon purple or crimson, as taste might dictate.

More Officers Needed.

Washington, D.C., March 25.—The great amount of survey work recently completed by the United States in the Philippines and in Porto Rico has brought about a need for more officers for the service. The United States civil service commission has been called upon to supply an eligible register of applicants for the positions of deck officers and chief engineers.

Blacksmith's Backache.

Swinging heavy hammers, frequent stooping over shoeing horses, getting a wrench once in a while from a refractory horse, bending at all sorts of odd jobs that the average blacksmith does—any wonder that in time the strongest man begins to find his back give out and his kidneys trouble him.

The progress of medical science has produced nothing that is a greater boon to the blacksmiths throughout this country than Dr. Piteher's Backache Kidney Tablets. They get at the origin of the backache in the kidneys and make a thorough and radical cure.

THE RESULT OF A STRAIN.

A Soper, blacksmith, John Street South, Aylmer, states his case as follows: "A blacksmith's work is always hard and mine is no exception. I strained my back some time ago, and the trouble settled in the small of my back and kidneys, laying me up. I have been subject in times past to an attack of backache, and took different kidney pills but got little relief. One day I bought a bottle of Dr. Piteher's Backache Kidney Tablets and they stopped the attack in a hurry. They acted differently and away quicker than anything I ever took. I am pleased with them, and consider them satisfactory in every way."

LETTERS TO THE EDITOR.

What a Visitor Heard.

Kingston, March 24.—(To the Editor): I dropped into an up-town church yesterday morning, intent on hearing the music, as they tell us is one of the charms to draw the wayward and careless wanderer to the house of prayer, where it is to be hoped he may find the balm for every wound and healing for the sin-sick soul.

It being a fine morning, there was a little better than half the choir in their usual places. I am told, though it seems to be a matter of indifference to the first hymn, a good, old-fashioned one, was sung with considerable spirit by a fair-sized congregation, led by the choir, in which one voice seemed to predominate over all others, though we could catch an occasional strain of other good voices.

The second hymn passed off in a similar manner, and then came the voluntary, a quartette. The piece selected seemed to have been designed in good order, it was a vigorous contrast, with dubious results.

The text was announced and the sermon under way, before my nerves were sufficiently composed to give it much attention. It was, however, an able sermon by one filled with the subject in hand, and the importance of the message being delivered, or shall we say, an old-fashioned gospel sermon. After the closing hymn, which was somewhat toned down, I walked with never unstrung to my domicile.

In the evening I wended my way in another direction, and, oh, what a contrast! Every seat in the choir filled before opening, could detect soprano, alto, tenor and bass voices, blended in beautiful harmony, which displayed taste in selection of the anthem, ample practice, and a mastery of all the parts without any one voice being conspicuous, except, perhaps, in the obligato solo. Suffice to say, I drank in all the service, and wended my way, saying, there is a charm in music that brings rest to the weary wanderer—VISITOR.

Pittsburg, Pa., March 25.—A barber shop in Homestead is under quarantine and barbers and customers are imprisoned in the shop under guard. An assistant, Clayton Williams came here, and was found to have small-pox. Williams is in the pest house.
