NEAVE'S FOOD

Justice Falconbridge on Saturday morning, at Toronto, set aside the will of Mrs. Hannah E. Fenwick, of Kingston, at the instance of her sister, Mrs. Emily Northmore. Mrs. Fenwick left an estate of \$5,300 to Robert Abbott, by a will which Mrs. Northmore claimed was made when Mrs. Fenwick was not in her right mind. The judge held that the will had been the result of undue influence. The case was tried here at the recent assizes.

IF YOU NEED HELP LET ME KNOW IT.

Tell Me Of Some Sick One, and Let Me Send My Book.

NO MONEY IS WANTED.

If you are not well, please tell me the trouble—tell me which book you need.

That is all I ask—just a postal card, with the name of some one who needs help. I have spent a lifetime in learning how to cure these troubles. Year after year I have perfected the treatment until it is almost sure. I want you to know about it. You may take the treatment at my risk, if you will. You will not have a penny to pay if it fails.

With the book, I will send an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will authorize your druggist to let you take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay your druggist myself. I will leave the decision to you.

Don't think that this is impossible, for I do just as I say. I have done it in over half a million cases already. It is true that I cannot always succeed. Sometimes a case, like cancer, makes a cure impossible. But those cases are rare and I am willing to take the risk. It is also true that not all people are honest. But the cost is only \$5.50, and experience has proved that very few of the cured will avoid it. My records for five years show that 30 out of each 40 who accept those six bottles pay, and pay gladly. I am satisfied with that.

Please note what that record means. They are all difficult cases where six bottles are taken. In simple cases, the patient gets a bottle or two from his druggist. Yet 30 in each 40 of those difficult conditions are cured. That is a remarkable record, which has never been approached in the history of medicine. There is no other remedy which any physician would dare to offer on such a plan as mine. There are 30 chances in 40 that I can cure you, no matter how severe your case, no matter what else has failed. My success comes from knowing how to strengthen the inside nerves. Every vital organ in the body gets its power from these nerves. When some organ grows weak, and fails in its duty, its nerve power is weak. It is just like an engine that needs more steam. My Restorative brings back that nerve power. It removes the cause of the trouble. And most of the conditions I treat can never be cured in any other way. Some of you know this already. My book will make the matter clear.

If you are sick, or a friend is sick, please don't fail to write me. You have everything to gain, and nothing to lose by it. Your future is at stake. If I take the risk, won't you take the remedy? Won't you at least write for my book?

Simply state which book you want, and address Dr. Shoop, Box 40, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

UNUSUAL SORT OF A REPESE

WAS IT A REAL SERPENT WHICH TEMPTED EVE?

For Saying it Was Not a Methodist Minister Has Got Himself Into Trouble—Preacher Has a Large Following.

McPherson, Kan., March 29.—The preaching of his belief that it was not a real serpent that tempted Eve and that at the time of the happiness in the garden of Eden related in the bible there were inhabitants of the world other than those therein mentioned as the first of the human family forms the basis of charges of heresy which have been preferred against Rev. Granville Louthers, D.D., pastor of a local Methodist church. Dr. Louthers has been connected for years with the state holiness association, and is its president. He is charged with "disseminating doctrine contrary to and subversive of the doctrines of the Methodist Episcopal church," and it is alleged that he is "atheistic and evolutionistic."

Dr. Louthers is charged with teaching the following doctrine, which are set down as "in violation of the confession of faith and the catechism": "That the serpent which talked to Eve was a man; one of the race to which she also belonged; that he had not come into the world because of God, therefore was classed with beasts; and that there were other inhabitants or members of the race. If not, how did Cain find his wife in the land of Nod, where none of Adam's children except Cain had gone? If not, whence came the daughters of men whom the sons of God took for their wives? The reasonable interpretation is that the descendants of Adam were called sons of God because, having entered into a conscious knowledge of God, they would claim Him as their Creator and worship Him. The others not knowing God, were called sons of men. "That Adam and Eve as first created had no conception of their obligations of obedience; that in eating of the fruit of the tree of good and evil they had done nothing except what the others about them were doing, and what they themselves had formerly done, that is, live like beasts but they had a higher vision of spiritual things than formerly, and consequently they felt guilt. "That Christ died for men to show men how to die for man; that the willingness to die for men should be multiplied by exactly the number of disciples of Christ, and that the atonement can never be completed until this idea prevails."

Mr. Louthers, it is said, believes that in religion, as well as in world-building, God is proceeding from lower to higher forms, and that this process must continue in the future as it has in the past. He contends that creeds are valuable only as landmarks; says that lack of freedom for the soul is like compressing a woman's waist in corsets to compel it to grow according to a certain fashionable ideal. He declares that religion can never reach the fullness of naturalness until it is free from fear of persecution for the highest and holiest concepts.

Dr. Louthers' congregation is one of the most numerous in this city. The minister, because of the liberality of his views, has a large following also among the unorthodox.

Rendition Of "Stabat Mater."

Rossini's "Stabat Mater" was given in the city hall on Good Friday afternoon by the vocal and instrumental students' club of fifty voices, before a large audience. The rendition of this Latin hymn was very impressively done, the chorus being particularly good. The soloists were the Mesdames Nelson, air and Galloway; Misses Pierce, Bates, Massie, Bojine, Waldron, Clark; Messrs. A. Craig, Kelso, C. B. S. Harvey, B. Galloway, L. W. Shannon, Winnett and O'Connor. The accompanists were Miss Constance Tandy, piano; Miss Ethel Armstrong, violin; and R. F. Harvey, organ. Mrs. J. R. C. Dobbs was conductor. Preceding the rendition of "Stabat Mater," Chopin's funeral march was played by Miss Norma Tandy (piano), Miss Harvey (organ), and Miss Armstrong (violin). Gounod's "O Redemptor Divine" was sung as chorus, and "While Mary Slept" (Jordan), as solo by Miss Kathleen O'Hara. The lady singers were attired in white, with black hats.

Lost \$71,000 At Roulette.

New York, March 29.—A Yale student, whose father was, and most of his relatives are at present, deeply interested in railroad affairs, lost \$71,000 at roulette in Casfield's on March 14th and 15th. This New York young man is now at home on a vacation. On two previous nights he won \$8,000 and \$12,000 respectively. Reginald C. Vanderbilt, youngest son of the late Cornelius Vanderbilt, whose name is connected with the affair, says he knows nothing of it. The plunging at the wheel succeeded a late supper at Delmonico's, at which a large number were present, including Samuel H. Stone, of Syracuse.

Date Of The Fair Fixed.

The fair directors met on Thursday, the mayor presiding. Little was done, except the fixing of the date of Kingston's big fair. This will be held during the last week in August, much earlier than usual. Toronto's industrial exposition opens on the first Monday in September, and the Ottawa exhibition about the middle of the same month. Instead of the local exhibition coming in between these two big events, it will precede them both.
