EXPECT INDEPENDENCE.

War Will Continue Unless This is Granted.

BOERS ARE SHORT OF MONEY

MORE BRITISH SOLDIERS FOR SOUTH AFRICA.

Boer Leaders Anxious to Have the Curtain Rung Down on the Hapless Melodrama—Steyn is Obstinate and Self-Willed.

Amsterdam, April 2.—Mr. Kruger and the circle surrounding him are not optimistic as to the conclusion of immediate peace. They believe England is willing to grant full amnesty and will rescind Lord Kitchener's proclamation in regard to the banishment of all Boers, who did not surrender on September 19th, but that she remains adamant on the question of granting independence to the South African republics. It is claimed that independence is a complete union with the Boer leaders in the field, and the representatives in Holland, that the war will continue unless Great Britain agrees to grant independence.

The Reason Yet Unknown.—London, April 2.—So far no news is forthcoming to indicate the cause of the railway accident at Barberton, in the Transvaal, in which thirty-nine British soldiers were killed and forty-five wounded. Barberton is a station on the Pretoria-Delagoa Bay railway, 213 miles from the Transvaal capital, and seventy miles from the Portuguese frontier.

After Mr. Kruger fled from Pretoria, before the British occupation in June, 1900, he made Barberton his headquarters for some time, living there in a saloon carriage.

The Dutch Premier Travels.—Berlin, April 2.—Dr. Kuyper, the Dutch prime minister, has arrived here. It is not stated whether he has any bearing on the present negotiations regarding peace in South Africa.

Canadian Doctors Complain They Are Unable to Get Licenses.—Montreal, April 2.—Complaints have been received from Canadian doctors in South Africa protesting against the non-recognition of the degree of Canadian physicians in the South African provinces. Dr. Rutan, registrar of McGill university, states that the complaints are well founded. Canadian certificates were not recognized in South Africa any more than they were in England in any portion of the empire outside of Canada.

The reason for this was that as Cape Colony has no professional organization of its doctors to issue licenses to the holders of English certificates received. Until Canada can offer English doctors a recognition of their registration at home, England will not grant a recognition of Canadian certificates in the British service, whether for England, India, or the other colonies.

BISHOP BARS FRENCH PAPER.—The Croix, Religious Journal, Condemned By the Bishop. London, April 2.—The Paris correspondent of the Times says the bishop of Nancy has forbidden the clergy and laity in his diocese to read the notorious paper, the Croix, (a religious and nationalistic journal) which has been condemned by the Croix as intended for political purposes, with a view to drawing the clergy into conflicts. After years of protest, says the bishop, he felt bound to condemn the christian democratic, who foment divisions among the Catholics.

Attack Expected on the Jail to Kill Postmaster.—Clayton, N.Y., April 2.—An attack on the jail for the purpose of lynching postmaster J. W. Guyer, who killed William E. Seales, a jeweller, last Wednesday, is threatened by citizens, through his hands, justice case. Guyer shot Seales in self-defence, the latter having fired the first shot. Seales attempted to shoot the postmaster; it is charged he circulated a pamphlet reflecting upon the character of Seales and his wife.

CHIEF JUSTICE MAY RETIRE.—Sir John Boyd Likely to Succeed Him on the Bench. Ottawa, April 2.—It is said that Sir Henry Strong applied some time ago to the minister of justice to be retired from the chief justiceship of the supreme court. It is thought justice case of Toronto, will have a good chance of being appointed one of the puisne judges of the supreme court, and the chief justiceship may go to Sir John Boyd.

Immense Yield of Corn.—Handford, Cal., April 2.—Kings county is prepared to challenge the world on the amount of corn that can be produced to the acre, and is confident of beating the biggest counties of Iowa, Kansas, Illinois, Nebraska, Missouri and other corn-growing states on profits from this year's crop. The crop planted in this country in 1901 was perhaps larger in acreage than in any previous year, and the yield was high, many fields harvesting as much as two tons of shelled corn to the acre. This corn has sold all the way from \$2.25 to \$4.00 per ton.

Christians Are Threatened.—Constantinople, April 2.—The Servian legation has called the attention of the Porte to the situation in Kolashin, where the Albanians are threatening the Christians. The Albanians are opposed to the appointment of Russian and Servian vice-consuls at Mitrovitza and Prizren, respectively, and threaten to kill them when they appear.

See Jenkins' Raincoats.—Best Cravatette, warranted show-proof, in the new shades, with full skirt, \$10.

See Jenkins' Overcoats.—The dark grey, with silk facings, at \$10, is the leader.

To-day the people of Manitoba will wrestle with the referendum.

INCREASED THE RATES.

Saloon Passengers Must Pay Up Handsomely.

London, April 7.—The Imperial tobacco company contradicts the statement that it proposes to start a number of shops in London and the provinces, which says that it has actually dictated the opposite policy of attempting to oust the present retailers.

The Daily Telegraph claims to have authoritative information that nothing hitherto published in connection with the will of the late Cecil Rhodes is authentic. It states that the will is certainly of imperial interest, but in a way not yet overtly hinted at. A despatch to the Daily Mail from Cairo, says that Marconi has applied to the Sudan government for permission to introduce his system of wireless telegraphs in the Sudan. The adoption of his system is doubtful, owing to the expense and the existence of the present telegraph lines.

Budget forecasts are very plentiful. It is admitted that the money must be raised in order to meet the cost of war, and Sir Michael Hicks-Beach daily receives numerous letters, advising him how to act. The rate of the pound is generally believed to be a pump-tax on all incomes over a hundred pounds and demanding that any further revenue required should be raised by increasing the death duties on larger estates, or adding to the taxation on tobacco and intoxicants. The British taxpayers will not have to wait long before they know the result of the inquiry into the degree of Canadian taxes, except the Beaver, have drawn up a new schedule of saloon fares, which will be in operation immediately. The general effect is the price of saloon passengers is raised to-day by sums varying from £3 to £7.

CANNOT PRACTICE IN AFRICA.—Canadian Doctors Complain They Are Unable to Get Licenses.

Montreal, April 2.—Complaints have been received from Canadian doctors in South Africa protesting against the non-recognition of the degree of Canadian physicians in the South African provinces. Dr. Rutan, registrar of McGill university, states that the complaints are well founded. TELEGRAMS FROM THE FOUR QUARTERS OF THE EARTH.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered By The Dear Public.

President Roosevelt will deliver the memorial day address at Arlington, Hamilton capitalists have bought out the Parisian steam laundry company. The playing of billiards by students has been prohibited by the State agricultural college, of Oregon. Since the outbreak of cholera in Manila, there have been ninety cases and seventy-two deaths reported. The capacity of the Canadian Northern railway's elevator at Port Arthur, Ont., is to be greatly increased. A Colombian decree imposes a war tax of \$500,000 a month on the liberals in the department of Panama. All the lighthouses on the American side of the St. Lawrence river were placed in operation on Saturday night. The Hamilton city council has decided to prosecute contractor Brennan for fraud in connection with his coal contract.

Walter Gordon, arrested at Halifax, the murderer of Daw and Smith, at White-water, Mln. The war office has accepted the Canadian government's decision to raise 2,000 mounted men for service in South Africa. There is a cabinet crisis in Greece. The king refused to accept the resignation of his cabinet. At Athens the excitement is intense. Parliamentary estimates of British public expenditure for the fiscal year beginning this month, foot up \$849,025,000, a decrease of \$130,860,000. Senator Mark Hanna has announced at Washington that he will not be a candidate for the presidency of the United States at the next election. Two spans of the new municipal bridge at Portage La Prairie were carried out by the ice, cutting off communication with the southern country. The Japanese consul-general has invited the Canadian government to send an exhibit to the international exposition to be held at Osaka, Japan, 1903.

A company has been formed to mine iron from the famous ice caves of Arizona to supply the towns on the Santa Fe railroad, during the oppressive summer months. Large numbers of Haytian refugees arriving at Kingston, Jamaica, in consequence of the political upheaval in Hayti, say the situation is serious and that trouble is certain to occur soon. Solomon, the condemned Galician, who will hang in May at Winnipeg, spends most of his time in devotional exercises. His health is good and he is frequently visited by Rev. Fr. Kullaway. William Hickox, a wealthy farmer, living near Garrettville, N.Y., was murdered in the woods near his home. His dog led a searching party to where the body was found, covered with brush.

The disabled Cunard line steamer Etruria, which left Fayal, Azores, March 17th, for Liverpool, in tow of two tugs and with a steamer steering her, passed Tuskar Rock at 2:30 p.m. to-day. At a banquet at Quebec, Hon. Charles Fitzpatrick announced that it had been decided to establish immediately a Canadian iron and steel works, which would employ from 250 to 300 men. Charles Fraser, who until about a month ago conducted a livery stable at Rat Portage, was arrested on Monday, charged with attempted arson. Fraser's barns were discovered on fire several times within four months, and provincial detective Rogers, of Toronto, has been working on the case for the past week, resulting in Fraser's arrest.

SCALPERS' TICKETS.—Judge Chytrus Says Railroads Must Honor Bit of Pasteboard. Chicago, April 2.—"However reprehensible and odious to a railroad company a ticket scalper may be, there is no law that invalidates a ticket which otherwise is valid, because it passes through his hands," Judge Chytrus, of the superior court, has given this opinion in a suit for damages brought by Morris Horowitz against the Chicago and Northern Pacific railroad company. Damages of \$250 were agreed upon. While travelling with his wife to Minnesota on a ticket purchased from a scalper at Chicago, which had originally been issued to a Michigan newspaper, Horowitz was escorted by J. C. Pond, general passenger agent of the road, who happened to be on the train. Horowitz and his wife were ejected from the train at Lake Villa, fifty-one miles from Chicago. The attorney for the road argued that Horowitz had been guilty of a constructive fraud.

The Jury's Finding.—Brookville, April 2.—The coroner's jury which investigated the death of Miss Mary E. Jackson, the Brookville nurse, who, by mistake, drank a dose of bicarbonate of mercury for Epsom salts, arrived at a verdict last night. The jury found that there was no proof as to who filled the bottle and pronounced that the control of medicines distributed to the public should be restricted to the dispenser or head nurse.

HEATHEN VS. CHRISTIAN.

Former Compared Favorably With the Latter In China.

London, April 2.—A despatch from Shan-hai to the Times says the most important impression fixed in the Chinese mind as the result of the campaign in the north in 1900 is a new conception of christianity and its results, an impression conveyed by the troops of the christian nations which compared very unfavorably in the matter of common humanity with those of heathen Japan. The correspondent says it is reasonable to expect that the cause of christianity will suffer further in the near future. The nations chiefly interested in the labor of missionaries have come to terms with the Chinese government, leaving the murders of the christians unpunished. The native converts in many places are deliberately held up to the odium of their fellow-countrymen by the imposition on their community of taxes required to meet the indemnities levied for missionary claims.

CLAN-NA-GAEL AROUSED.—Organization May Have Unwittingly Welcomed British Spy.

New Haven, Conn., April 2.—Members of the Clan-na-Gael, in this city are aroused over the report that Capt. Louis De Villiers, with whom many became well acquainted during his stay of two weeks here, is a British spy, instead of a strong Boer partisan, as he represented himself to be. Capt. De Villiers came to New Haven in the latter part of February. Several of the leading Irishmen of this city called upon him. He delivered a lecture on the Boer war, his remarks against the English government in its treatment of the Boers being especially strong. It was further said that he secured letters of introduction to Irish leaders and patriots in other cities. Soon afterward one or two members were given to understand that there was something wrong. Then the local patriots started in to recall the letters of introduction.

COACHMAN KILLS EMPLOYER.—George H. Allen Shot After Quarrel at Cleveland.

Cleveland, Ohio, April 2.—George H. Allen, a prominent dealer in coal and timber lands and general real estate, was shot to death in the yard in the rear of his home by his coachman, John Hagesfeldt. The coachman surrendered at headquarters. The crime is believed to have been the outcome of a quarrel about Hagesfeldt's work. Hagesfeldt fired four shots into Allen's body. Allen's wife was a witness to the shooting.

RAILWAY EMPLOYEES.—Bill For Their Protection To Be Introduced in Parliament.

Ottawa, April 2.—Ralph Smith, M. P. for Vancouver, gives notice of a bill for the further protection of railway employees. It will provide that all cars must be equipped with air brakes and engines and cars with automatic couplers. All box freight cars to have an end and side ladder with a step at the bottom and an angle iron on top of the car so as to assist the employees to reach the top.

RUSSIAN STUDENTS.—Are Arranging For Another Big Demonstration.

Berlin, April 2.—A despatch to the Telegraph from St. Petersburg, dated Monday, March 31st, says that the students are organizing a fresh revolutionary meeting and have succeeded in mailing 10,000 circulars, mostly addressed to persons belonging to the educated classes, imploring them to attend armed if possible, a revolutionary demonstration in front of the Kazan cathedral.

LIBERTY BY WOODEN KEY.—Six Prisoners Escape From The Workhouse.

St. Louis, Mo., April 2.—By means of a wooden key six prisoners escaped from the work house, after ten hours work in breaking their shackles and opening the inner and outer doors of their cells. The escaped men, three of them still wearing chains, climbed the rear fence and took a stroll to the Illinois side of the Mississippi.

Found No Trace.—Halifax, April 2.—The steamer Jessoric, arrived here from Greenock, and came out for orders, made an special search for the Huronian. She went as far north as latitude sixty and found no trace of missing liner. The captain believes the Huronian struck the Virginia rock, which is covered by eighteen feet of water, and sank, leaving no one to tell the tale.
