AN EMPLOYEE DROWNED.

An Electric Railway Is Contemplated on Georgian Bay. Ottawa, April 4.—Piero St. Pierre, an employee of the E. B. Kiddy company, Hull, was drowned in the Ottawa river last night and his body was found this morning. It is supposed he fell into one of the slides in the dark.

An electric railway between Maple Lake and Port Cockburn, near Pary Sound, may be built by Ottawa capitalists, who are getting figures as to the cost. The railway would join the Canada Atlantic.

The first day's sale of seats for the Paderewski concert, on Tuesday evening next, at the Russell theatre, broke all records here. Mr. Houston, the Canadian director, says it is fifty per cent. better than the first day's sale for Paderewski at Massey Hall, Toronto, last month, where the pianist played to the largest gross receipts known at any single concert in Canada, nearly \$6,000.

TO BE RUSHED HOME.

Outbreak of Cholera Is Reason For Action. Washington, April 4.—With the transports already at Manila or on their way there from San Francisco it is calculated that all the troops which have been in the Philippines since 1898 will be back in the United States or on their way home by June 1st next.

One reason for hurrying these troops home is the presence of cholera in the Philippines.

AN ALIBI WAS PROVED

That Australians Did Not Kill Missionary

THE YARNS UNCONFIRMED

SCHALKBURGER IN COMMUNICATION WITH STEYN.

Bears Say They Will Remain Firm On The Question Of Their Independence—Terms Offered By Britain Will Not Be Accepted To.

London, April 4.—Although the war office has not yet issued a report from Pietersburg concerning the shooting of floor prisoners by the Boers of the Bush Veldt carabines, and various versions of the matter are current, the main fact that the prisoners were shot is beyond question. Australian reports say that the charge that the officers shot a missionary collapsed, an alibi being proved. The report that they looted the Boers' baggage in searching for the £20,000, the prisoners were said to have with them, and the further charge that they shot a number of natives, have not been confirmed.

A despatch from Pretoria, dated yesterday, says acting president Schalkburger, of the Transvaal, who is on a peace mission to the Free Staters in the field, is now in communication with Steyn.

Bear Promise Of Success.

Amsterdam, April 4.—A message has been received at the Boer headquarters here giving details of several Boer successes in the field. At a meeting of Boers in Brussels, yesterday, the opinion seemed to prevail that a cessation of hostilities against the British would be in view of England's continued refusal to grant independence to the South African republics. The Boer centre declares that the British demand that all the Boer troops shall capitulate before the negotiations with acting president Schalkburger are opened will not be accepted to until England guarantees a basis upon which the negotiations will bear promise of success. The Boers will remain firm on the question of their independence.

Where Canada Comes In.

Following is a summary of the orders received from the war office for supplies for the use of the British in South Africa since the commencement of hostilities: Hay, 180,000 tons; preserved beef, 995 tons; oats, 9,900 tons; flour, 4,100 tons; jam, 124 tons; baked beans, 1,000 cases; 975 blankets; 300,000 great coats, 50,000 serge suits; waggon, 50; tent pin bags, 10,000.

SHOT BY A BROTHER.

A Serious Accident In A Montreal Home.

Montreal, April 4.—Blanche Houde, three years of age, was probably mortally wounded yesterday by her seven-year-old brother. The boy, at his parents' home, Richmond street, found a loaded revolver, and accidentally shot the little girl in the abdomen.

The Allan-line steamer Numidian, sailed on Thursday afternoon from Liverpool, for Halifax and St. John, N.B., with fifty cabin passengers, 110 intermediate and 470 steerage.

Exciting scenes were again enacted at the opening of the stock exchange to-day in connection with the trading in Dominion steel, when the price jumped to 69 1/2 within a few minutes of the opening, after opening at 65 1/2, compared with 62 1/2 at the close, yesterday. In the first half hour the trading amounted to the sale of 900 shares of steel, common. The price was dull, but steady at 93 1/2. Dominion coal, also buoyant on immediate trading, rising to 12 1/2, after closing at 12 yesterday. The scramble for steel, common, at the opening on the part of brokers was decidedly interesting and big blocks were eagerly snapped up on the rise.

J. A. Wilson, president of the branch of railway trackmen, who is here with the committee of C.P.R. men this morning, stated they were going very smoothly and nicely along and that everything points to a satisfactory and amicable settlement of the trackmen's grievances. The committee of telegraphers is also at the Grand Union hotel drawing up a schedule to be presented to Thomas Tait, master of transportation, and C. W. Spencer, general superintendent of the C.P.R., which will not be ready for a week. The principal wants are ten per cent increase in wages and shorter hours.

Santos-Dumont Coming.

London, April 4.—M. Santos-Dumont, the Brazilian aeronaut, sails for New York to-day on the Hamburg-American liner Deutschland. The purpose of his trip is to assist the authorities of the St. Louis world's fair in the organization of the proposed balloon contest, and select a site on which to erect a balloon shed for himself. M. Santos-Dumont takes with him several tons of his special apparatus. This includes the frame, motor and the contributory portions of the Santos-Dumont No. 7, which has lately been completed in Paris.

Fred's New Hat.

—Fred wore a swell hat. The girls all said: "Where did you get it?" From George Mills & Co.

UNDER BRUCE CARRUTHERS.

Until Every Man Was Killed Or Wounded.

London, April 4.—There was severe fighting all day long on March 31st, in the neighborhood of Hart's river, in the southwestern extremity of the Transvaal, between part of Gen. Kitchener's force and the forces of Gen. Delarey and Kemp, resulting in the repulse of the Boers, after heavy losses on both sides.

Lord Kitchener's official report, dated from Pretoria, yesterday evening, says: "General Kitchener (lord Kitchener's brother) sent Col. Keir and Cookson from Vre Kuil, Western

LIUT. W. B. CARRUTHERS.

Transvaal, March 31st, to reconnoitre towards Hart's river. They soon struck the track of guns and carried on a running fight for eight miles, following the track through the bushes, emerging on a plain. Large Boer reinforcements advanced against their flanks, forcing the British troops to take up a defensive position in which they hastily entrenched.

"Fighting ensued at close quarters until the Boers were repulsed on all sides.

"Delarey, Kemp and other leaders vainly attempted to persuade them to renew the action. Fifteen hundred Boers participated in the engagement, but they had suffered too heavily, and cleared away to the north-west and south. The British losses were also severe.

"The Canadian rifles especially distinguished themselves, one party commanded by Lieut. Bruce Carruthers, holding its position till every man was killed or wounded.

"Others of the forces showed great steadiness allowing the Boers to advance within two hundred yards of them and repelling them with a steady rifle fire."

A TRAIN COLLISION.

Brakeman Killed And Engineer Fatally Injured.

Pittsburg, Pa., April 4.—Harry Dehen, fireman of Williamsport, Pa., and W. B. Mosher, brakeman of Olean, N. Y., were killed and engineer John M. Williams, of Pittsburg, was probably fatally injured by a freight wreck at Cragsville, on Buffalo and Allegheny divisions of Pennsylvania railway, at 12:30 o'clock this morning. The train collided with a huge pile of rocks. Two of the wrecked cars were loaded with cattle. Twenty of the animals were killed outright, and fifty were injured.

Will Prevent The Stroke.

Madrid, April 4.—The newspaper El Liberal learns that the government contemplates a stroke against its minister before the coronation of king Alfonso in May, and that the Carlists have bought arms in Belgium, alleging they were for the Boers. Preventive measures, on a large scale, the paper says, have been effected in the province.

Deserted His Wife.

Guelph, Ont., April 4.—Archie Newstead, who, on March 12th, married Miss Fiske, of Little Germany, sent his wife to Guelph yesterday, promising to join her later. Immediately after her departure Newstead hitched up a team and departed for some unknown destination. He left a note saying good-bye and intimating that he would explain later. It is feared Newstead is suffering from dementia.

Will Build Hundreds Of Houses.

Sharon, Pa., April 4.—This place is enjoying the greatest boom in its history. In the entire town there are no houses vacant, and travelers intending to stay at the hotels are obliged to make advance applications for accommodations.

Fire At Valleyfield.

Valleyfield, Que., April 4.—The large block, on Main street, owned by E. Dion, was totally destroyed by fire yesterday afternoon. The block was occupied by Dion's dry goods store, and a hardware store, owned by Gueland & Co., with a number of dwellings. The cause of the fire is not yet known, but supposed to have started from explosion in the cellar of the hardware store. Owing to the efforts of firemen the fire was confined to the one block.

Even In Toronto.

Very few firms carry as large assortments of fine-up-to-date hats as do George Mills & Co., hat specialists, Wellington St.

"Suits." Oak Hall "Suits."

Style, beauty, and fit are combined in our spring suits, \$8, \$10, \$12 and \$14. The H. D. Bibby Co.

That you Alice? Ask Jimmy Baker,

PREFER BRITISH COAL

Importations From America to France Over.

WHY BRITISH COAL IS BEST

TO CONSOLIDATE AND RE-MODEL STEEL WORKS.

The Rights And Patents Of Marconi's Wireless Telegraphic System For The United States Sold To A Company With A Big Capital.

London, April 4.—It is announced that the Wearside steel and coal company has decided to consolidate and re-model its work, on American lines. It will expend £30,000 for an improved plant, and will remove its works from Spennymoor to Cargreton on the river Tees.

The British consul at Havre reports that the importations of American bituminous coal, which were notable in 1900, have now entirely ceased, notwithstanding a reduction in freights, by which American coal can be delivered at Havre at practically the same price as British coal. The consul explains as the reason for this that the importers prefer British coal because it contains a greater proportion of larger pieces than the American, which is much more friable than the British and the method of loading in the United States.

It is officially announced that the Marconi company has sold its United States rights and patents to an American company with a capital of over \$6,000,000. The contract under which the dominion government pays a subsidy of £16,000 for the erection of a Marconi station on the coast of Canada has also been signed.

Great preparations are being made at Gainsborough, Lincolnshire, for the celebration of the tercentenary of the John Robinson church, which is noted for its association with the early history of the Pilgrim fathers. Rev. Dr. Scott, Newton, Mass., and Rev. D. M. James, Plymouth, Mass., will voice American sentiment and the Dutch premier is also expected to take part in the proceedings next June.

Lord Dunsford will assume command of the Canadian militia at the termination of O'Grady-Haly's term of office. Lord Dunsford is now at Ascot, awaiting the gazetting of the appointment.

Lord Dunsford anticipates his work in Canada with the keenest interest, and fully appreciates the conditions of Canadian life, which must guide him if he is to avoid the pitfalls of his predecessors.

Lord Dunsford sends this message for publication: "The Canadian who served under me in South Africa were men from the best of the best of the sole of their feet. To be more explicit, there are persons with rifles and men with rifles. When a general has men under him with rifles, he knows what he can do, and what risks he can take."

A TRAIN COLLISION.

New York, April 4.—An attempt of anarchists to distribute pamphlets at the Algotz memorial meeting, in this city, brought prompt suppression at the hands of the police. Three were arrested.

DISPERSED BY POLICE.

A Big Anti-Clerical Gathering In Madrid.

Madrid, April 4.—A big anti-clerical meeting at which the speakers urged the use of dynamite against the monasteries, was held here last night. The meeting was finally broken up and the audience dispersed by the police.

Total Canadian Deaths.

Ottawa, April 4.—The total number of Canadians who have died in South Africa since the commencement of the war is 207. The first Canadian contingent of infantry lost 68 men from wounds and disease. The second contingent, consisting of mounted rifles, dragons and artillery, 47; Strathcona Horse, 30; Canadian scouts, 10; South African constabulary, 45; Second regiment Canadian mounted rifles, 1; Canadians in other corps, 6. The deaths in the constabulary were mostly from disease.

Tailored To Fit.

This is a special make of men's suits, handled by this store alone in Kingston. They are made of the best Scotch tweeds and worsteds and retail at \$10, \$12.50 and \$15. See Jenkins' Hats.

Everyone remarks the very large stock of hats we carry. We make this part of our store especially attractive at this season. All prices and kinds.

La Kadosh cigars sold only by W. J. Baker, Princess street.

AMERICANS IN WEST CANADA.

The New York Sun's Estimate—Where They Come From.

New York, April 4.—The Sun says: All the farming land in the United States except the reservations has been taken up, but there remains in the dominion of Canada, between the great lakes and the Pacific coast, a district as large as Germany, Austria and France, for the most part untouched by the plough and the axe. It contains vast areas of arable land and pasture, magnificent forests and undeveloped tracts of great mineral wealth. It could support a population of 50,000,000. There is no finer grain country on the North American continent than Manitoba and Assiniboia. The Canadian government has been unable to convince European emigrants that the northwest was a land of promise. Its vastness, its loneliness and severe winter climate repelled them. If it depended on the European peasant farmer for settlement it would remain a country of splendid distances. But the men of Wisconsin, Minnesota, the Dakotas, Iowa and Nebraska understand the possibilities of the great prairie and forest country of the northwest, and although it is alien territory they are crossing the boundary by thousands with their farm equipment and house utensils to possess themselves of land. The spring migration already has reached the total of 10,000. It is estimated that before the twentieth year of the century 2,000,000 Americans will have settled in the Canadian northwest. The flag that flies over them will be a British flag.

SPEECHES ON THE BUDGET.

Two Western Men Contribute To The Debate.

Ottawa, April 4.—When the house adjourned last night there still remained a large number of members who had expressed their intention of participating in the budget debate. George Taylor, the conservative whip, was the first speaker and was followed by two western men, Walter Scott, a supporter of the government, and Dr. Roche, who sits to the left of the speaker. French speeches by Mr. Lemons (St. John and Berthel) and Mr. LaFavre (Provencher), occupied the attention of the house for the remainder of the day. On the opening of the house the report of the railway committee was presented. Robert Bickordie, who appeared in the house for the first time after a long illness, moved that the Montreal bridge company's bill (Mr. Belcourt), which was rejected by the railway committee, be referred back to that committee, on the ground that the promoters had not had a proper chance to present their case. This precipitated a debate of some length among the Montreal and Quebec members. The house on a division of eighty-five to sixty-two upheld the principle of not interfering with the decision of a committee, and defeated the motion to refer back.

Col. Hughes Brought Up An Article In The London Daily News, Reflecting On The Conduct Of Canadian Soldiers In South Africa, But The House Has Proceeded To The Orders Of The Day, So That He Was Ruled Out Of Order.

Soon Suppressed Them.

New York, April 4.—An attempt of anarchists to distribute pamphlets at the Algotz memorial meeting, in this city, brought prompt suppression at the hands of the police. Three were arrested.

DISPERSED BY POLICE.

A Big Anti-Clerical Gathering In Madrid.

Madrid, April 4.—A big anti-clerical meeting at which the speakers urged the use of dynamite against the monasteries, was held here last night. The meeting was finally broken up and the audience dispersed by the police.

Total Canadian Deaths.

Ottawa, April 4.—The total number of Canadians who have died in South Africa since the commencement of the war is 207. The first Canadian contingent of infantry lost 68 men from wounds and disease. The second contingent, consisting of mounted rifles, dragons and artillery, 47; Strathcona Horse, 30; Canadian scouts, 10; South African constabulary, 45; Second regiment Canadian mounted rifles, 1; Canadians in other corps, 6.
