The Hound of the Baskervilles BY A CONAN DUYLE

Wherein Sherlock Holmes reappears. "English fiction was permanently enriched when Dr. Doyle began his cycle of stories. The Sherlock Hol-

mes stories are immensely superjor to anything of Gaboriau's. The public not only buys and reads but discusses them continually, and it has so strenuously insisted having more, that Dr. Doyle has been obliged to yield to the demand, and in The Hound of the Baskervilles he of his methods. This will probably be the most remarkable story

Relatives Of Lieut. Bruce Carruth-

ers Still In Doubt.

The press desputches were evidently the only news that came through regarding the late engagements in South Africa. Mrs. Bruce Carruthers received no notification of the reportd wounding of her husband, who commanded a section of the Canadians who rendered such efficient service. This forenoon J. Bell Carruthess telephoned Dr. Borden, minister of militia, as to whether any particulars seems to have attained the perfection had been received concerning the engagement. Dr. Borden replied that the militia department had received no

notification of the disaster, and that

Amount Paid Surgeons Who Attended President McKinley.

Buffalo, April 4.-The Express says that it can be authoritatively announced that the amount to be paid to the surgeons who attended presiceed \$25,000. Many unauthorized statements have been made regarding the amount to be paid to the surgeons, some of them placing the amount as high as \$150,000. This, the Express will say, has been exaggerated guesswork. The surgeons have sent in no bills. They declined flatly to send in any and said that the question compensation was one that must be settled entirely apart from any bills rendered by them.
