### KRITZINGER ACQUITTED.

Charges Of Murder Were Not Sustained.

**TO PUBLISH DESPATCHES**

AS TO THE FIGHT AT SPION KOP.

Warning Readers Against Considering Seriously the Charges of Cruelty Brought Against the British Army.

London, April 8.—Lord Kitchener's despatch to the war office, yesterday, states that the British columns report seventeen Boer killed, six wounded, and three taken prisoner. At the lowest estimate since March 31st, the Boer casualties in the engagement of March 31st and April 1st, at Kleinhardt's River and Roebuck's Kop, are not included in these figures. At the lowest they are counted as thirty killed and eighty wounded.

Commandant Erasmus was killed on April 3rd.

The Daily Mail prints a note warning its readers against taking seriously the allegations of cruelty against the British army, which previous experience, it says, has shown are generally exaggerated when the charges are not baseless. Nevertheless, the paper gives prominence to Gen. Delarey's charges, and it adds, that its correspondent assures it that the report is unquestionably an authentic document from Gen. Delarey.

The war office announced that all despatches relating to the fight at Spion Kop will be published.

Kritzinger has been acquitted of four charges of murder, and is being well treated as an ordinary prisoner of war.

**A Trooper's Statement.**

Liverpool, April 7.—A former trooper of the Bushveldt cariboes, who has returned here, is quoted as saying that the convicted Boer officers, belonging to that corps, since disbanded, murdered from thirty-five to forty persons. As an instance of their cold-bloodedness, the trooper relates how three Dutch children, two brothers, ten and twelve years of age, respectively, and their little sister, survived in the cariboes' camp to be murdered, in order to be given food. The girl and one of the boys were wounded. The youngest boy took his little brother on his back and was carrying him off when a second shot killed both boys. The girl died shortly afterwards.

**Have Little Faith.**

New York, April 8.—A special cable to the Tribune from The Hague, says: "There is little faith among Boer sympathizers here that peace is imminent in South Africa. Hearts are hardened in consequence of the conference held here and at Utrecht, and the Boer convays and refugees are asserting, in a louder key than ever, that the war will last four years longer, and that there can be no peace without independence."

The despatch adds: "There are the strongest reasons for believing that Mr. Kruger and his associates have not been in direct communication for a long time with the burghers fighting in the field. Mr. Kruger himself is old, enfeebled and worn, and takes little interest in the negotiations now in progress. His associates control the action of the broken old man except in money matters. He retains a strong grip upon what remains in the war chest."

A London cable to the Tribune says: "Further details which are published of the engagement with Delarey at Hart's river, in the Transvaal, emphasize the fact that the chief honours of the fight, which was very severe, went to the Canadians."

**WILL SUE FOR DAMAGES.**

Deprives Him of His Wife's Society.

Bellevue, Ont., April 8.—An interesting case will be tried at the autumn sitting of the high court. The plaintiff is John Logue, of this city, and the defendant, David Y. Sills, a wealthy and aged resident of Foxboro, Port Hope, Ontario. Logue has a writ for \$5,000 damages on behalf of the plaintiff, who claims that the aged defendant has deprived him of the society of his wife and children, and that he has been unduly intimate with her since the defendant's departure from the city. The case will no doubt be one of the most sensational that has come before the court here in years.

**WIPED OUT BY LANDSLIDE.**

Entire Aspect of Bank of River is Changed.

St. Genevieve de Batiscan, Que., April 8.—There was a most peculiar landslide here on Monday morning. The farm of Joseph Baptiste St. Armand was completely wiped out and the entire aspect of the river Avoncel, where the farm stood, has been changed. The farmhouses, barns and granaries were buried and everything was demolished with the exception of the sitting room in the house, where the farmer's wife and six children were. The walls of this kept together, and they were with much trouble dug out uninjured.

**Dr. A. M. Hamilton Divorced.**

Sioax Falls, S. D., April 8.—Dr. Alvan McLane Hamilton, the well-known New York physician, called to examine into the sanity of O'Connell after the McKinley assassination, has secured a divorce and remarried here.

The Hamilton, Ont., board of trade has passed a resolution similar to one recently passed by the Toronto board of trade, expressing a desire for preference of trade on the part of Great Britain towards Canada.

### LIST COMPLETED.

The Canadian Casualties at Kleinhardt's River.

Ottawa, April 7.—The total list of Canadians who received wounds in the engagement with the Boers on March 31st at Kleinhardt's river, has been received. The remainder of the list came, to-day, at four o'clock by cable to government house, and the general list within a few moments transmitted to the press. It now appears that in the fight in which the Canadian regiment rendered such valuable service, the number of dead totalled eleven, and of wounded forty-six, including the four officers.

The additional list received here to-day contained the names of three dangerously wounded, six severely wounded, and thirteen slightly wounded. It also includes three members of the same regiment, who are seriously ill with enteric fever or dysentery. The companies that took part in the fight must have been principally from Ontario, as the list of wounded to-day shows that seventeen were from that province, two from British Columbia, one from Prince Edward Island, one from New Brunswick, and one from the United States. The soldier from the United States was enlisted on the train. The list follows:

A. G. R. Agassiz, aged twenty-three, Seaford, N.S., dysentery.

### IT WAS AN OVERSIGHT

That Canada Was Offered So Few Scholarships

BY WILL OF CECIL RHODES.

HOW WILL THE AMEER ACT TOWARDS HIM.

His Attitude to the Mad Mullah May Determine the Peace of the Indian Territory—A Riot at Montego Bay, Jamaica—Some Serious Results.

London, April 8.—Editor W. T. Stead, discussing Cecil Rhodes' will, to-day, states that the small number of scholarships granted to Canada was an oversight on the part of the great imperialist and that it will be remedied later.

A despatch from Peshawar records that the ameer of Afghanistan, his three brothers, and numerous notables, have been visited by the Hadda Mullah, the fanatic whose efforts have always been directed to embroiling Afghanistan and Great Britain. The Mullah presented to the ameer a new code of laws, which, it is believed, the Mullah will revise. There is considerable British interest in the Mullah's connection with the ameer, whose acceptance or resistance to the Mullah's influence may involve the peace of the Indian frontier.

A despatch from Kingston, Jamaica, states that a disturbance arose at Montego Bay, on Sunday evening. A serious riot broke out and ended in a fierce fight between the mob and the police. The latter were obliged to fire, and one civilian was killed and several wounded. Three police officers, who were seriously injured and sixteen constables were wounded. The government has despatched a force of military and police on the British cruiser "Prince of Wales" to Montego Bay. The report states that the trouble is entirely non-political.

According to the British board of trade returns for March, imports into the United Kingdom decreased in value £2,285,195 during the month. For the same period the value of articles exported showed a decrease of £2,804,055.

Extraordinary meetings were held yesterday, of the Metropolitan Railway company, at Birmingham, to consider a proposal for amalgamation with the Ashbury wagon company, Manchester, and other companies.

The idea of the new proposal is to form something in the nature of a trust among railway wagon builders, of which these companies are the chief in England, to fight the serious American and German competition. The capital of the new amalgamated company would be £978,000.

**Decides Against Passion Play.**

Montreal, April 8.—Archbishop Bruchési has decided against the "Passion Play" produced here a few weeks ago, and says if it is put on again he will forbid the faithful from attending.

The day after the play was produced for the first time the archbishop was asked whether he would take any action. He stated that he was obtaining views from persons who had seen the production. After hearing their views he decided against the play.

**To Give Memorial Cup.**

London, April 8.—At his dinner to a half million of the poor in London on coronation day, King Edward, himself, will present every one with a memorial cup. It will hold half a pint, and portraits of King Edward and Queen Alexandra will be printed under the glaze.

San Francisco, Cal., April 8.—Rear admiral R. D. Evans sails for Hong Kong today to report for duty as senior squadron commander of the Asiatic station.

### MAY BUY THE LINE

And Secure a Saving of Some Twenty Miles.

Ottawa, April 8.—The city council has decided to advertise for tenders for a telephone service in Ottawa, the tenders to be prepared to put in 4,000 telephones and not charge more than \$20 a year for each phone. The agreement with the Bell company expires in May, 1903.

It is believed here that the Canadian Pacific railway will buy the Pontiac-Junction railway, which runs from Ottawa to Watkinson, Que. The proposal is said to be to extend the Pontiac line to Chalk river, on the C. P. R. main line, and have the trans-continental trains run over the Pontiac division between Ottawa and Chalk river, making a saving of twenty miles in the distance.

**EXPELLED FROM PRUSSIA.**

Twenty-Eight Students Classed as "Troublesome Foreigners."

Berlin, April 8.—Details have been published of the case of twenty-eight students, mostly Polish, at the technical high school at Charlottenburg, a suburb of Berlin, who were expelled from Prussia by order of the police.

The circumstances go to show that they were expelled as "troublesome foreigners." Several of them were students of philosophy, and they included a young Prussian, Dr. Adele Silberstein.

**AN OPERATOR KILLED.**

Riding on Box Car Fell Under Wheels.

Port Arthur, Ont., April 8.—James Wilson, a young man, whose home was in Whitby, Ont., and who has been working for the Pigeon River lumber company, was killed, near Stanley, yesterday. Wilson was riding on the brake wheel of a box car, when he lost his balance and fell between the cars. He was a telegraph operator.

**Was Among The Wounded.**

Peterboro, Ont., April 8.—Michael Murphy, of this town, reported wounded, prior to enlisting in the mounted rifles was a sergeant in the 57th regiment. His father, O'Connor Murphy, formerly something in the nature of a Cripple war and the Indian mutiny. Murphy is about thirty years of age and has a wife and one child living here.
