Your Breakfast Tells.

The character of your breakfast to a large extent determines your condition for the day.

The use of Malt Breakfast Food will give you a full measure of energy, vitality and strength for mental or physical work and duty, and keep you free from distressing and depressing derangements of the stomach.

T. W. Dobbie, Provincial Land Surveyor and Conveyancer, of Tilsonburg, Ont., says: "I have been a constant user of your Malt Breakfast Food since spring. Now, I never have a breakfast without it when I am at home. I find that I am not troubled with dizziness or biliousness while using Malt Breakfast Food."

This is the blessed experience of all who have made Malt Breakfast Food a regular morning dish. It regulates and fortifies the digestive organism, enriches the blood and builds up strength. Thousands of letters giving proof of banishment of stomach troubles by use of Malt Breakfast Food have been sent to the manufacturers of this noted cereal food. Grocers everywhere recommend the popular food.

THE K.B.C. ANNUAL MEETING

SIDNEY SMITH WAS ELECTED PRESIDENT.

Messrs. Pense and Shaw Present —The Officers Elected — Yacht Club Hold its Annual Meeting.

The annual meeting of the Kingston bicycle club took place last evening at the club rooms on Queen street. The attendance of members was very large. In the absence of the president, Henry P. Smith, the energetic secretary of the past year, Sidney Smith, occupied the chair. The chief business taken up was the elections of officers, which resulted as follows:

President, Sidney Smith (by acclamation); vice-president, C. McCullough; secretary-treasurer, D. H. Campbell (by acclamation); captain George Evans; first lieutenant, J. Gordon; second lieutenant, W. Moore; auditors, H. P. Smith and Edward Lyons; official reporter, Frank J. Hoag.

After the elections were over an adjournment was made to the fine rooms on the first floor, where the members were joined by Edw. J. B. Pense and mayor Shaw, both members of this popular club. The question of erecting a club house of their own was brought up and discussed. Plans, prepared by H. P. Smith, architect, were submitted, showing that a fine house, suitable in every respect, could be built for about $3,000. Some of the members thought the city would give them a free site in one corner of the cricket field, but the mayor quickly dispelled this illusion, by saying the city would not consent to that. Mr. Pense told the members that he would do all in his power to help them towards acquiring a home of their own. The presiding, Messrs. Pense, Shaw, Hoag, Campbell and Crawford were appointed a committee to consider the possibility of raising the necessary funds and securing a suitable site.

The various reports were held over until the next meeting of the club, when the above committee will also report.

Yacht Club Meeting.

The annual meeting of the Kingston yacht club was held last evening. The attendance was very large. In the absence of the commodore, Lieut. Bruce Carruthers, who has so splendidly acquitted himself in South Africa, the chair was taken by the vice-commodore, J. H. Macnee. The election of officers resulted as follows:

Commodore, J. H. Macnee; vice-commodore, Sandford C. Calvin; rear commodore, R. Easton Burns; secretary, Charles Kirkpatrick; treasurer, Frank Strange; measurer, Henry Cunningham; executive committee, Dr. Black, J. J. C. Almon, James Conway, Ross Murphy and A. C. Johnston; regatta committee, K. A. Cameron, Col. Drury, J. A. Dalton, Frank Strange and H. Waddell; auditors, S. McBride and T. J. Rigney.

The secretary's and treasurer's reports were very satisfactory, the financial statement showing a balance on hand. During the year the members have purchased about $115 worth of stock from the yacht club company (limited). During the six years the club has been in existence, the members have purchased about $900 worth of stock, leaving only about $550 more to buy. The membership of the club exceeds 200, a small gain over last year. Resolutions of thanks were passed to the retiring officers.

Sporting Notes.

The Ramblers will organize a baseball team and enter the local junior league.

Captain Barker is very optimistic regarding the Canadians' chances for the grand challenge cup at Henley.

George Sullivan expects to leave to-morrow to join the pitching staff of the Providence baseball team. Kingston will thus be interested in two Eastern league teams this season.

The Toronto baseball team will be called the Maple Leafs. The players' shirts will have a large maple leaf worked on them and the hats will have a maple leaf in miniature.

Antoine Wendling, Brockville, owner of DeVeras, 2.11¼, is in receipt of a communication from Richard Steacy, Lyn, conveying the information that the mare bred to DeVeras last fall is now in foal.

At no period in the history of the turf were thoroughbred yearlings ever in greater demand than they are at the present time. A good colt or filly will bring an enormous price in these times.

Hamilton will again be represented in the historic Marathon road race, to be run at Boston on the 19th inst. Champion Caffery has been in training for some weeks and he firmly believes that he can duplicate his feat of last year.

Toronto Telegram: Toronto university has turned out its gold medalists in many subjects, but where have they ever equalled the glorious record of Queen's college, Kingston, in turning out a baseball catcher like Chaucer Elliott?

Dr. W. G. Hudson, New York, made a new world's record at 200 yards on the American target, 100 consecutive shots. In spite of unfavorable conditions, he made 900 points out of a possible 1,000. The record previous to this was held by Theodore Geissel, Springfield, Mass.

Montreal Herald: Here is some more Yankee self-glorification. This particular morsel is from the New York Telegram: "It was an American boy who won for Oxford a victory over Cambridge in the recent field games between the two great English universities. His name is William Coe, jr., and he resides in Boston. He captured the hammer throw and the shot put." Had Oxford won the boat race the claim would have been made that it was the two Buffalo boys that won it. As they didn't we haven't heard the Yankee scribblers say that it was the Buffalo boys that lost.

The Great Concert.

For the delightful concert on Thursday evening at the Grand opera house to be given by Plunket Greene, assisted by Mrs. Dorothy Harvey, the beautiful soprano, of New York, and Rudolph Von Scarpa, solo pianist, books of words will be furnished of the songs. Mr. Greene is a great believer in his audience thoroughly understanding the pieces he gives because there is so much nicety of expression in his rendition that its delicacies are sometimes lost unless their simplification is understood to the fullest extent. Mr. Greene will sing two groups of numbers and a delightful programme he will give.

Our Coal Is as Clean as Though It Were Washed and Brushed.

EACH LUMP STANDS BY ITSELF. GOOD solid coal—so much solid fire. After coal reaches the surface of the earth from the mines, impurities are picked out by hand. Thereafter it is screened several times before it reaches you, and dirt, slate, etc., really have no chance, if the dealers are careful. We are very careful.

COAL For The Consumer.

Egg coal is needed at Easter time to cook the eggs. It is also usually needed to keep the cook and family warm. Don't make the mistake of letting your coal stock dwindle for spring may prove cold and chill, as she has often done before. A warm coat and a good fire will be appreciated at intervals till the middle of June.
