One Phase of the New Woman

It is quite the thing just now to make sport of the aggressiveness of the new woman, but there is one thing that the new woman is fitting herself to do, for which she must be commended, and that is, either to earn her own living or to supplement her ordinary income.

A Terrible Case of Eczema

Powley's Liquefied Ozone Works Miracles With Vincent O'Neill of Toronto.

He Was Treated in St. Michael's Hospital Without Improvement.

No. 1. Taken February 28, 1901, when suffering from Eczema.

Vincent O'Neill, 108 Mitchell Ave., Toronto, Canada, a lad aged sixteen years, first came to the attention of our Toronto office about February 28, 1901. He was then suffering from an aggravated case of Eczema, (Lupus Erythematosus), involving the entire right side of the face, both eyes and lips.

No. 2. Taken June 12, 1901, cured by Powley's Liquefied Ozone.

He began about the spring of 1899, and steadily became worse. He entered St. Michael's Hospital early in October, 1900, and remained there under treatment three months and a half, until January 27, 1901, without improvement, and was then discharged from the hospital.

Powley's Liquefied Ozone was administered internally and as a local dressing in strength 1-4, gradually increasing to equal parts. The improvement was observed almost at once; the discharge gradually ceased the general health improved, and at the end of twelve weeks, his face was perfectly clear.

THE PHOTOGRAPHER'S STATEMENT

That there may be no question that the photos numbered 1 and 2 are genuine and reproduce faithfully O'Neill's features before and after taking Powley's Liquefied Ozone we present herewith the solemn declaration of Mr. Fred Micklethwaite, Photographer, 11 King Street, W., Toronto, that they are absolutely as he made them.

FRED MICKLETHWAITE, of the City of Toronto, in the County of York, Ontario, Province of Ontario, do solemnly declare that on or about the 28th day of February, 1901, the boy Vincent O'Neill was brought to my studio, and that photograph No. 1 is a correct portrait of the condition of his face at that time.

Declared before me at the City of Toronto, in the County of York, this 27th day of Aug. in the year of our Lord, 1901.

WHAT HIS FOREMAN SAYS:

To WHOM IT MAY CONCERN: Vincent O'Neill is in my employ and is the young man that was cured by Powley's Liquefied Ozone. He is well and works every day, and is free from his former serious face trouble.

Powley's Liquefied Ozone is stable oxygen. It supplies the body with this element. It is blood food—purifying and healthening that function. It cures all forms of skin trouble, makes a pure clear complexion.
