

**MRS. IDA L. ROSEN**

Grand-Niece of Ex-President James E. Polk, Writes to Mrs. Pinkham Saying:

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painfule menstruation, until very recently.

MRS. IDA L. ROSEN.

The value of Lydia E. Pinkham's Vegetable Compound called to my attention by an intimate friend, whose life had been a torture with inflammation and ulcerated sores. Two bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties will be easy now. I feel so strong I can do three times what I used to do. You are a host of friends to Doctor, and among the best. Yours very gratefully.—Mrs. Ida L. Rosen, 326 15th Ave., Denver, Colo."—\$5000 forfeit if above testimonial is not genuine.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice. It is free.

**HOW TO GAIN FLESH.**

Golden Rules for the Too Ethereal Women.

According to a writer in the New York Post, the two ethereal women may increase her avirginity by following these suggestions:

To gain flesh, eat a hearty breakfast and dinner and a light luncheon. Bread, butter and stewed fruit and milk are necessary articles of diet. Let the bread be brown, or gluten loaf, and have the milk hot, but not scalded; take some often during the day, but eat no solids between meals. Olive oil on fresh green salad and cream with baked bananas are fattening foods.

Before retiring take a warm bath to induce sleep, which aids in increasing flesh. Devote ten hours to sleep and if possible rest ten minutes every afternoon.

**THE RUSH OF COLONISTS.****STANDS PROVIDED TO VIEW THE CORONATION.**

Canada and Other Large Colonies Will Have Four or Five Hundred Seats Allotted—Extraordinary Claims to Share Colonial Privileges.

London, April 16.—The Daily Mail says that the government has promised to provide thousands of seats for the colonists to view the coronation procession. By invitation of Lord Strathcona, the various agents-general met at the Canadian office and it was announced that each of the larger colonies is to have four or five hundred seats allotted to it, and that the agents-general will have the privilege of portioning them out. The smaller colonies will have seats in proportion. The allotting of the seats will be deferred until the whereabouts of the stands is made known by the government.

Already shoals of applications are coming in upon the agents-general, and many of these are remarkable mainly for their unblushing audacity. People whose great-grandfathers once lived a few years in one or other of the colonies are trying to make out claims to seats on the score of colonial birth or ancestry. One ingenious German thinks he has a claim to a place because a distant ancestor of his mother's side spent a considerable period in Australia many years ago.

It is estimated that the visitors from Canada and Australasia alone will number no fewer than 8,000, and when those from India, South Africa and other colonies are added the number will probably reach 12,000.

**LIKELY A CANDIDATE.**

The Dominion Alliance Wants Candidates to Obey It.

Shelburne, Ont., April 16.—The temporary electors of the county of Dufferin convened here yesterday and appointed a permanent county executive with A. O. McKittrick, Orangeville, as president. John A. Nichols, organizer of the Dominion alliance, was present and addressed the convention. The question of bringing up a temperance candidate came up and after much discussion it was decided that the county executive should interview the local party nominees and endeavor to procure a written pledge from them to support such legislation for the restriction or prohibition of the liquor traffic as shall have the approval of the Dominion alliance. In the event of the candidates' refusal to give such pledge the executive is seriously to consider the advisability of bringing out the strongest temperance candidate available.

**Croyden Chronicles.**

Croydon, April 15.—M. A. Williams, having obtained a license, is running a first-class village hotel, as of old. J. W. Clancy has made an arrangement of his stock in groceries and left the village. The water wheel of the mill which was broken a few days ago, is again in running order. Miss Edna Davy is at Newburg, learning the trade of lace-making. Miss Edna McKeon is visiting friends at Catarquini. A large number of the students are ill, and have been removed to the hospitals. The authorities are helpless and are greatly perplexed as to what course to pursue.

**STRUCK OFF THE PAPER.**

Senator Landry's Motion Suppressed by the Speaker.

Ottawa, April 16.—The speaker's action in causing the disappearance from the order paper of a motion by senator Landry, said to have referred in a most undecorous manner upon Dr. Beland, member for Quebec, formed the chief topic of discussion in the senate yesterday. The speaker was sustained by his fellow-members as having acted from a becoming desire to sustain the dignity of the upper chamber. Mr. Speaker, on being interrogated by senator Landry, said the latter's motion was irregular, had no bearing upon anything before the senate and reflected upon a member of the lower house. Hon. R. W. Scott said the motion in question was a cowardly attempt to malign the character of a member of the commons on an aspiration which the author would not dare to make out. There was a general expression of opinion in favor of the speaker's action.

In reply to a question by senator Landry as to whether the militia would be called out for training this year, or simply the officers and non-commissioned officers, Mr. Scott said the master was under consideration.

In the railway committee on Tues-

day the provision of the bill confirming the agreement between the Bathurst company and the Bay of Quinte railway company relating to the in-

crease of capital stock of the railway company elicited some opposition. It was amended, limiting the capital stock to \$1,500,000, instead of \$2,500,000.

The railway company proposed to

build a line of railway along the

shore of the Bay of Quinte and across

Douglas Edward county to Picton. W.

F. MacLean objected to the indefiniteness of the bill, and insisted that the point of crossing the bay of Quinte be specified. Mr. Acorn (Prince Edward county), supported Mr. MacLean's contention, and the bill stood for fur-

ther consideration.

No Surrender.

Do not say out of control, do not the

not the smoke of control, and the loss of

the life.

Nor the deathless glory of our noble sons,

or in the lonely anguish of the wounded ones.

It is something that is greater than we tell to-day.

Of our gallant heroes that have marched

Landed from the Ocean they quickly were in

file.

Like the dauntless forces of the Upper Nile.

As yet unshaken in battle or in the clash of war.

They faced the whistled parrado and the fierce bison.

For our boys were ready and it sealed their fate.

"On, my lads!" cried Carruthers, and the rifles rang.

As our boys were lessening and the bullets

hit the iron shield and staved on the battle plain.

They had in dire confusion, not to return again.

It is a ghastly compass for our sons that

for all lay dead or wounded in the battle

gray.

These shall be immortal on the nation's scroll;

Let millions tell the story while the ages roll.

We sleep to-day in sadness, for some hearts

are sore.

We wait for loved one that will return

no more.

They fell amid the carnage, for they would

And sing a falcons garland on the battle field.

Students Confined in Prison Refuse Food and Drink.

Vienna, April 16.—The Arbeiter Zeitung prints a dispatch which states that the students confined in the Austrian prison are carrying on a starvation strike. They refuse absolutely to take any nourishment, enduring the agonies of hunger and thirst with the greatest fortitude. Many of the students are ill, and have been removed to the hospitals. The authorities are helpless and are greatly perplexed as to what course to pursue.

MISSOURI MAN A SECOND JOB.

St. Joseph, Mo., April 16.—A pecu-

liar train of misfortunes has followed

John Kirch, until recently a wealthy

stockman and farmer, residing near

Maryville, Kan. Monday his only son

was fatally hurt by the breaking

of a candle stick puller. Kirch

is now the sole survivor of his

mother and mother, his wife, his

mother-in-law, and two children, besides

suffering the destruction of his farm

property by fire and the loss of a

son by typhoid fever.

He is himself believed to be stricken with a fatal illness, and with his death will be

deceased every member of a family of ten.

No blood relatives will be living.
