

Desperately Afflicted.

Joe. Coran, of Montreal, Cured of Rheumatism of Ten Years' Standing, Not by the Use of Drugs, But Through Povey's Liquid Ozone.

It is with pleasure I give you my testimonial as to the curative powers of Povey's Liquid Ozone. For over two years past I have suffered very much with rheumatism, sometimes so bad I could not sleep at night, and I had to quit work. Two years ago I was laid up nearly two months, and since then I have been very bad.

JOE. CORAN, Montreal.

I saw some Ozone advertised, the medicine appeared to me, so I procured a bottle and began taking it. I had not gone about the bottle when I began to get better, my rheumatism being three bottles, and my rheumatism is completely cured. I am in better health now than I have been for the last ten years.

Sometimes for weeks my feet were so swollen and pained so badly I could not walk, and my hands would swell up out of all shape. I could hardly button the shoes, and could not use my hands.

I attribute my recovery entirely to the use of Povey's Liquid Ozone. I am in better health now than I have been for the last ten years.

This testimonial is attested by A. P. Hill, who writes: "I received your testimonial from Joe. Coran, 45 St. Antoine St., Montreal, P.Q. This gentleman has suffered for over ten years with rheumatism. About two years ago he was so bad he had to quit work for two months, and since then he has been so bad that sometimes he could not use his hands, they were so badly swollen."

Mr. Coran says he cannot say too much in favor of Ozone, and will ever recommend it. He writes: "I had not gone about the bottle when I began to get better, my rheumatism being three bottles, and my rheumatism is completely cured. I am in better health now than I have been for the last ten years."

Most people fancy that when they have an attack of rheumatism their case is incurable and ready themselves to suffer like martyrs. Your rheumatism is caused by one germ, and it is not incurable. It is a matter of time, and it is not incurable. It is a matter of time, and it is not incurable.

With the same success, the Ozone has cured rheumatism in a number of cases. It is not incurable. It is a matter of time, and it is not incurable.

A HERO OF HART'S RIVER

CHARACTER SKETCH OF PTE. CHARLES NAPIER EVANS.

Fond of Athletics, a Good Rider and a Good Shot, a Successful School Teacher and a Christian—Engaged to a Fort Hope Young Lady.

Those who know Pte. Charles Napier Evans, who with heroic bravery paralleled, continued in the fight at Klein, Hart's River on March 31st, after being mortally wounded and who, after exhausting his supply of cartridges, broke his rifle rather than permit it to fall into the hands of the Boers, regard him as an ideal Canadian. That he displayed the enduring courage and grit that one likes to associate with the appellation, "Canadian," was no surprise to those who had been intimate with him, for coolness, integrity and the determination to remain steadfast to his convictions, were ever characteristics that caused Pte. Evans to be held in high esteem.

Additional sympathy will be aroused by another circumstance that has not been generally known. Just before he enlisted Evans became engaged to one of Fort Hope's most charming and talented daughters, Miss Cora Tapscott, who was a former schoolmate and who has been taking a course at Toronto university.

He was born in Fort Hope twenty-eight years ago and was educated in the public and high schools, graduating from the latter institution in 1891. Then he took a teacher's certificate and taught near Deseronto for three years. Of military character, he spent a year at the Owen Sound collegiate institute, passing the senior leaving examinations. He went to the Normal college, Hamilton, and on obtaining a first-class position on the Chatham public school staff and subsequently removed to Amherstburg to assume similar duties in the school in that town. In his profession he achieved success and was rapidly qualifying himself to occupy higher positions, when the summons came last winter for another contingent.

Pte. Evans had taken a military course in Toronto, in one of his vacations, and had become intimate with a month for soldiering. He could not resist the call to arms and enlisted with the Mounted Rifles at London. Squadron E, of which he was a member sailed on the steamer Manhattan, and arrived at Durban on February 10th. With the same squadron went his brother, Will, who had also enlisted in London. They were the only sons and children of harbormaster James Evans, of Port Hope.

Both were fine specimens of hardy Canadian manhood. They stood well over six feet in height, were strong and well proportioned in frames, and straight as pines. "Handsome is an handsome does," is an adage that has lost none of its truth for such age, and it could not be more fittingly applied than in the case of Charlie Evans. Straight he was in appearance and straight in his life. Through his blue eyes shone the soul of a boy who had the courage to express and to stand by his convictions. As a school boy, Charlie was popular amongst his companions for he was always ready for any harmless piece of mischief; he was quite as ready to confess his part in it to the teachers when the inevitable disclosures came and to take his punishment gamely and what was more important in the juvenile eyes he never peached. He

trapped Dr. Purlow, the genial head of the Port Hope high school one day and this was the way of it. The plum-tree of a neighbor extended their branches over the school fence and as the fruit was becoming over ripe and was distributed among the boys with prodigality. The owner complained and the doctor, after addressing the boys of the school, asked those who had detached the plum from the parent bough to stand up. Evans was one of four who jumped to their feet, and though there had been a score or so, who had despoiled the branches, yet the quartet bore all the blame. Dr. Purlow has a pretty flow of language and he did not spare the four confessed culprits. At the conclusion of the lecture, Evans craved permission to put a question to the principal and on the request being granted, asked in ringing tones: "Does the table say, doctor, that the receiver is as bad as the thief?" There was a dead silence for a moment and then, before the boys could screw up courage to smile, the doctor sternly commanded Evans and his three companions to return to their school. So the question was never answered. The trouble was satisfactorily adjusted in a few days and none of the four suffered in the estimation of teachers or pupils.

In athletics Evans was proficient. He was an expert canoeist and could handle a sail boat with more than ordinary skill. Many and hard fought were the rugby battles on the campus of Trinity college school, in which he participated. That was in the palmy days of rugby history at the college when the latter's honor was upheld on the gridiron and elsewhere by Joe and Ed. Keegan, of Waterloo, Ed. Senkler, of Brockville, Davis, the Indian, Barker, of Hamilton, Daykin, of Ottawa, Ferguson, Doane, Keyes, Stairs, later of South Africa, Hamilton, Ogilvy, Ballantyne and others.

Evans joined the Methodist church in his native town some years ago and became a most consistent christian. He had almost made up his mind a few months since to become an evangelist and was studying to that end. He felt that he owed it to his country to bear arms on its behalf and when it was seen by his family that he was rapidly qualifying himself to occupy higher positions, when the summons came last winter for another contingent, Pte. Evans had taken a military course in Toronto, in one of his vacations, and had become intimate with a month for soldiering. He could not resist the call to arms and enlisted with the Mounted Rifles at London. Squadron E, of which he was a member sailed on the steamer Manhattan, and arrived at Durban on February 10th. With the same squadron went his brother, Will, who had also enlisted in London. They were the only sons and children of harbormaster James Evans, of Port Hope.

BOUGHT OUT THE STOCK

D. E. STARR HAS SECURED BUSINESS IN NAPANEE.

Rare Enjoyment at the Wigwam—The Occupants Think They are Quite an Acquisition to Town Life.

Napanee, April 16.—The stock of Lacey & Co. has been sold to Mr. Starr, of the firm of Starr & Sutcliffe, Kingston. The new proprietor will be ready for business in the course of a few days.

Harry Hunter has begun operations on his recently acquired property on John street. New modern windows are to be put in and some inside alterations made before W. A. Daly moves in in May.

Gen. Cox and his army are now nicely settled in the "Wigwam" on Robin's Hill, and have begun to enjoy their days of stay amongst us. They had a notice displayed yesterday that a "sugar social" would be one of their attractions last night. No doubt the evening would be one of rare merit, as the "sugar social," the fashionable game, was to be indulged in. For afternoon amusements they have lawn tennis, base ball, rifle practice, basket ball, and golf. Some of the company are already showing their artists' powers, and have most advertisements along the road front. They are loud in their praises of the camp men, but complain dreadfully of the stretchers they have to lie upon at night, but then perfection in everything is not to be expected in a camp life as they are forced to submit to for their country's sake.

He Fought The Lynx. The school teacher at Millertown, Newfoundland, has distinguished himself by dispatching a lynx with a few evenings ago, with his rifle on his shoulder, he started for the woods in pursuit of game, and had just entered a lonely path when he found himself face to face with a white-headed lynx. The cat-like animal was the first to take in the situation, and before the pedagogue could ask him if he wasn't too early for school made a spring for the teacher's throat. The latter was equal to the occasion, and not having time to fire, clubbed his rifle and met the beast half way with a blow that laid him low. The gun was badly damaged, but the teacher came through unscathed, and is now the hero of Millertown.

Big For Marriage Fee. A Lutheran minister in a western Maryland town told me an amusing story the other day. "I was a gentleman to a reporter. 'Some time ago a street of the town an old German advanced toward him with extended hand. The minister shook hands,' but remarked that he could not recall his name. 'Oh, yes,' said the reporter, 'I remember me! I am the man who gave you a pig when you married me.'"

Looking Out For Papa. A recent little maid of four years was distressed the other evening because her father did not come home to dinner on time. Her grown-up sister said to her: "Papa is naughty, and when he comes we will give him any tea."

When he did come, the sister sent the teapot out to the kitchen for fresh tea. The baby looked on with a troubled face and stole softly to her room. Shortly after returned with something squeezed up in her tiny fist. Going up to her sister, she whispered: "Annie, I'll give you all my pennies if you'll give papa the teapot handle and the tin."

SHOT BY HIS FRIEND

Tragic Accident at Quebec That May Lead to Death.

Quebec, April 15.—A sad accident occurred yesterday, on the Cove fields when Alexander Cunningham, foreman in this city for the Leyland company, was accidentally shot by Fred pany, another employee of the company. Both young men went to the cove fields for target practice, and while Mr. Cunningham was placing a target in position, in Jacques' hand, and who was standing a short distance off, the victim was conveyed to the Jeffrey Hale hospital, where Dr. George Parke and Ross presided through the spinal cord and embedded itself in the one of the vertebrae. Owing to the weak condition of the victim the operation had to be postponed.

Episcopal Bishops Meet. Cincinnati, O., April 16.—Sixty of the eighty or more bishops of the foreign missionary bishops, are attending the special meeting of the Episcopal church, which began here to-day. The meeting is one of considerable importance to the church. The principal business before the meeting is the election of missionary bishops for western Kansas, the Hawaiian islands and Porto Rico. Interest centers in the selection of a successor to the bishop for Honolulu, where bishop Nichols, of California, is now acting pending the selection of a successor to-bishop Willis, who resigned under protest after his return from Mexico in the control of the British church into American hands. Another matter of importance before the house of bishops is a memorial from the Mexican Episcopal church, asking permission to enter the American church.

Honore McKinley's Memory. Paris, April 16.—One of the most distinguished audiences ever assembled in Paris filled the theatre Comique to-day, on the occasion of the benefit performance for the McKinley memorial fund. Although organized by the American colony of Paris the French people and the French government aided the affair with their sanction and premier Waldeck-Roussseau and other eminent representatives of the American embassy. More than a score of the most prominent theatre and singers of Paris contributed their services and it is believed that fully \$100,000 for the memorial fund will be realized by the performance.

Changes On The Jersey Central. New York, April 16.—Charles H. Warren, for the past five years vice president of the Central railroad of New Jersey, practically ended his connection with the road to-day when he departed for Europe. Mr. Warren resigned some time ago and his resignation will become effective June 1st. Upon his return from Europe Mr. Warren will take the active management of one of the big western systems. His successor on the Jersey Central is W. G. Beiler, late of the Philadelphia system, and Reading, and for many years prominently identified with the Burlington system.

Health In British Army. Troidnick, England. Gentlemen: As a preventative against sore feet there is nothing so equal Kelpion. The many foot powders we had were absolutely useless. I was never troubled myself with sore feet, owing to taking the precaution to rub them with a little Kelpion over night. Many men of my company have asked me, at times, what's good for a sore heel? I always advised them to use their Kelpion, and after doing so would come and express their surprise to me. I think it a great pity it was not known among the regular troops, for while I was detached from the regiment, I saw some very bad cases of sore throats and feet, and had they been in their possession a pot of Kelpion there would have been no need for so many of them to report their selves lame. G. C. Tenbridge. (Signed) C. Sergt. N. Co., 1,282, C.I.V. At all druggists, 25c.

Power Of Print. A newspaper whose columns overflow with ads of business men has more influence in attracting attention to and building up a town than any other agency. People go where there is business. Capital and labor will locate where there is an enterprising community. No power on earth is so strong to build up a town as a newspaper well patronized, and its power should be appreciated.—Rev. T. De Witt Talmage.

Ke-Ke-Oil is being extensively advertised in the states.
